Minutes
of Public Consultation under the provisions of paragraph 3 of article. 23 of Decree No 31/2012 of 8 August approving the Regulations on the Resettlement Process Resulting from Economic Activities

FIRST PUBLIC CONSULTATION
“RESETTLEMENT PROCESS, PROJECT IMPACT AREA AND RESETTLEMENT SITE”

A community consultation meeting was held on July 8, 2014 in Senga village, Mute Locality, Palma Headquarters Administrative Post, Palma District, within the scope of the First Public Consultation on the Preparation and Implementation Process of the Resettlement Plan concerning the Liquefied Natural Gas Project in the Rovuma Basin, with a single agenda of gathering inputs from the communities about the “Resettlement Process, Project Impact Area and Resettlement Site”

The meeting was chaired by the Hon. Pedro Romão Jemusse, as Palma District Administrator and it was attended by the following:________________________

Palma District Government represented by: Mr. Amade Omar Mpoto - Head of Mute Locality; Mr. Carlos Fabião Namo - Health, Women and Social Action District Service Director (SDSMAS); Mr. Carlos Paulo - Economic Activities District Service Representative (SDAE); Mr. Cornélio Siebo - Head of the Administrator’s Office; Mr. Albino Bernardo Bacar - District Secretariat Technician.________________________________________________________

Government of the Cabo Delgado Province represented by: Mr. Policarpo Maria do Rosário Napica, Coordination of Environmental Action Provincial Director (DPCA); Mr. Ramiro June Nguiraze, Mineral Resources and Energy Provincial Director (DPRME); Mr. Mariano Caetano Jone, Agriculture Provincial Director (DPA); Mr. Rábio Nordine, Advisor to the Governor for Economic and Social Affairs; Mr. Tiago Cherene, Head of the Geography and Cadastre Provincial Services (DPA); Mr. Hélio Brondalo, Land Sector Technician-DPA.____________
Anadarko Moçambique Área 1, Limitada (AMA1) represented by: Mr. Alcido Mausse, Government Relations and Social Affairs Director and Mr. Alexandre Jossias, Environment and Safety at Work Director, as well as by the consultants contracted by the company: Mr. Inocêncio Maganha and Mr. Pedro Wate.

Empresa Nacional de Hidrocarbonetos (ENH) represented by: Mr. Julião Nhaquila, Head of Social Projects and Ms. Suraia Mussa, Environmental Technician.

Eni East Africa SpA Mozambique represented by: Mr. Herculano Vilanculos, Social Projects Representative, Mr. Michaque da Silva, Civil Engineering Supervisor.

And the Senga Community which was represented by about 323 participants ranging from residents, Community Resettlement Committee members (CRCs) and the village leadership figures. Out of this figure, about 60% of the participants (193) were women.

The meeting started when it was about 9 o’clock with the Head of Mute Locality addressing warm welcome to the participants. After that he gave the flow to the Administrator in order to chair the meeting.

In a gesture of introduction, the Administrator welcomed the Senga community and praised them for their hospitality and collaboration with the Project. He also said that he expected the meeting to clear out doubts regarding the issues scheduled for it. He also stressed the importance of the role of the community and its contribution to the success of the project. For this particular meeting, he called for the participants to give their opinions and contributions related to the issues addressed in the agenda, and that the participants should avoid addressing outmoded subjects and also avoid being repetitive. In his concluding remarks, he invited the Director, Mr. Napica (DPCA) to make comments on the meeting.

Thus, the Director, Mr. Napica also welcomed the participants and the community
in general, stressing the fact that months ago he participated in about two meetings in Senga and now he has noticed enthusiasm in the population. He expressed his satisfaction by saying that the community has grown in its relationship and collaboration degree with the Project.

After that, a team of consultants presented the main topics of the Public Consultation. The presentation was divided into phases, and it followed the following order:

Mr. Inocêncio Maganha, on behalf of AMA1, made a brief presentation on the resettlement process. He explained to the community that resettlement is the physical removal of people from one area to another by virtue of a specific project, with an opportunity of improving their level of living. He went further saying that the resettlement process is in the stage of physical and socio-economic data collection and analysis, which, in general, is characterized by data collection regarding the communities affected by the Project, quantification of affected families and survey of their property, livelihood, fishing and agriculture activities, physical and environmental characterizations, socio-economic studies, identifying the needs and preferences of the affected population and public consultations. The data collected will then be submitted to the Government for consideration and approval. Moreover, he also highlighted the role played by both the Government and the Senga Community as the main actors for the realization of the Project, in compliance with the national legislation and international best practices. He also emphasized the efforts made in order to strengthen the capacity of the Community Resettlement Committees as a way of ensuring community participation in the whole resettlement process.

In the second part of the presentation, Mr. Pedro Wate on behalf of AMA1, continued with the presentation thus focusing specifically on the limits of project impact areas during the gas liquefaction plant and port structures construction and operation. He also talked about the emission and the consequences of noise, intense light and explosion hazards. With the illustration from the maps, he showed the community the exclusion areas, transition zone and the alternative sites for the resettlement of the affected families. He underlined the importance of complying
with safety and environment standards and the restoration of the livelihoods of affected families.

Finally, the questions and answers session was opened, by inviting the participants to give their contributions in an orderly fashion.

The participants raised their questions on the consultation issues as follows:

1. Mr. Leonardo Nfaume raised his question as follows:
   • At the beginning people only talked about Anadarko. But now people also talk about eni. The community would like to understand the emergence and meaning of the company called eni. Is it a new partnership?

Commenting on Mr. Leonardo Nfaume´s question, Mr. Ramiro Nguiraze (DPRME) said that:
   • There is no problem. AMA1 has always worked offshore and because of that its activities affect coastal communities. Hence the obligation to carry out public consultation in accordance with the procedures established by law. eni is very far from the offshore, onshore, where it does not affect the communities. Given that the gas will be extracted onshore and processed offshore, eni will have a processing plant in the same area as AMA1. Thus, both companies have partnered and will work together.

2. Mr. João Tobias gave his opinion as follows:
   • When Anadarko had just arrived, they said that there would be no problem. But now during the census, they say that we will lose our farms. I want to know if there are countervailing duties. I am afraid there may not be any compensation. I suspect Anadarko will always destroy the farms.
Commenting on Mr. João Tobias’s remarks, Mr. Alexandre Jossias (AMA1) said that:

- We understand that communities may ask about their assets. One of the objectives of our activities is to prevent the community from losing their property. Everyone should win, be it the company, the community or the Government. The census and the inventory will enable AMA1, the government and the community to assess to what extent they are affected and, thus, determine the necessary means to restore the conditions of life and encourage their improvement. People have the right to complain in any situation to the committee, leaders, Government and CLO, according to the channels established for this purpose.

3. Mr. Issa Ansumane raised his question as follows:

- My farm has been surveyed, but now I wonder if I can increase the size of the area. How will it be treated? Will it be considered when the time comes for the compensation?

Commenting on Mr. Issa Ansumane’s question, Ms. Nilza Mazivila, a Consultant providing services for AMA1, said that:

- No one should stop working on their farm. Keep on farming, building houses, getting married, etc. When the time arrives, you will be warned.

4. Mr. Fabião Constantino raised his question as follows:

- The affected communities such as Quitupo, Ngodgi and Milamba will they be resettled in the same place or they will remain separate?

Commenting on Mr. Fabião Constantino’s question, Mr. Alexandre Jossias (AMA1) said that:

- After Senga, another presentation will also be made in Maganja and Quitupo. The communities will be asked to say where they prefer to be resettled. The project has identified two locations, but the community may propose another one. The answer will be given after these meetings have been held.
5. Mr. Casimiro Quiasse gave his opinion as follows:_______________________
   • In support of Quitupo, it is important to say the truth: no fish live out of
     water. The Government is responsible for defending the community. The
     project must do things in accordance with the customs of the
     community._______________________________________________________

Commenting on Mr. Casimiro Quiasse’s remarks, Mr. Alexandre Jossias (AMA1)
said that:__________________________________________________________
   • I understood the meaning of your comment. The whole process is in the
     hands of serious people and they will comply with whatever is
     planned.________________________________________________________

6. Ms. Cristina Paulo raised her question as follows:______________________
   • Who is going to pay for our farms? The Government or the company?
     And who is going to decide on the price to pay?____________________

In response to Ms. Cristina Paulo’s question, Mr. Alexandre Jossias (AMA1) said
that:_____________________________________________________________
   • The Project will pay the compensation. The process will involve
     negotiations between affected people and the teams, with the
     participation of the Government in order to enforce the law. Everyone
     should win and not lose.________________________________________

7. Mr. Issufo Tankar (CTV) raised his questions as follows:________________
   • With regards to the maps: Is the residence area safe for the workers and
     not for the locals?_______________________________________________
   • Has the community visited the proposed resettlement sites?___________
   • How will the on-going compensation issue be resolved? The community
     complains about low amounts and disparity.________________________
   • What is the area intended for the construction of the plant?___________
   • Will Patacua be covered by these public consultations?_____________
• We call for the collaboration of the Government, Project, Community and Civil Society; our collaboration is not effective. We ask the Government to facilitate such collaboration.

Commenting on Mr. Issufo Tankar´s questions, Mr. Alexandre Jossias (AMA1) said that:

• The study on the sound level sets limits where no one should live. The levels referred to are considered for the night, up to 45 dB. We are available to show the details of the study to CTV. The plant area does not include any dormitory.

Commenting on Mr. Issufo Tankar´s questions, Mr. Pedro Wate (AMA1) said that:

• We are in a consultation process with the communities. They have resettlement committees and leaderships. Regarding the choice of the resettlement site, a day has been scheduled for the community to visit the site. They will also be taken to see other alternative sites along the coast;

• Senga also includes Patacua and that is why there are two members from Patacua in the Community Resettlement Committee (CRC). They always take part in the CRC meetings.

At the end of the questions and answers session, the Hon. DPCA Director addressed those present saying that this Public Consultation was the first of the three more still to be held in the coming months, in order to continue with the consultation process and the collection of contributions from the communities concerning the resettlement planning activities.

In his closing remarks, the Hon. Mr. Administrator encouraged the Project and the communities to consolidate their collaborative effort in order to make the project a reality that promotes Palma´s economic and social development and the country´s in general.

There being no other issues to be discussed, the consultation ended when it was 12:55 hours and the present Minutes of the First Public Consultation on the
Resettlement Process, Project Influence Area and Resettlement Site Selection was drafted, under the Gas Development Project in the Rovuma Basin, Mozambique, held in Senga village which is signed and witnessed by the State representatives, proponents and community representatives.

Minutes

of Public Consultation under the provisions of paragraph 3 of article. 23 of Decree No 31/2012 of 8 August approving the Regulations on the Resettlement Process Resulting from Economic Activities

FIRST PUBLIC CONSULTATION

“RESETTLEMENT PROCESS, PROJECT IMPACT AREA AND RESETTLEMENT SITE”

A community consultation meeting was held on July 9, 2014 in Maganja village, Mute Locality, Palma Headquarters Administrative Post, Palma District, within the scope of the First Public Consultation on the Preparation and Implementation Process of the Resettlement Plan concerning the Liquefied Natural Gas Project in the Rovuma Basin, with a single agenda of gathering inputs from the communities about the “Resettlement Process, Project Impact Area and Resettlement Sites”

The meeting was chaired by the Hon. Pedro Romão Jemusse, as Palma District Administrator and it was attended by the following:

Palma District Government represented by: Mr. Amade Omar Mpoto - Head of Mute Locality; Mr. Carlos Fabião Namo - Health, Women and Social Action District Service Director (SDSMAS); Mr. Carlos Paulo - Economic Activities District Service Representative (SDAE); Mr. Cornélio Siebo - Head of the Administrator´s Office; Mr. Albino Bernardo Bacar - District Secretariat Technician; Ms. Apolónia Vicente, Planning and Infrastructure District Service Representative (SDPI); Mr. Mussa Gerafo, Social Action Representative; Mr. Orlando Nacuto, SDAE Technician; Mr. Albino Bernardo Bacar, District Secretariat Technician.

Government of the Cabo Delgado Province represented by: Mr. Policarpo Maria do Rosário Napica, Coordination of Environmental Action Provincial Director (DPCA); Mr. Ramiro June Nguiraze, Mineral Resources and Energy Provincial
Director (DPRME); Mr. Mariano Caetano Jone, Agriculture Provincial Director (DPA); Mr. Tiago Cherene, Head of Geography and Cadastre Provincial Services (SPGC); Mr. Hélio Brondalo, Land Sector Technician-DPA.

Anadarko Moçambique Área 1, Limitada (AMA1) represented by: Mr. Alcido Maússe, Government Relations and Social Affairs Director and Mr. Alexandre Jossias, Environment and Safety at Work Director, as well as by the consultants contracted by the company: Mr. Inocêncio Maganha and Mr. Pedro Wate.

Empresa Nacional de Hidrocarbonetos (ENH) represented by: Mr. Julião Nhaquila, Head of Social Projects and Ms. Suraia Mussa, Environmental Technician.

Eni East Africa SpA Mozambique represented by: Mr. Herculano Vilanculos, Social Projects Representative and Mr. Filipe João, Development and Projects Department.

And the Maganja Community and the surrounding villages which were represented by about 300 participants such as residents, Community Resettlement Committee members (CRC), religious leaders, the elderly, women, youth and the community in general. Out of this figure, approximately 40% of the participants (120) were women.

The session started when it was around 09:15 hours, with the Head of Mute Locality calling for everyone to participate carefully in the meeting so that they can better be able to pose questions that are related to the agenda of the meeting. After that, he gave the flow to the Administrator.

The Administrator warmly welcomed all the delegations attending the meeting and asked them to introduce themselves to the public. After that he stressed the fact that Maganja was the birthplace of awareness raising meetings on the launching of the hydrocarbons prospecting projects in Afungi since 2007. Moreover, he also said that in Cabo Delgado province, a technical group was assigned to follow up the Project implementation, particularly with regard to the resettlement process which was headed by the Director, Mr. Napica (DPCA), who was then asked to address the audience.
The Director, Mr. Napica corroborated the Administrator’s words, stressing that the group has the mission of engaging with the communities on resettlement process, in order to ensure success and harmony from planning to implementation.

After the Director, Mr. Napica, finished his speech, Mr. Pedro Wate on behalf of AMA1, for the purposes of bringing the participants into context regarding the public consultation meeting, he said that the Maganja Community is the party which was affected by the economic resettlement, thus being essential that it is informed about all the stages of its progress. He also briefly said that the people’s interests will be affected within the project area. For example, Maganja residents have farms within the area and they carry out fishing activities in areas that will also be affected. For this reason, he said that two presentations would be made to address the way the Project will affect the lives of Maganja Community. After that, he gave the flow to Mr. Inocêncio Maganha on behalf of AMA1. In brief, Mr. Inocêncio Maganha said that in Maganja more than 340 households were surveyed, out of which 240 registered their assets. He also added that the project is in the physical and socio-economic data collection and analysis stage, which, in general, is characterized by data collection regarding the communities affected by the Project, quantification of the affected families and survey of their property, livelihood, fishing and agriculture activities, physical and environmental characterizations, socio-economic studies, identifying the needs and preferences of the affected population and public consultations. Moreover, he also said that the data will then be submitted to the Government for consideration and approval. In addition, he also highlighted the role played by both the Government and the Maganja Community as the main actors for the realization of the Project, in compliance with the national legislation and international best practices. Similarly, he also commended the community for having established the Community Resettlement Committee (CRC) as well as its engagement in mobilizing community participation, highlighting its role and leadership in the resettlement process. At the same time, he said that the joint studies with the community about farming and the experiments in the fields of profitability analysis aim to find better solutions in order to enhance agricultural production and promote healthier eating
habits. Therefore, he took the opportunity to thank the active participation of the Maganja Community in this process.

The second speaker, Mr. Pedro Wate, on behalf of AMA1, continued with the presentation focusing on the clarification regarding the limits of the project impact areas during the gas liquefaction plant and port structures construction and operation. Furthermore, he also informed the community about the emission and consequences of noise, intense light and explosion hazards. Using the maps, he pointed out the exclusion areas, transition zone and the alternative sites for the resettlement of the affected families. In addition to that, he also highlighted the importance of complying with safety and environment standards and the restoration of the livelihoods of the affected families. Thus, resorting to a map, he illustrated the project area and the boundaries of the exclusion area for the construction of the plant and port facilities in Ngogi and Milamba areas 1 and 2, which despite belonging to Quitupo village, part of Maganja’s fishers carry out their fishing activities there. In short, he said that Maganja will be affected economically and that the project is making efforts to minimize the negative impacts.

Finally, the questions and answers session was opened, by inviting the participants to give their contributions in an orderly fashion.

The participants raised their questions on the consultation issues as follows:

1. Mr. Maharazu Abudo, gave his comments as follows:
   - Anadarko is a very big company. We have understood everything that is being said because it is said repeatedly until we have understood. The company always comes to talk to the community. There are many people who have lost their things during the activities and have not yet been compensated. For the next meetings, please bring sound equipment for everyone to hear better what you are presenting.

Commenting on Mr. Maharazu Abudo’s remarks, Mr. Alexandre Jossias, on behalf of AMA1, said that:

   - We want to apologize for not having brought sound equipment. I promise to be better equipped next time. With regards to the compensations not paid, I allow me to invite my colleague, Mr. Madilicha, to comment on that.
In response to the question raised by Mr. Maharazu Abudo, Mr. Madilicha (AMA1) said that:

- We have a total of 10 households complaining about that. We brought the compensation money, but they refused to receive it. The table used for payment was approved by the government, but the community does not agree with its terms. We will continue to negotiate.

2. Mr. Rachide Dade, gave his comments as follows:

- I want to make an appeal for everyone not to present individual’s problems. We have to question about matters of collective interest for the community. I also urge you to respect the visitors and bring about harmony.

3. Mr. Abdala Ali gave his comments as follows:

- Since Anadarko arrived, a lot of meetings have been held but no answers have been given to the issues presented.

4. Mr. Mussa Amade raised his question as follows:

- Looking at the map presented, Maganja is out. However, its basis of survival lies within the Project area. How is it going to be included in the compensation process? I think all the benefits that will be given to Quitupo, Maganja should also be given.

5. Mr. Mussa Stambuli gave his opinion as follows:

- I stood up to thank the presence of the Administrator. I wish he came more often to Maganja to help us overcome certain problems.

6. Mr. Amade Inchamo gave his opinion as follows:

- I thank the presence of the visitors. I am told there will be resettlement in Quitupo. The brochures distributed show almost everything. Where is Maganja going to continue carrying out its agriculture and fishing activities? Maganja has always collaborated with the project and has agreed to the census since the beginning. It deserves a prize for that. Why not also include Maganja in the hiring of air traffic controllers? The elderly here could also benefit from that.
Commenting on Mr. Amade Inchamo´s remarks, Mr. Alcido Maússe (AMA1) said that:

- Anadarko has a community investment project. We know that an affected community will have benefits. This project is still collecting relevant data in order to analyse the best way for meeting the community’s needs. Technical, secondary and primary schools in Pemba and Palma will be built. These are issues which must be discussed with the government. Rumours has it that Maganja has been forgotten. For your peace of mind, I must say that nothing has been forgotten. We are undertaking studies in order to improve the fishers´ income. Maganja: Thank you very much indeed!

7. Mr. Maharazu Abudo raised his question as follows:

- Anadarko´s activities hitherto only bring negative impacts. They cut down trees and show us the compensation table with prices. Why is it that there is no negotiation process first for compensation? That is why we do not accept compensation without discussing it first. Who decides on the table, the government or the company? I have lost a cashew tree and I have not received a satisfactory amount.

Commenting on Mr. Maharazu Abudo´s remarks, Mr. André Madilicha on behalf of AMA1, said that:

- I have had a meeting with those claiming for payment of cashew and mango trees. They have refused to receive the compensation amount.

Commenting on Mr. Maharazu Abudo´s remarks, Mr. Alexandre Jossias on behalf of AMA1, said that:

- We are well aware of the problem and we will continue to dialogue. It is a process that takes time until a solution is found. We know that the community does not agree with the table presented by the government. We will continue to talk.

8. Ms. Tania Mariza Jossias (CTV) gave her opinion as follows:
• Has the compensation of non-tangible goods (the distance from the farms or fishing area, effort expended, etc.) been planned? I propose you organize meetings only with women in order for them to be able to speak more freely. Here, they feel cramped and limited. The company should also establish partnerships with the communities.

Commenting on Ms. Tania Mariza Jossias´ remarks, Mr. Pedro Wate on behalf of AMA1, said that:

• The affected people will be compensated taking into account all the factors, even with relation to the fishers. We have technical teams assessing the situations encountered on the ground. Anadarko is open to partnerships and suggestions. People can make contacts.

9. Mr. Muidine Sufiane gave his opinion as follows:

• The whole country has gas but I have not seen anyone from Palma going to other provinces. Strangers have come to destroy Palma because they know that people from Palma have no vision.

10. Mr. Nurdine Aburemane (CTV) gave his opinion as follows:

• The Project did not say what it has planned, even after having shown the maps. We do not know if we are affected or involved in the gas program.

• Tell us what the project has designed and planned and clarify the community on how to go about it.

• Resettlement is when there are natural disasters. Here there are no natural disasters. We are dealing with Mozambique’s wealth.

• I have heard about employment. What is the program for these children? We have followed cases regarding Vale, Nacala, Moma Heavy Sands, they all have problems. And we will also have problems too. There is no reason for people to be resettled because there is no natural disaster.

• CTV should be involved in the process.

Commenting on Mr. Nurdine Aburemane´s remarks, Mr. Alcido Maússe (AMA1) said that:
Anadarko has a social investment group to work with the communities. If people are resettled, they will have improved houses. If a community accommodates another, they will also have improved conditions. The investment group is considering how to make best interventions that benefit children and ensure them access to opportunities in the future, in the factory, through their education.

11. Ms. Beatriz Fernando (CTV) posed her question as follows:

- Women are aware that the land belongs to the State. But on the land there are farms and private crops (theirs). Why does the government determine private goods prices?

12. Mr. Issufo Tankar (CTV) posed his question as follows:

- Is the measurement of farms and the community assets done in the cultivated areas or does it include fallow land? The same applies to the community areas for common use?

Commenting on the remarks, Mr. Pedro Wate on behalf of AMA1, said that:

- I want to clarify that when the individual property inventory process is carried out, the entire area of the farm, including the fallow area are measured.
- In the second phase we will evaluate the common use areas.

At the end of the Q & A session, the Director, Mr. Napica, as the Head of Cabo Delgado Provincial Resettlement Group, reiterated that the Government is monitoring the process aiming at drafting the resettlement plan that is inclusive and meets the needs of the stakeholders. Furthermore, he also said that he will inform the Provincial Government about his satisfaction regarding the way the community in general participated and contributed to the success of the resettlement process and of the Project in general. He concluded by affirming that the Government will continue to work with the companies in the fight against poverty.

The Administrator, addressing the audience in his closing remarks, reiterated that the objective of the consultation was to gather views and sensitivities about the project, particularly with regard to the resettlement process. He also said that this was the time to fix what is wrong and capitalize on what is right. Moreover, he also added that the Government will continue to promote this kind of meetings because
they are positive. He went further saying that the civil society in Cabo Delgado province is not involved in this process and no one has been appointed to be Palma and Technical Resettlement Group true representative. He also wondered why during the past floods nobody from the civil society helped the victims of floods, but here in Afungi they have appeared because it is about a gas exploration project.

There being no other issues to be discussed, the consultation ended when it was 12:35 hours and the present Minutes of the First Public Consultation on the **Resettlement Process, Project Influence Area and Resettlement Site Selection** was drafted, under the Gas Development Project in the Rovuma Basin, Mozambique, held in Palma which is signed and witnessed by the State representatives, proponents and community representatives.

---

Minutes

of Public Consultation under the provisions of paragraph 3 of article. 23 of Decree No 31/2012 of 8 August approving the Regulations on the Resettlement Process Resulting from Economic Activities

FIRST PUBLIC CONSULTATION

“RESETTLEMENT PROCESS, PROJECT IMPACT AREA AND RESETTLEMENT SITE”

A community consultation meeting was held on July 10, 2014 in Quitupo Town, Mute Locality, Palma Headquarters Administrative Post, Palma District, within the scope of the First Public Consultation on the Preparation and Implementation Process of the Resettlement Plan concerning the Liquefied Natural Gas Project in the Rovuma Basin, with a single agenda of gathering inputs from the communities about the “Resettlement Process, Project Impact Area and Resettlement Site”

The meeting was chaired by the Hon. Pedro Romão Jemusse, as Palma District Administrator and it was attended by the following:_________________________________________________________

Palma District Government represented by: Mr. Amade Omar Mpoto - Head of Mute Locality; Mr. Carlos Fabião Namo - Health, Women and Social Action District Service Director (SDSMAS); Mr. Carlos Paulo - Economic Activities District Service Representative (SDAE); Mr. Cornélio Siebo - Head of the Administrator’s Office; Mr. Albino Bernardo Bacar - District Secretariat Technician._________________________________________________________

Government of the Cabo Delgado Province represented by: Mr. Policarpo Maria do Rosário Napica, Coordination of Environmental Action Provincial Director (DPCA); Mr. Ramiro June Nguiraze, Mineral Resources and Energy Provincial Director (DPRME); Mr. Mariano Caetano Jone, Agriculture Provincial Director (DPA); Mr. Rábio Nordine, Advisor to the Governor for Economic and Social Affairs; Mr. Tiago Cherene, Head of Geography and Cadastre Provincial Services (DPA); Mr. Hélio Brondalo, Land Sector Technician -DPA._________________________
Central Government represented by: Ms. Lídia Abibo, Ministry of Fisheries.

Anadarko Moçambique Área 1, Limitada (AMA1) represented by: Mr. Alcیدo Mausse, Government Relations and Social Affairs Director and Mr. Alexandre Jossias, Environment and Safety at Work Director, as well as by the consultants contracted by the company: Mr. Inocêncio Maganha, Mr. Pedro Wate and Nilza Mazivila.

Empresa Nacional de Hidrocarbonetos (ENH) represented by: Mr. Julião Nhaquila, Head of Social Projects and Ms. Suraia Mussa, Environmental Technician.

Eni East Africa SpA Mozambique represented by: Mr. Herculano Vilanculos, Social Projects Representative, Mr. Michaque da Silva, Civil Engineering Supervisor.

And Quitupo community which was represented by about 350 participants, out of which one third (116) were women.

The meeting started when it was about 9 o’clock with the Head of Mute Locality addressing warm welcome to the participants. After that he gave the flow to the Administrator to chair the meeting.

The Administrator welcomed the Quitupo Community and praised them for their hospitality and collaboration in respect of the Project. He also said that the consultation was aimed to address those topics that have been scheduled for today and that the other meetings would address other topics that would not be covered today. Then he invited the Director, Mr. Policarpo Napica (DPCA), to address the participants and talk about the meeting.

The Director, Mr. Napica, welcomed both the community and the participants in general, and said that he took part in other meetings held in Quitupo months ago and that today he is here on behalf of the Cabo Delgado Provincial Government, so he is interested in listening more closely to the community in order to find out what the feeling of the community is with regards to the gas project implementation.
After that a team of consultants presented the main themes concerning the Public Consultation. Note that the presentation was divided into phases, thus obeying the following order:__________________________________________________

Mr. Inocêncio Maganha on behalf of AMA1, made a brief presentation on the resettlement process. He said that Quitupo would have both the physical and economic resettlement, which would entail the resettlement of residents from the current zone to another where the community will have the opportunity to improve their level of living. He also said that the resettlement process will affect the lives of households, therefore the participation and collaboration of all the stakeholders is required in order to ensure that there is a win-win situation. Moreover, he told the community that there are steps to follow in this process and one of them is the planning phase, characterized by the data collected regarding the affected communities, their property, livelihoods, fishing and agriculture activities, environmental and socio-economic studies, and public consultations. The data will then be submitted to the government for analysis and decision making. He also noted that the project will follow the national legislation and international best practices. In addition, he also pointed out the fact that all the actions undertaken are subject to consultation and project joint analysis by the government and community in order to reach a consensus and be able to make the right decisions towards attaining the final goal.________________________________________

In the second part of the presentation, Mr. Pedro Wate on behalf of AMA1, focused his explanations on the limits on maps regarding the project impact areas during the gas liquefaction plant construction and operation and port structures where he highlighted three key parcels for better understanding of the project, namely the exclusion area, buffer area and the alternative areas for the resettlement of the affected households. In general, he said that the exclusion area will be reserved for the construction of the factory and workers camps thus being subject to the emission of noise and intense light, explosions and gas leaks risks. As it can be seen, there are restrictions on housing and livelihood activities of the communities such as farming and fishing. However, in the buffer area some day-to-day activities such as fishing, farming and gathering, but not housing, may be
carried out. The choice for the resettlement sites resulted from soil, engineering and water studies which were carried out, that is why these sites have been evaluated as being the most suitable ones for resettlement.

At the end of the presentation, the moderator of the meeting, Ms. Nilza Mazivila summarized the main points and opened the questions and answers session, by inviting the participants to give their contributions in an orderly fashion.

The participants raised their questions on the consultation issues as follows:

1. Mr. Nacir Abdala posed the following question:

- How will the community be resettled if their assets are in Quitupo? How are we going to manage our farms in the buffer area? So we suggest that we should take our compensation with us when we leave the area.

Commenting on Mr. Nacir Abdala’s remarks, Mr. Alexandre Jossias (AMA1) said that:

The process that we have started is still at its early stages. Most of the questions posed are doubts that need clarification. I was pleased to hear that you want to walk hand in hand with the Project and the Government. We also want to walk hand in hand with the community. The project wants to win. Quitupo also wants to win, so does the Government. Quitupo will be our neighbour forever. We will do everything to sure that you feel nurtured. For that we have to keep talking so that we can know what Quitupo wants and what the project can give. No one will leave their possessions behind. Each one will take their belongings: boat, nets, animals and furniture; the other immovable property may be subject to compensatory negotiations.

2. Mr. Dade Sumail gave his opinion as follows:

- I suggest that both the coconut and lemon trees be replaced and compensated.
Commenting on Mr. Dade Sumail’s remarks, Mr. Alexandre Jossias (AMA1) said that:

- Compensation will be effective and negotiated in advance with the improvements’ owners.

3. Mr. Alide Saide gave his opinion as follows:

- After three years of struggle we will leave Quitupo to an unwanted new area, but here we have our deceased ones. So the new houses from the proposed area should be improved ones and our lives too. This is because the resettled person should and needs to be nurtured. In our opinion we think that CTV defends the communities in order to safeguard their rights, so it should be included in the assets evaluation and in the compensation process. There should be schools, light and good houses in the resettlement areas. We want job opportunities. We do not want to see expats repairing cars if it is possible to train the local youth for that. That is, it would not be fair to see the population from Quitupo, the owners of the resource (gas) suffering hardships while expats take the most advantage of it. At the time of signing the Minutes of Quitupo for the launching of the census, the authorities and the project were happy, now it is about time we were also happy. We want compensation to be sufficient, if possible, for us to be able to purchase a car for every family. We want good roads. We accept resettlement, but we want good conditions and quality of works and we want the construction of the houses and the compensation not to take long so that we can feel that the project is a real dream.

Commenting on Mr. Alide Saide’s remarks, Mr. Alex Jossias said that:

- We congratulate the Quitupo Community for accepting to collaborate with the project, but we will also work with the government and civil society to achieve the project objectives. The project will make every effort to ensure that the community feels nurtured.

Commenting on Mr. Alide Saide’s remarks, Mr. Alcido Mausse (AMA1) said that:
• No one will lose something without compensation. Farms and houses will be compensated. We, from the project side, want to be Quitupo’s neighbours. But you are free to decide on the choice of the resettlement site within the limits indicated on the maps. Those who have farms will continue to work with the support of our technicians in order to help them have higher yields. The project will build a model house for the communities to see and only after the model house has been approved including rectifying the walls and other components; it will be implemented by the project.

4. Mr. Assane Nsangage Assane gave his opinion as follows:

• The community should not sleep. The committee and the community should have the same objective. The community sent their agents to attend the meetings of Senga and Maganja and it was said that *fish do not live on land, as well as mouse does not live in the sea*, therefore, our brothers asked for a good accompaniment. The Quitupo Community wants Anadarko to ask for permission before invading the farms and the improvements located in the project areas of interest such as roads. What happens is that they first occupy the land or they destroy the improvements and it is only then that they look for the owner to give them the compensation which turns out to be little. My advice is that before anything else, they should first negotiate with the owners and then do the work later on. The population sees that there are works on the future airport area, but there are farms whose owners have not yet been notified or compensated. It is a fact that there are already young people with good qualifications who can be employed like those from Maputo who occupy management positions and not merely masons’ assistants without importance and consideration in the hierarchy.

Commenting on Mr. Assane Nsangage Assane, Mr. Alcido Mausse (AMA1) said that:

We are pleased to learn that you trust the Administrator. Everything will be channelled through the administration. We will also promote social responsibility projects to support the community. Please take note of that. The project wants to respect people and we ensure you that no one connected to the project will enter the farm without talking to people. With regards to the social component, several
infrastructures will be built such as schools and health centres.

At the end of the Q & A session, the DPCA Director addressed those present expressing his satisfaction with the contributions of the participants from Quitupo. He assured those present that there is recognition from the Government regarding the responsibility of the Project, and that everything will be done for proper monitoring. He urged the community members to be always honest and open so that there is no damage in the resettlement process.

In his closing remarks, the Hon. Mr. Administrator thanked all the participants. He also assured the participants that the Government will continue to work together with the community and the Project until the desired objectives are achieved. In the context of the meeting held, he claimed that everyone will walk in the same direction and foster more dialogue for consensus.

There being no other issues to be discussed, the consultation ended when it was 12:55 hours and the present Minutes of the First Public Consultation on the Resettlement Process, Project Influence Area and Resettlement Site Selection was drafted, under the Gas Development Project in the Rovuma Basin, Mozambique, held in Senga which is signed and witnessed by the State representatives, proponents and community representatives.

Minutes
of Public Consultation under the provisions of paragraph 3 of article 23 of Decree No 31/2012 of 8 August approving the Regulations on the Resettlement Process Resulting from Economic Activities

FIRST PUBLIC CONSULTATION

“RESETTLEMENT PROCESS, PROJECT IMPACT AREA AND RESETTLEMENT SITE”

A community consultation meeting was held on July 12 2014 in Palma Town, Palma Headquarters Locality, Palma Administrative Post, Palma District, within the scope of the First Public Consultation on the Preparation and Implementation Process of the Resettlement Plan concerning the Liquefied Natural Gas Project in the Rovuma Basin, with a single agenda of gathering inputs from the communities about the “Resettlement Process, Project Impact Area and Resettlement Site”.

The meeting was chaired by the Hon. Pedro Romão Jemusse, as Palma District Administrator and it was attended by the following:

Palma District Government represented by: Mr. Amade Omar Mpoto - Head of Mute Locality; Mr. Américo Naba - Head of Pundanhar Administrative Post; Mr. Muiliho Akili - Head of Quionga Administrative Post; Mr. Roberto Awikile - Head of Olumbi Administrative Post; Mr. Carlos Fabião Namo - Health, Women and Social Action District Service Director (SDSMAS); Mr. Carlos Paulo - Economic Activities District Service Representative (SDAE); Mr. Cornélio Siebo - Head of the Administrator’s Office; Mr. Albino Bernardo Bacar - District Secretariat Technician.

Government of the Cabo Delgado Province represented by: Mr. Policarpo Maria do Rosário Napica, Coordination of Environmental Action Provincial Director (DPCA); Mr. Ramiro June Nguiraze, Mineral Resources and Energy Provincial Director (DPRME); Mr. Mariano Caetano Jone, Agriculture Provincial Director (DPA); Mr. Rábio Nordine, Advisor to the Governor for Economic and Social Affairs; Mr. Tiago Cherene, Head of Geography and Cadastre Provincial Services (DPA); Mr. Hélio Brondalo, Land Sector Technician -DPA; Mr. Manuel Daniel, Institute of Development of Small Scale Fisheries (IDPPE).
Central Government represented by: Ms. Lídia Abibo, Advisor to the Ministry of Fisheries; Mr. Dércio Monteiro, National Petroleum Institute (INP). __________

Anadarko Moçambique Área 1, Limitada (AMA1) represented by: Mr. Alcindo Maússe, Government Relations and Social Affairs Director and Mr. Alexandre Jossias, Environment and Safety at Work Director, as well as by the consultants contracted by the company: Mr. Inocêncio Maganha, Mr. Pedro Wate and Nilza Mazivila.__________________________________________________________

Empresa Nacional de Hidrocarbonetos (ENH) represented by: Mr. Julião Nhaquila, Head of Social Projects and Ms. Suraia Mussa, Environmental Technician. ______

Eni East Africa SpA Mozambique represented by: Mr. Herculano Vilanculos, Social Projects Representative; Mr. Sérgio Cigarro, Community Investment Advisor; Mr. Fabrizio Valsecchi, Technical Construction Director; Mr. Lorenzo Ceccolini, Project Sustainability Manager.__________________________________________________________

And Palma Village which was represented by 135 participants, out of which nearly 25% (33) were women.________________________________________________________________________

The opening remarks of the meeting were made by the Administrator who addressed warm greetings to all the participants and guests when it was approximately 09:20 hours. The Administrator asked all the delegations and dignitaries from Palma to introduce themselves, starting with Quionga, Olumbi, Pundanhar and Palma Headquarters. After that he said that the meeting in Palma marked the end of the public consultations round held in Senga, Maganja and Quitupo aiming at consulting with communities about the resettlement process planning. He also added that further meetings would take place to complete the other phases of the community consultation. Furthermore, he thanked the presence of several prominent figures from both the central and provincial government and others from the civil society organizations. In the end, he pointed out that the meeting would be chaired by the Head of Provincial Resettlement Group, the Director, Mr. Policarpo Napica (DPCA). ________________________________
After that, presentations were made: Mr. Alcido Maússe introduced Mr. Baptista, Mr. Alexandre Jossias and Ms. Alice Madeira. He also pointed out that AMA1 works with other partners who were also invited to introduce themselves.

Mr. Sergio, Mr. Gabriel and Mr. Fabrizio all belonging to the same company, eni, introduced themselves. Then, Mr. Julião Nhaquila and Ms. Suraia Mussa from ENH also introduced themselves. Mr. Nhaquila explained to those present that ENH is a state owned company that has a stake in all hydrocarbons projects. Thus, ENH has two partner enterprises namely Anadarko and eni, working in the gas area in Palma.

Mr. Alcido Maússe highlighted the fact that the government, companies and communities work together. Thus, he asked the civil society participants to introduce themselves. And accordingly the following people introduced themselves: Mr. António Carlos Dias - FOCADE; Mr. Hachimo - AMA; Mr. Issufo Tankar - CTV; Ms. Natalia - CTV; Mr. Roberto Abdala - CTV Paralegal in Palma; Mr. Jaime Abdala - AMA; Mr. António Buremane, Justice and Peace - Palma; Mr. Chande Buarzure, ADEL-CD,

The Director, Mr Napica, when he took over, also welcomed the participants in general and said that their presence and that of the entourage aimed to witness the unfolding of the resettlement process. The provincial government has created a special group to monitor the unfolding of the resettlement process in Palma. After that he introduced himself as the DPCA Director. In addition to that, he introduced the DPRME Director, the Agriculture Provincial Director, the IDPPE Director and the Advisor to the Provincial Governor, Head of SPGC, and other technicians. He also said that the Central Government has sent some representatives to monitor the meetings, namely Mr. Dércio Monteiro from INP, and Ms. Lídia Abiba, Advisor to the Minister of Fisheries. Furthermore, he also underlined the fact that the presence of these leaders and government representatives demonstrates that there is genuine concern in monitoring the on-going project activities in Palma district.

Before the presentations on the resettlement process started, Ms. Nilza Mazivila on behalf of AMA1 and moderator of the meeting told the participants that Mr.
Inocêncio Maganha will present on the resettlement process, and his colleague Mr. Pedro Wate will talk about the impacts and the pre-assessment of the resettlement site alternatives. She also said that at the end of the presentations the participants will be able to pose questions, doubts and comments on the agenda.

After that, Mr. Inocêncio Maganha addressed the participants explaining to them that the purpose of the consultation was the presentation of the resettlement process, project impacts and alternatives for the resettlement sites. He also went further saying that this is the first of the 4 public consultations that will be held to present the resettlement process. He also explained that with the discovery of large quantities of gas reserves, an industrial complex for gas processing by AMA1 and eni in Afungi peninsula will be built. However, he also said this project will occupy a space that will give rise to the resettlement process. In a process of this kind, all the stakeholders have to be involved and, in addition to that, it should comply with the national legislation and international standards. The resettlement process will respect people and their cultural aspects. He also said that the process is divided into two phases, planning and implementation. At the moment, the project is in its planning stage characterized by research and strengthening of the communities’ participation through community resettlement committees (CRCs) and through resettlement planning. The planning process will only end with analysis and decision making concerning the resettlement plan by the Government. Moreover, he said that at the moment there are several on-going studies, ranging from census to survey of assets of the affected communities. So far the latter has been implemented by 35% because it is a very delicate activity and its completion is slow. The survey of assets is underway in Quitupo and in the communities in its jurisdiction. Studies on fisheries were also undertaken to determine the number of people involved in this activity, the types of fishing activities and the place where the boats carry out their activities. The Project needs to better understand the details of this activity in order to analyse carefully how the lives of these fishers will be affected. He also highlighted the fact that the studies are only carried out because the communities allow them and that they collaborate and, on behalf of the Project, he commended the communities for that. He also said that the results of the fishing studies in the communities were disclosed in the presence of the Government representatives for improvements and comments. Mr. Inocêncio, in his presentation, said that agricultural studies have also been carried out in order to
understand how the communities depend on this activity for their livelihood throughout the year, and what kind of improvements can be made on production techniques and crops. He said that there are also studies of tests and demonstration of agricultural techniques and improved production practices in order to find out which improvements can be applied in agricultural production. He also asked the communities to be involved in such activities. And for them to better participate in such activities, community resettlement committees (CRCs) were formed. The committees have been conveying information from the project to the communities and also channelling opinions, complaints and concerns from the communities to the project. He also added that the project must value community assets, sacred sites, and other property in order to better understand the kind of impacts that might arise during project implementation. He added that for this reason, discussions have been initiated with the various communities in order to capture their main concerns regarding the resettlement process. At the end of the planning process, the resettlement process implementation phase can start. He also pointed out that the most important thing is to understand that resettlement follows steps, and there are stages to go through and a space for people to channel their concerns to the project through established and available complaint mechanisms at the meeting venues previously identified in the communities, the so-called Nkutanos and also through contact persons.

Mr. Pedro Wate, on behalf of AMA1, continued with the presentation stating that people will be affected by the Project. They will be affected in two ways, either physically or economically. They will be affected economically because their farms, their livelihoods will be affected. Those who will be affected physically will have to be resettled elsewhere. Everything will be done taking into account environmental, safety and health aspects. There is an area intended for the implementation of the gas processing plant which covers the fishing villages in Ngodje and Milamba areas 1 and 2. There is also another area intended for the project workers to live in and there will be a runway for large aircraft. It also includes port facilities (jetty and dock). It was noted that the construction of this infrastructure would be phased. The jetty will be prioritized in order to receive the construction material for the docks and factory. He also stressed the fact that the construction of this infrastructure will also affect the lives of fishers and the operation will need to create exclusion zones when ships enter and leave. Ways for
warning the fishers about the arrival of vessels will be put in place. Moreover, he also added that meetings will be held with the communities in order to discuss and better understand project impacts. In the next public consultation rounds, there will be a dialogue on compensation issues. After that, Mr. Pedro Wate described how the potential sites were identified for resettlement. He said that restriction criteria were used – such as the construction area where factory operation impacts may be felt (noise, emission of nitrogen dioxide gas) and although only remotely possible, there could be explosions. Environmental issues were also considered for conservation. Thus, total restriction areas are identified as being the factory construction area and the areas where mangroves are. He stressed the fact that in this area people cannot live nor develop other types of activities. Nonetheless, in the other zone, communities can continue to practice agricultural activities but cannot continue to live nor build houses. The Quitupo village is located in this zone. This area was identified by the imperative of ensuring the well-being of people and it is in this area where there is a noise level that is unbearable for people to live. Mr. Pedro Wate also added that during the manufacturing process, there can also be emissions of gases and the zone has been created to avoid the possibility of these gases having harmful effects on people’s health. He also pointed out that the zone where people can live at ease and in safety has been identified, and it is away from the harmful effects of the factory. It was also noted that the mangrove area where fish breed is very sensitive, thus people cannot build there. He added that other studies have been carried out to provide information on the safety of the area, fishing activities and soil quality for agricultural suitability. Two areas have been identified, one in Quitunda and another in Namba. The people to be resettled will need to continue fishing and have access to the sea. Given that people will not have access to the collection of shellfish and other marine products to the intertidal area in front of the factory, there will be a need to identify alternative locations. Mr. Pedro Wate stressed that all the information being collected is for the formulation of the resettlement plan to be submitted to the Government for decision making. In order to have a sustainable resettlement plan, it is important to consider the conditions of the land and livelihoods. He affirmed that all this will have to be prepared for the plan to be completed by the end of the year. In the next meeting in August, there will be a discussion on the organization of the new village, types of houses and host community. And in September, the issues of compensation packages, results of surveys and impact
studies will be presented. In December, the last meeting will be held in order to present the draft resettlement plan.

After the presentations session, Ms. Nilza Mazivila asked the participants to present questions and answers in an orderly fashion.

Before the start of the questions and answers session, Mr. Alcido Maíssse pointed out the fact that it would be desirable to have monthly meetings but, the precise dates will have to be agreed with the Government 15 days before the meeting is held in order to accommodate their availability.

The participants raised their questions on the consultation issues as follows:

1. Mr. Ali Azevedo Bacar posed the following question:

   • I understood the presentation but I have a doubt. I understood that the community will be shifted from one place to another. What will happen with their property? I also understood that Quitupo may be resettled in Quitunda village. Are there good conditions for people to be resettled there? I also understood that there are mangrove and reserve areas. Will the reserve areas serve the entire community?

Commenting on Mr. Ali Azevedo Bacar´s questions, Mr. Pedro Wate on behalf of AMA1, said that:

   • Studies have been carried in order to identify the habitability of the area. Additional studies on the geomorphology (land slope) and soil have also been carried out. It was found that the area is suitable for construction. Studies were also carried out on the availability of drinking water. Quitunda is therefore habitable and people can be properly resettled.

2. Mr. António Cardoso gave his opinion as follows:

   • What procedures have been put in place for the graves?

Commenting on Mr. António Cardoso´s question, Mr. Inocêncio Maganha on behalf of AMA1, said that:
• There will always be consultations with the communities on these matters. We need to know everything about the sacred places, cemeteries and other areas of interest for the communities. We have started identifying these locations so that together we can decide on how to go about these matters according to the local traditions and customs and legislation.

3. Mr. Issufu Tankar (CTV) gave his opinion as follows:

• I am concerned about the complaints collection teams. We have heard in the consultations that people were not receiving adequate answers. It is clear that when the resettlement process will start, there will be more questions. I want to make an appeal for the government, in particular, to strengthen the teams in order for them to have regular meetings, and for them to make an effort to give answers. Another concern relates to the families that will be resettled. At this point they have precarious shelters and when the roof is worn out, they go to the bush to cut new grass. The regulation requires conventional houses, but their maintenance may fall short of people’s capabilities. It is necessary that the compensation package covers the needs of livelihood that will help meet these costs. The minutes of the public consultations should be published and distributed in communities within 5 days according to the regulation. In addition to posting, could you please send these minutes by email to those people living far away so that they can be able to monitor the process?

Commenting on Mr. Issufu Tankar’s remarks, Mr. Inocêncio Maganha on behalf of AMA1, said that:

• There will also be compensation for affected assets. All this can only happen by consulting everyone involved. But there are also assets that can be taken to the resettlement sites, and animals will also be transported by experts to ensure their safety. With regards to the advice from the civil society on the facilitation of complaints mechanisms, thank you, we appreciate it. We will improve the way we work by allocating people in the communities at the grassroots’ level so that people’s concerns can be channelled to the project. We have systematically noted down all the issues raised in order to answer them. And if people are not satisfied they have the right to channel them to the highest levels, but our appeal is that they should continue to present their complaints.
• Community consultations can also help in finding more alternatives for income sources. The project’s social responsibility as provided for in the Mozambican legislation is in place and it is believed that community investment projects can also help families generate more income. We have 5 days to post public consultations Minutes. The Decree is clear; we have to post them in conspicuous places and not by email. But, for the parties, once the Minutes have been signed we can share them.

Commenting on Mr. Issufo Tankar’s remarks, Mr. Pedro Wate on behalf of AMA1, said that:

• With regards to the people’s ability to undertake the maintenance of their houses, the project is aware that it will not be able to employ everyone, but there is an area that deals with social development. This sector will partner with other organizations in order to help people develop their lives. There will also be training sessions that will help people get employment.

4. Ms. Rosa Albino Mucundavila Nkunakwela gave her opinion as follows:

• I have doubts. Anadarko has arrived in the district and is working, but when it recruits people, it claims that applicants should speak in English and not in our language, or at least in Portuguese. In Palma the elderly cry for employment, but only young people are employed. But the elderly know about surveillance locations that the young people do not know of. They could help in certain areas of the company. There are rooms that are not open and there are rooms where cleaning is forbidden. Why does that happen?

Commenting on Ms. Rosa Albino Mucundavila Nkunakwela’s remarks, Mr. Inocêncio Maganha on behalf of AMA1, said that:

• We appreciate your comments on the need to employ the elderly. And we will promote it as widely as possible in order to convey the message regarding the project’s risks. Within the project, there are also other mechanisms for reporting and we would be happy if everyone used these means.
Commenting on Ms. Rosa Albino Mucundavila Nkunakwela’s remarks, Mr. João Baptista, AMA1North Operations Assistant Manager, said that:

- In the recent past English was mandatory. Now recruitments has markedly improved and English is no longer required. Now, 75% of workers are Mozambicans and out of these about 50% are from Palma. We have announced job positions requiring people speaking Makwe, Kimwani and other languages. Employment for the elderly rather than for the young: We strive to employ the elderly. We have the elderly working within our field. We are looking at the will and ability to work. In Afungi, the elderly are doing traffic control. We also have the elderly working in camps.

5. Mr. Luís Salimo gave his opinion as follows:

- I commend the government and it is the first time I have taken part in a meeting of this kind. And we also appreciate the opportunity given for the community to participate in this process. It is thanks to the company that there are a lot of accomplishments. I have a request for everyone: To achieve development it is necessary to have a single objective. If you come here from Beira, you may not have the spirit of wanting to develop Palma but you must have the spirit to develop. You must ensure that local development actually happens.

6. Ms. Fadima Miguel Manombe gave her opinion as follows:

- I was recommended by a guard to join the meeting. The person has worked in the Namba area and up to now has not been paid, and the person wants to know if they will be paid?

Commenting on Ms. Fadima Miguel Manombe´s remarks, Mr. João Baptista, AMA1 North Operations Assistant Manager, said that:

- It is a new situation for me and I need to know who the person is. Then it can be possible to follow up the process.
After the questions and answers session finished, the moderator of the meeting, Ms. Nilza Mazivila asked the Administrator to make his comments.

Preceding the Administrator, the Director, Mr. Policarpio (DPCA) thanked those present saying that he was satisfied with the meeting. He also added that as this dissemination continues, the understanding of the project will be better. He also said that apparently some questions still remain, but the laws and regulations need to be further disseminated to help people understand the process. But the responsibility for this process must come not only from the Government and the company, but from all in order to ensure that the project will contribute to the development. Everyone has the responsibility to ensure that this project contributes to development. He concluded his speech as follows: After this round in the villages up to this point here, we are very satisfied and we will convey this message to the Provincial Government and with permission, up to the Central level. To conclude, this will not be the last time we will have been here, we will be here more often. It is the responsibility of the Provincial Government to monitor the work and we will all work together.

In his closing remarks, the Administrator thanked everyone for joining the meeting, all the Central Government representatives, Provincial Government members, the various project teams, the various civil society organizations representatives, and especially the various Palma Advisory Council members. The Administrator took stock of the meeting saying that 3 points were discussed: first, it was to see where the plant will be installed; second, to understand why people cannot live where the factory is; third, to indicate the areas which may be suitable for resettlement. Finally, he appealed to all the people who have followed this process to be present in the upcoming meetings. At the end of the session, he introduced two leading figures, the Honourable Judge of the District Court and the honourable District Prosecutor.

There being no other issues to be discussed, the consultation ended when it was 12:15 hours and the present Minutes of the First Public Consultation on the Resettlement Process, Project Influence Area and Resettlement Site Selection.
was drafted, under the Gas Development Project in the Rovuma Basin, Mozambique, held in Palma which is signed and witnessed by the State representatives, proponents and community representatives.

Minutes

of the Public Consultation in Scope of the Elaboration of the Resettlement Plan in Senga Village

SECOND PUBLIC CONSULTATION

“RESETTLEMENT LOCATION DESIGN, HOUSE MODEL, VILLAGE MODEL AND INTEGRATION OF HOST COMMUNITIES”

Under the provisions contained in number 3 of article 23 of Decree nr. 31/2012, of 8th August, which approves the Regulation regarding the Resettlement Process resulting from Economic Activities, on the eleventh day of August of the year two thousand and fourteen, a consultation meeting was held with the Community of the Senga Village, Locality of Mute, Administrative Post of Palma Sede, District of Palma, with the sole agenda of seeking the community’s opinion regarding the “Resettlement Location Design, House Model, Village Model and Integration of Host Communities”.

The meeting was chaired by Mr. Abdul Piconês, Permanent Secretary, as substitute of the District Administrator of Palma and included the participation of the following entities: __________

From the Government of the District Palma: Mr. Amade Omar Mpoto – Head of the Locality of Mute; Mr. Carlos Paulo – Representative of the District Services for Economic Activities (SDAE); Mrs. Verónica Pancrácio – Director of the District
Services for Planning and Infrastructures; Mr. Alfane César, District Commander of PRM.

From the Government of the Cabo Delgado Province: Mr. Ramiro June Nguiraze – Provincial Director of Mineral Resources and Energy; Mrs. Manuela Magos – Delegate of the National Petroleum Institute; Mr. Tiago Cherene, Head of the Provincial Services of Geography and Land Register; Mr. Felizardo Roque – Technician of the Provincial Directorate of Public Works; Manuel Daniel – Provincial Delegate of the Institute of Development of Small-Scale Fishing.

From the Central Government: Mrs. Ana Isabel Senda – National Director of Estate and Territorial Planning (MICOA) and Head of the Resettlement Monitoring and Supervision Committee; Mr. Zefanias Chitsungo – National Director of Housing and Town Planning (MOPH) and member of the Resettlement Monitoring and Supervision Committee; Mrs. Lídia Abiba Massalana – Advisor to the Ministry of Fisheries; Mr. Silvano Langa – Advisor to the Minister of State Administration; Mr. Flávio Mulando – Head of the Department of Local State Bodies (MAE); Mr. Salvador Jossias – Head of the Survey Department, in substitution of the National Director of Land and Forestry (MINAG), member of the Technical Resettlement Monitoring and Supervision Committee.

Project proponents:

Anadarko Moçambique Área 1, Limitada (AMA1) represented by Mr. Alcido Maússe – Director of Government Relations and Social Matters, Mr. Alexandre Jossias – Director of Environment and Safety in the Workplace, Iva Garrido – Communication Sector.

Eni East Africa SpA Moçambique represented by Mr. Herculano Vilanculo and António Vasco – Social Projects.

From the Civil Society, represented by the Provincial Union of Farmers of Cabo Delgado, Centro Terra Viva (CTV) and Centro de Estudos de Comunicação Sekelekane.

1 Police of the Republic of Mozambique
From the Senga community, which was represented by approximately one hundred and ninety six people, among which there were men, elderly, youth, children and Community Leaders, with emphasis for the participation of eighty six women.

The meeting began at fifteen minutes past ten, with welcoming greetings from the Permanent Secretary. He asked that the representatives of the District Government, the Provincial Government and the Central Bodies, introduce themselves. The same was requested of the representatives of Anadarko and Eni.

After the introductions, the Permanent Secretary underlined the meeting’s objectives and told the participants that the Government is concern regarding the improvement of the quality of life of the community and in guaranteeing that the Resettlement Process is conducted in the best possible way. He asked that the participants follow the entire presentation attentively and declared the Second Public Consultation Meeting open.

The master of ceremonies, Mrs. Nilza Mazivila, requested that Mr. Pedro Wate, in representation of the proponent, proceed with the presentation of the consultation’s topic.

Mr. Pedro Wate addressed the participants and informed that during the first public consultation the areas of total exclusion were presented. These are areas where the population should not reside for hazardous reasons. He mentioned that the areas of the resettlement host communities had been identified and visited, and that during this second meeting the following would be presented: the village design, its structure, spatial organisation, which will include support services, administration, trade, Complete Primary School (EPC), playing field, entertainment pavilion, Community Centre for learning and developing skills, including income generating initiatives. During his presentation Pedro Wate consulted illustrative maps and project models, including types of housing. He added that the houses will have electrical energy, as well as a water supply system. Mr. Pedro Wate stated that the Senga community agreed to receive the Quitupo community, in Quitunda. Due to that fact, the Quitunda community will receive an identical treatment to that given to the resettled community. To finalise, he requested comments and contributions.

Once the presentation was complete, the master of ceremonies, Mrs. Nilza Mazivila, invited the participants to present comments and suggestions for the improvement of the proposal of the Resettlement Plan.
The meeting’s participants expressed themselves regarding the consultation’s subject matter, in the following terms:

1. Mr. Américo Francisco Xavier, member of the community, offered his opinion as follows:
   • Suggested that considering the fact that the Senga community was a host, it should receive the same treatment as the Quitupo community.

2. Mr. Augusto Rácio posed his question as follows:
   • Questioned about the participating entities in the process of resettlement follow-up, plot dimensions, number of classrooms and if the plots include an area for a hen-coop, barn, corral and outbuildings.

3. Mr. Maico Salamo Tangaria posed his question as follows:
   • Expressed his concern regarding the dimension of the area destined for the implementation of the resettlement village, with regards to the area for the construction of houses for the families to be resettled, in order to guarantee the practice of economic activities, such as agriculture. He said he was concerned about the need to build a Secondary School.

As a comment, Mr. Pedro Wate mentioned that:

   • A Complete Primary School will be built, with the possibility of expansion, houses for the teachers, administrative support services and a playing field. He also mentioned that the company is coordinating with the District Government to identify the best location for the construction of a Secondary School, subject to the availability of sufficient students. Other issues that were presented by the community, such as electricity, roads and water will be analysed by the Project. Regarding the road, due to security issues, this must not run through the village. The resettlement area has sufficient space for the construction of housing for the families that are to be resettled, with the possibility of expansion. The dimensions of the plot will allow for areas for vegetable gardens and livestock farming.

As a comment, Mr. Zefanias Chitsungo mentioned that:

   • In the process of implementation of the resettlement village, contractors will be hired for the execution of the works, whose quality control will be guaranteed by an inspector. It will be up to the Government entities, in coordination with the Local Resettlement
Monitoring Committee to supervise the entire process up to the handover of the keys to the families.

4. Mr. Assane Nsangagi Assane posed his question as follows:
   • At the start of the project, the people were doubtful in relation to the project’s actual intentions, a reason why they did not authorize the realization of the census. He recommended that the work be done based on the Constitution of the Republic, in order to guarantee respect for the communities’ rights.

5. Mr. Anssumane Alberto Npuapua offered his opinion as follows:
   • There is the need to observe equal rights between the community to be resettled and the Quitunda community.

6. Mr. Leonardo Npembe Nfaume offered his opinion as follows:
   • On arrival three (3) government levels were presented. I am not addressing the company. I am asking why the government has not come to meet with Senga before the company’s arrival. I did not know the Permanent Secretary or the Administrator before the company’s arrival. The government is advising the people to get involved in jobs available and there are two leaders and flags in different places. I don’t know what the administration is located here in the Senga village.

7. Mr. Issufo Tankar posed his question as follows:
   • Began by thanking for the presentation, having posed the following questions: The first is regarding the dimension of the area destined for construction of the plant and other facilities foreseen in the land occupation plan and if that information was shared with the communities; the second question refers to the fact that a process of elaboration of the General Urbanisation Plan is underway, for the eighteen thousand hectares, and if this plan will be included in the resettlement process. The final question that was posed is related to the definition criteria of the dimensions of the plots, keeping in mind that the legislation provides for (eight hundred square meters) 800m² in urban areas, and (five thousand square meters) 5000m² in rural areas.
8. Mr. Tomás Vieira Mário expressed his opinion as follows:_____________________

- Appealed that during the process of elaboration of the resettlement plan, measures be proposed in order to avoid social tensions resulting from different assistance received by the resettled families, in relation to the host community, such as improved housing. When the farmers talk of a “house” with a living space, it is not the house as a shelter.

As a comment, Mr. Pedro Wate mentioned that:_______________________________

- The Quitunda resettlement area is part of the Senga village. The population that resides there will be included in the resettlement process. It will not be an excluded community. The population will reside in the new village, with those who are resettled.

As a comment, Mr. Alexandre Jossias mentioned that:__________________________

- We are beginning this Project and participating in all the meetings that have occurred. I will speak on behalf of the two companies involved—ENI e Anadarko. There are fair complaints regarding compensation—this will be a matter to be dealt with during the next meeting. All the questions will be answered. The second question was related to the limits of the areas—no habitation should occur within the area where the plant will be built, because the plant will be operational and it will be dangerous. There is a second area where farming will be possible, but there must be no occupancy due to the noise; and the third area is safe for habitation. We will answer the question of CTV and provide technical reports with engineering calculations. The problem is that we have candidates who are competing for the project of the construction of the plant and we should not put this process at risk by disclosing data at an inconvenient moment, under penalty of being summoned to court.

As a comment, Mr. Alcido Mausse mentioned that:_____________________________

- In relation to the secondary school, there will be one. We will speak to the district government to consider where the school will be located—Palma Sede or in another of the Project’s areas. Using the example of Mozal’s resettlement, we only had students for the secondary school 4 years after the construction of the primary schools. The matter is complex and requires consultation with the Government in order to obtain an outcome. Regarding the matter of the size of the plots, the matter was recorded and will be responded during the III Meeting of Public Consultation.
As a comment, Mrs. Ana Isabel mentioned that:

- The committee participates in the public consultations to observe this process and to guarantee compliance with the Legislation. One of the committee’s responsibilities is to follow-up the entire process up to its conclusion, which coincides with the handover of the houses to the respective beneficiaries. She seized the opportunity to inform that the General Urbanisation Plan underway will take into consideration the need for areas for different activities.

At the end of the question and answer session, the substitute of the Administrator addressed the participants in the following terms: we want development, don’t we? There are always different opinions. We welcome everything that is said because we are ready to learn. You, in Senga, open your eyes. There are ideas that simply destroy; there are ambitious ideas that want you to continue like this. Don’t you want development? So, you need to be very attentive. The government is concerned with this process, on all levels, and is monitoring its development from the start. We are accompanying it and almost sleep here. There are those that say that we don’t understand what is happening, but we monitor everything. Regarding the study of the seismic lines, the people were compensated and the district government witnessed this. It has been a long time since the works ended, but these questions were never raised. But the doors are open for us to listen. We want the youth to participate in these companies in the future, and we want the secondary school as an example to promote education. We appeal to the Senga community to ponder the options, open their eyes and reflect on the development alternatives.

To close the meeting the substitute of the Administrator thanked all participants for their presence.

With nothing further to discuss the consultation ended when it was 13:20 and the present Minutes of the Second Public Consultation about the Resettlement Location Design, House Model, Village Model and Integration of Host Communities were draw-up, in the scope of the Gas Development Project in the Rovuma Basin, Mozambique. The meeting was held in Senga village and the minutes is signed and witnessed by the representatives of the State, the proponents and the community.

Minutes
of the Public Consultation in Scope of the Elaboration of the Resettlement Plan in the
Maganja Village

SECOND PUBLIC CONSULTATION

“RESETTLEMENT LOCATION DESIGN, HOUSE MODEL, VILLAGE MODEL AND INTEGRATION OF HOST COMMUNITIES”

Under the terms of the provisions contained in number 3 of article 23 of Decree nr. 31/2012, of 8\textsuperscript{th} August, which approves the Regulation regarding the Resettlement Process resulting from Economic Activities, on the twelfth day of August of the year two thousand and fourteen, a consultation meeting was held with the Community of Maganja Village, Locality of Mute, Administrative Post of Palma Sede, District of Palma, with the sole agenda of seeking the community’s opinion regarding the “Resettlement Location Design, House Model, Village Model and Integration of Host Communities”.

The meeting was chaired by Mr. Pedro Romão Jemusse, as the Administrator of the District of Palma and included the participation of the following entities:

From the Government of the District Palma: Mr. Amade Omar Mpoto – Head of the Locality of Mute; Mr. Carlos Paulo – Representative of the District Services for Economic Activities (SDAE); Mrs. Verónica Pancrácio – Director of the District Services for Planning and Infrastructures; Mr. Alfane César, District Commander of PRM\textsuperscript{1}.

From the Government of the Cabo Delgado Province: Mr. Ramiro June Nguriraze – Provincial Director of Mineral Resources and Energy; Mrs. Manuela Magos – Delegate of the National Petroleum Institute; Mr. Tiago Cherene, Head of the Provincial Services of Geography and Land Register; Mr. Felizardo Roque – Technician of the Provincial Directorate of Public Works; Manuel Daniel – Provincial Delegate for the Development of Small-Scale Fishing.

From the Central Government: Mrs. Ana Isabel Senda – National Director of Estate and Territorial Planning (MICOA) and Head of the Resettlement Monitoring and Supervision Committee; Mr. Zefanias Chitsungo – National Director of Housing and Town Planning (MOPH) and member of the Resettlement Monitoring and Supervision

\textsuperscript{1} Police of the Republic of Mozambique
Committee; Mrs. Lídia Abiba Massalana – Advisor to the Ministry of Fisheries; Mr. Silvano Langa – Advisor to the Minister of State Administration; Mr. Flávio Mulando – Head of the Department of Local State Bodies (MAE); Mr. Salvador Jossias – Head of the Survey Department, replacing the National Director of Land and Forestry (MINAG), member of the Technical Resettlement Monitoring and Supervision Committee.

The Project proponents:

Anadarko Moçambique Área 1, Limitada (AMA1) represented by Mr. Alcido Maússe – Director of the Government Relations and Social Matters, Mr. Alexandre Jossias – Director of Environment and Safety in the Workplace, Iva Garrido – Communication Sector;______________

Eni East Africa SpA Moçambique represented by: Mr. Herculano Vilanculo and António Vasco – Social Projects; and________________________________________________________________

From the Maganja community there were members of the Resettlement Committee, Community Leaders, men, elderly, youth and children for a total of three hundred and four people, of which one hundred and thirty two were women.

From the Civil Society, represented by the Provincial Union of Farmers of Cabo Delgado, Centro Terra Viva (CTV), Centro de Estudos de Comunicação Sekelekane, Iniciativa de Terras Comunitárias and AMA.

At five minutes past nine, the Administrator opened the session and presented a few considerations regarding the meeting. He said that the meeting’s objective is to obtain contributions for the adequate preparation of the Resettlement Plan. He thanked the Maganja community for hosting the Second Public Consultation Meeting and asked the AMA1 team to proceed with the presentation.

Mr. Pedro Wate, by suggestion of the meeting’s moderator Mr. Inocêncio Maganha, began the session by reminding the participants of some of the aspects addressed in the I Public Consultation Meeting: (i) that the construction of the plant, the airfield and the worker’s residential area will mean that the population may not reside in the area delimited for that purpose; (ii) that the population may not plant machambas in the same area. On the other hand, he indicated that there is also an area where the population may plant their machambas, but may not reside due to the noise level from the plant, the intense light and the risk of accidents and explosions, which may have an effect on the population. To finalise the summary, he emphasised that there is an identified area
Mr. Pedro Wate presented a map to the participants, in which he pointed out the limits of the different areas covered by the Project. In this context he identified two categories of affected population: (i) physically and economically affected population and (ii) only economically affected population.

Pedro Wate clarified that the population was taken to the areas beyond the limits and were shown the exclusion zones destined for the construction of the plant, workers residences and airfield, as well as the partial exclusion zones where the population may continue farming machambas. During the community consultations that were held, the alternatives to address the negative impacts were discussed. On another map, he indicated the location of the affected communities. Explained that there were consultations regarding the selection of the location for the resettlement area and that the population had selected Quitunda. He highlighted that the census was also performed in that area, which included approximately 95% of the population and the asset survey included approximately 65% of the machambas. He explained that during these activities some of the community’s concerns were registered, in which they mentioned lack of drinking water and lack of a school for the children in Maganja. The community indicated the need for a road in good conditions as well as a market where they can perform their trade. All of this is being analysed by the Project in order to produce a response plan to the community’s concerns. Mr. Pedro Wate ended his brief presentation stating that the Project is open to listen to the community’s proposals and priorities.

Prior to the question and answer session, Mr. Alcido Mausse made a summary of the presentation, underlining that Quitupo will be resettled and new houses will be built for the families; he indicated that the Project is studying forms of supporting Maganja in order to improve its living conditions. He highlighted the role of the CRC in the consultation process in the identification of the community’s needs with Anadarko’s site officials. He finalised his intervention referring to the following: (i) the resettlement matter will be with the families that reside in Quitupo and Quitunda; (ii) the compensation matter will be scheduled for the III Public Consultation Meeting; (iii) Anadarko wishes to assist the development of the standard of living of the Maganja community.

The master of ceremonies, Mr. Inocêncio Maganha, opened the question and answer session, alerting the participants to identify themselves, by giving their names and heading to the front so as to have access to the sound equipment.

The meeting participants expressed their opinions regarding the consultation, in the following terms:

1. Mr. Aruna Abasse expressed his opinion as follows:
   - Thanked the Government and the company for bringing development to this area. For a long time we have suffered quite a lot due to there not being a road. Now we already have a dirt road that goes to Maganja. Now we are asking the Government and the company, Anadarko, for a vehicle to travel to
Palma. The company cars cannot be used.

2. Mr. Rajabo Bacar Nhangue expressed his opinion as follows:
   • When the doors open one must make use of the opportunity to walk through. Hence, I come to ask for electricity, on behalf of the community.

3. Mr. Salimo Rachide Cheleuca expressed his opinion as follows:
   • I bring a request: a hospital here in the village, as the health technicians do not respect their opening hours. They begin work at ten o’clock.

4. Mr. Mahazala Abdul Sacur expressed his opinion as follows:
   • I am thankful because today we have the government and Anadarko’s team. We do not understand the meaning. We see that Anadarko gives us information which must not be true. (Handed a letter) Reading: “Anadarko’s list of people invited to a meeting on the eleventh of August, Mwanambi Muchukuch, Salimo Mazala and Uosse Mijayu, Maganja 08:30.” I do not want Anadarko to have this sort of meetings. This type of meeting should not happen. We are talking about compensation. We are afraid that we will not be compensated. I have my cashew trees which were damaged, yet I was not compensated. I participated in the census, but I am not quite sure if I will receive anything. The government should follow-up to verify if I will receive or not. The government made a chart and I think that this chart will not be able to provide me with any sort of living. It may be that the government has already come to an understanding with the company and has received its share, and now I will receive nothing.
5. Mr. Amade Inchamo expressed his opinion as follows:

- The letter arrived here on the ninth, brought by Anadarko. The owners that should have received the letter were not here. The CLOs brought that letter, it was delivered later. At night I received a phone call to postpone the date. On the same night they received information that it had been postponed to the fourteenth of August. I left and went to Mr. Mahazala’s house but did not find him, so I left him a message. I notified everyone on the letter about this alteration. I ask: did I or did I not notify?

As a comment Mr. Alcido Mausse mentioned that:

- I am pleased to know that the scheduled meeting was postponed and communicated to the parties involved.

6. Mr. Mbaruku Muindi expressed his opinion as follows:

- We, from Maganja, suffer; we see our assets being taken from the beach and our machambas. We are hungry. Those areas have our machambas. We need space to produce cassava.

As a comment the Administrator mentioned that:

- We will not discuss compensation today. It will be done during the next meeting. But the message has come across and we are aware that it is a great concern among the community and we will deal with it.

7. Mr. Momade Salimo expressed his opinion as follows:

- We ask that the Government and Anadarko compensate us, for the improvements, until the end of our lives. I suggest that the payments be monthly in order to guarantee our sustenance.

8. Mr. Mussa Sitambul expressed his opinion as follows:

- As already mentioned, today is not the day for us to discuss matters related to compensation. We ask that this be done during the next meeting.

9. Mrs. Mwaziza Sumaila expressed her opinion as follows:

- You said we should present our concerns. Here in Maganja we are in poverty. Send us nurses to work here.

10. Mr. Saíde Darusse expressed his opinion as follows:

- I thank the government and Anadarko for coming, but I have a big request: our life depends on farming and fishing. We ask that we be given an opportunity to continue farming our machambas and fishing, in order for us to continue supporting our families.

11. Mrs. Amina Bacar expressed her opinion as follows:
• We, here in Maganja, produce in Tchi. We are reluctant with what Anadarko says. When it is time to harvest the cassava we spend the night in the \textit{machambas} to protect it from animals, such as elephants and monkeys. What are we going to do if our crops are there? From here to Tchi it is a two hour walk. We ask the government and Anadarko for transportation to bring our food from the \textit{machambas}.________________________________________

12. Mr. Momed Nvita Saíde posed a question:_________________________________
• I have a request addressed to the company: We are forgotten here in Maganja. We have verified that the people from Quitupo, Milamba, and even Patacua, have jobs. This implies that the women and the men from here do not have jobs. Why don’t you offer job opportunities? Why do you think we will not move?_____________________

13. Mr. Mussa Abdala posed a question:_______________________________________
• I heard that there are areas where the access of people will not be permitted. I also heard that there are areas in the sea that we will not be allowed to use for fishing. What area is left for us to be able to continue fishing? _______

14. Mrs. Alda Salomão expressed her opinion as follows:________________________
• I want to make some suggestions regarding how to proceed in relation to the issues that have been raised: There is a concern regarding the loss of access to land and to the sea, as well as the loss of assets. The population is also concerned in knowing how the compensation will be done. It is necessary to protect the rights of the population regarding the loss of access to land and to life resources. They need a fair compensation in accordance with the law. My suggestion, to whoever is directing this process, is for a team to be appointed to work on the review of the legal situation of each affected community member. Another aspect involves the consultation process, a legal right, and above all the process of the people’s engagement in the decisions that are to be made. Hence, we suggest that the population be prepared before the meetings. The community needs to know before the meeting what is going to be dealt with in order for them to prepare questions pertinent to the meeting. The population needs to know that consultation is a time for negotiation. Hence, the people should be prepared – the government and the communities. Finally, I would like to suggest that we allow the population to point out the issues that they have. Thus, we may understand more about the issues that still persist within the community. On the other hand, I ask the Administrator for the people to have permission to present their issues, even if they are a matter that will be responded to during the following consultations. ____________________________________

15. Mr. Tomás Vieira Mário expressed his opinion as follows:____________________
• We were requested to contribute to improve the process. I verified that during the two meetings, twenty two people spoke. Of these, only two women spoke. I believe that this is a problem. The issues regarding resettlement, many of the times deal with matters that refer to women, such as concerns regarding water, firewood and health. In this context, I would like to suggest a methodology which allows for the participation of women. That the facilitators put aside a specific time for the women to participate. Perhaps that methodology would also be applicable in the team that leads the public consultations, in order to guarantee gender balance. The matter is serious.

16. Mr. Mansur Saíde offered his opinion as follows:

• I understood the presentations and saw areas of total and partial exclusion. However, I want to know how the new houses will be.

17. Mrs. Maimuna Ussene offered her opinion as follows:

• I have a machamba in Tchi. I ask that on the day that compensation is discussed that mother Alda comes here because she has sensitivity.

As a comment Mr. Alcido Mausse mentioned that:

• There will be electricity in Maganja. We will study with our technicians to find the best way of supplying electricity to Maganja. We are taking notes about the concerns regarding health. The issue of the activities at sea, as Dr. Alda said, is a matter that has to be negotiated. The issue regarding compensation will be dealt with during the next meeting. We are trying to comply with the consultation’s requirements, it is difficult but we are trying. This matter will be dealt with once again during the next meeting. It must be noted that no one is going to lose their machamba forever. They will always have another machamba in another location and it will not be smaller in relation to the one they have now. The same situation applies to the fishermen. The project will create conditions that will guarantee that the fishermen continue with their activity. Another question that was raised was regarding employment. There are fifty people working in various locations (camps and other places). When the project begins with its activities, after the resettlement of the Quitupo communities, the construction of the project will begin and then there will be employment for many people.

As a comment Mrs. Ana Isabel Senda mentioned that:

• I agree with Mr. Tomas Vieira regarding women. I will be here to follow-up the process. We may have meetings with various interest groups, not only women but fishermen and others. In relation to compensation: Before the company finalises the plan to be approved, we will verify that all data is inserted in a correct manner. We also ask for you collaboration to participate and verify the decisions throughout the process. We are going to need to know that you have participated to guarantee that the process is fair. The
negotiation has the need to comply with the legal base, but it also requires an agreement between the government, the community and the company. We should confirm the projects that will be supported in order to guarantee that the agricultural loss will be suitably compensated. Our task is to verify that the process complies with the established standards. There must be an individual and a group agreement regarding compensation before we authorise the realisation of the next public consultation.

As a comment Mr. Alcido Maussé mentioned that:

- The population will continue to farm and fish. We will guarantee that. If they need transport because it is further away, we will guarantee they have that.

Regarding the model of the resettlement house, we did not present it because the people of Maganja will not be resettled. Given that there will be no new houses for Maganja; we did not present the model.

As a comment Mrs. Alda Salomão mentioned that:

- The majority of the population in Mozambique are women and we can change things together with the men. On behalf of CTV and the entities of the civil society, we are committed to offer assistance as requested by the women of Maganja. We are ready to help provide information in order to comply with the legal requirements before the next consultation meeting. We have Mrs. Isabel, who is the person that will approve the process; we have to work with her and the government people from DNTF, from Mineral Resources, of the Petroleum sectors, to conduct a participative negotiation process which attends to your concerns.

To close the meeting the Administrator thanked all participants, particularly those who contributed to this meeting and those who offered strength to those who spoke. He indicated that there are still other consultation phases. He clarified to the participants that everything that is done is conducted according to the law and the government’s undertaking is to guarantee that everything is in accordance and that the communities’ rights are acknowledged. He said that the initiative is the government’s. It is the government that specifies that the communities should be consulted, that is the reason the government is present. The company merely has to do their business, directed by the government. The government wants the development of the population for the development of Mozambique.

With no further issues to be discussed, the consultation ended when it was fourteen minutes past twelve and the present Minutes of the Second Public Consultation about the Resettlement Location Design, House Model, Village Model and Integration of Host Communities were draw-up, in the scope of the Gas Development Project in the Rovuma Basin, Mozambique. The meeting was held in the Maganja village and the minutes is signed and witnessed by representatives of the State, proponent and community’s representatives.

MINUTES
OF THE PUBLIC CONSULTATION FOR THE PREPARATION OF THE
RESETTLEMENT PLAN IN QUITUPO VILLAGE

SECOND PUBLIC CONSULTATION
“RESETTLEMENT LOCATION DESIGN, HOUSE MODEL, VILLAGE
MODEL AND INTEGRATION OF HOST COMMUNITIES”

Under the provisions contained in number 3 of article 23 of Decree nr. 31/2012,
dated 8\textsuperscript{th} August, which approves the Regulation regarding the Resettlement
Process resulting from Economic Activities, on the thirteenth day of August of the
year two thousand and fourteen a consultation meeting was held with the Community of
Quitupo Village, Locality of Mute, Administrative Post of Palma Sede, District of
Palma, with the sole agenda of seeking the community’s opinion regarding the
“Resettlement Location Design, House Model, Village Model and Integration of
Host Communities”.

The meeting was chaired by Mr. Pedro Romão Jemusse, as the District Administrator of
Palma and included the participation of the following entities:

From the Government of the District Palma: Mr. Amade Omar Mpoto – Head of the
Locality of Mute; Mr. Carlos Paulo – Representative of the District Services for
Economic Activities (SDAE); Mrs. Verónica Pancrácio – Director of the District
Services for Planning and Infrastructures; Mr. Alfane César, District Commander of
PRM\textsuperscript{1}.  

From the Government of the Cabo Delgado Province: Mr. Policarpo Napica –
Provincial Director of Coordination of Environmental Affairs; Mrs. Manuela Magos –
Delegate of the National Petroleum Institute; Mr. Tiago Cherene, Head of the Provincial
Services for Geography and Cadastre; Mr. Felizardo Roque – Technician of the
Provincial Directorate of Public Works; Manuel Daniel – Provincial Delegate for the
Development of Small-Scale Fishing.  

From the Central Government: Mrs. Ana Isabel Senda – National Director of Territorial
Planning (MICOA) and Head of the Resettlement Monitoring and Supervision
Committee; Mr. Zefanias Chitsungo – National Director of Housing and Town Planning
(MOPH) and member of the Resettlement Monitoring and Supervision Committee; Mrs.

\textsuperscript{1} Police of the Republic of Mozambique
Lídia Abiba Massalana – Advisor to the Ministry of Fisheries; Mr. Silvano Langa – Advisor to the Minister of State Administration; Mr. Flávio Mulando – Head of the Department of Local State Bodies (MAE); Mr. Salvador Jossias – Head of the Department of Surveying, in replacement of the National Director of Land and Forestry (MINAG), member of the Technical Resettlement Monitoring and Supervision Committee.

Project proponents, namely:

Anadarko Moçambique Area 1, Limitada (AMA1) represented by Mr. Alcido Maússe - Director of Government Relations and Social Matters, Mr. Alexandre Jossias - Director of Environment and Safety in the Workplace;

Eni East Africa SpA Moçambique represented by Mr. Herculano Vilanculo and António Vasco – Social Projects; and

The Quitupo community included members of the Resettlement Committee, Community Leaders, men, elderly, youth and children, with a total of two hundred and fifty four people, of which approximately half were women.

From the Civil Society represented by the Provincial Framers Union of Cabo Delgado, Centro Terra Viva (CTV), Centro de Estudos de Comunicação Sekelekane, Iniciativa de Terras Comunitárias, AMA, Christian Council of Mozambique (CCM).

At six minutes past nine, the Community Leader welcomed the delegations and the community. Following local custom a religious leader delivered a prayer. Next, the head of the locality of Mute introduced himself and asked for the community's active and positive participation in relation to the presentation to be done during the present public consultation. He asked that the questions and opinions be presented in an organised manner, one person at a time, and asked that other's opinions be respected.

In turn, the Administrator stated that the present meeting was one of four meetings planned with the purpose of obtaining several opinions for the preparation of the Resettlement Plan. He appealed the community to contribute as much as possible; women, men and even youth, in an organized manner. The Administrator emphasised that Government representatives, project proponent companies and civil society were all present and can collectively assist Quitupo and the company to develop the project. He explained that the Government intends to supervise the entire process of the gas development project in the Rovuma Basin. He thanked the Quitupo community for hosting the Second Public Consultation Meeting and opened the session.

The meeting’s moderator, Mr. Inocêncio Maganha, addressed the participants and announced the objectives of the meeting. He stated that Mr. Pedro Wate would make a presentation about the model of the resettlement village and the integration of the host community. He explained that Mr. Alcido Maússe would present a general summary of
Mr. Pedro Wate began the presentation by announcing that the new village would be like a city and would include all utilities. He mentioned a school and a health centre. He clarified that the village would also serve the host community. With the aid of a map, Pedro Wate indicated Quitupo’s location and spoke of the community’s livelihood activities, highlighting fishing, harvesting shellfish in the Palma Bay and agriculture. He showed the exclusion zones, and identified their limits according to local names and physical references, commonly named by the population. As an example, he indicated names of sea accesses, such as Milamba, Ngogi and the "casa do colono" as limits on the beach. In the interior zone, he pointed out well known low zones. Pedro Wate recalled that the community, together with the company, have selected the location for the construction of the new village in Quitunda. This work included visits to alternative resettlement locations to allow better comparison references for the population. He explained that health services, education (EPC), police station, local administration and sports, commercial and recreational facilities will be built. Pedro Wate added that the village will incorporate a water supply system, tarred access road and electricity to be installed in each house. He showed the distribution of houses and utilities, including the fish market with a refrigeration system to preserve fish, shops and a square for public transportation. He added that there will be a resource centre, mosque(s), football field and a location for the cemetery. Pedro Wate clarified that there will also be green spaces to ensure the existence of pockets of pure air. Following this, he presented the proposed house model, its main partitions, roofing options, and the interior and outside options for the house. He detailed the benefits of electricity that will allow a prompt and positive development in domestic activities and small family businesses. To finalise, he said that the company will build a model house which may be visited and can be used to inform the population's opinion.

After the presentation by Mr. Pedro Wate, Mr. Alcido Maússe requested that the technical team present the house model to the meeting’s participants. This was done and groups of people received detailed descriptions on the house and asked for clarification. After the general round, Mr. Maússe summarized the presentation session as follows:

(i) The Quitupo Community has already visited the resettlement location; (ii) A house model already exists; (iii) The house will be built with blocks and cement; the covering of the house will be of zinc sheets; (iv) Each family will select the type of trimming for the roof, either pitched roof or a pavilion type roof.

Mr. Alcido Maússe clarified that the government does not want the population to suffer due to the Project. The Project should contribute towards the improvement of the local communities’ living conditions. To finalise, he also said that there are approximately five hundred houses in Quitupo. There are fifty five people that work for AMA1, which means that one in ten families has a worker at Anadarko. On the other hand, there are fourteen people in training to work on the project. The company will have a social responsibility department to work with the communities in order to promote the communities’ well-being. The Administrator commented that the meeting involved a commitment and that the Government will supervise the process in order to guarantee the success of the plan. He asked the community to contribute in the construction of the houses. In this context, he asked that the opinions presented in the meeting relate to the agenda and that the presentation and offer additional clarification.
Mr. Inocêncio Maganha requested that the participants take the floor, respecting the participation of women, elderly and youth.

The meeting’s participants expressed their opinion regarding the subject matter of the consultation, as follows:

1. Mr. Issa Muidine expressed his opinion as follows:
   - First of all, I would like to thank God. I do not know how I will live in the new host area. Many promises were made by the company, stating that we would have suitable homes, electricity and water. Will we not have monetary compensation for the assets that we have inherited from our ancestors? I would like the subsequent generations to benefit from the resettlement process.

2. Mr. Najumo Quilasse expressed his opinion as follows:
   - I am worried because when we performed the census we were given cards, whereas for the asset survey we do not have any report that indicates that we have registered our machambas.

3. Mr. Augusto Alberto made a request:
   - I have a small request: I have a house in Ngoji and have already performed the census. I would like the company to compensate me in order for me to continue conducting my business elsewhere.

4. Mr. Assane Nsangage Assane expressed his opinion as follows:
   - How is the company aware of what I own, if I, the proprietor, am unaware of what I own? Provide supporting documents regarding the registration of the machambas, just as was done with the census. I ask that the Government, the company and CTV work together and that CTV acts as an advocate of the community.

5. Mrs. Echa Assumane Ali asked a question:
   - I heard that we will be resettled to another area. However, we have lived in this area for a long time and have buried our ancestors here. How will the graves be handled?

6. Mr. Abdurabe Issa expressed his opinion as follows:
   - The project has affected our homes and our lives, in terms of land, sea and even neighbourhood. I ask that the Government and the company work to protect human rights. I would like to know the size of the plant. There was no compensation for the owners of the area of Tchi.
7. Mr. Issufo Tankar (CTV) expressed his opinion as follows:

- I would like to discuss the compensation of improvements. What strategy is the company adopting knowing that there are people in the community who still have no response regarding the matter? It would be good if the company, the Government and the civil society worked together to gather our concerns, as this will bring confidence to the community.

- I would like to know if there is a resettlement committee at district level. If it does exist, how are the civil society and the community incorporated?

- If it does not exist, I recommend it and would like to see it created promptly.

- One of the objectives of the public consultation is community integration, more has to be explained regarding thoughts about the machambas, and how the population will live during the first months before they begin producing in the new locations, in order to avoid starvation.

8. Mr. Augusto Rasse (UPAC) expressed his opinion as follows:

- Does the project provide for an expansion area in the resettlement village?

- Regarding the house model, we have had an experience in Tete where the houses were built with fresh blocks. The houses in Tete did not use foundations.

- AMA1 should offer strong homes and explain their maintenance, given that single people will be resettled, and these people have little economic power, in order to avoid charges in the future.

- Regarding the proposed water tank, I recommend that it be a cistern for improved water conservation.

9. Mr. Nelito Mouzinho (CCM) asked a question:

- I have information that the plant to be built will be the second largest in the world. Where is the first largest located? What will the actual size of the plant be?

- I am aware that the Government employs strategic lines in relation to natural resources. Is it possible to make decisions based on these strategic lines?

10. Mr. Assumane Alidjuane expressed his opinion as follows:

- You are referring to many things for after the resettlement, but if there were no resettlement wouldn’t there be any development?

Mr. Alexandre Jossias commented that:

- On behalf of Anadarko and eni, I thank the Quitupo community for the welcome. We would also like to thank the site teams for their welcome and we would like to thank the contributions which will be useful and will be taken into consideration. Not all questions will be answered. We intend that some answers come from the community. We respect the will of the Quitupo community, based on this country’s
law. We will work with the Government and the civil society. Many questions are related to compensation, a matter which will be dealt with in the third round of public consultations. Some compensation refers to the work which was performed in the past. During the time between this meeting and the next, the site teams will seek to find out how the community intends to be compensated. With the Government’s help, we will study the compensation packages. Anadarko will fulfil its promises.

The plant that will be built is not the largest, nor the second largest, in the world. The company is open to offer information to the civil society; in the event that they wish to know details they may contact the company.

Mr. Zefanias Chitsungo commented that:

• The project will be implemented by private companies and the government has standards and laws that should be adhered to during this process. The materials to be used should be of the best quality. The houses should be improved and not similar to the previous ones. The communities will be able to follow-up the process up to the handover of the house keys.

Mr. Zeferino Milando commented as follows:

• What will the children’s legacy be? What will the parents definitely leave for their children? The communities’ concerns are also those of the Government.

To close off the meeting, the Administrator thanked everyone that attended the meeting, the Central, Provincial and District Government Delegations and the companies that offered presentations. He said that the Government will assess the Resettlement Plan and confirm whether there are conditions to move forward. There are still more meetings to come. The Administrator confirmed that there are many NGOs accompanying the process and the pace at which it is being implemented is adequate. Pressures are not tolerable. He clarified to the participants that everything that is done is conducted in accordance with the law and the government’s duty is to guarantee that everything is compliant and that the communities’ rights are being acknowledged. The government wishes to see its population's development for the progress of Mozambique.

With nothing further to discuss the consultation ended when it was twenty seven minutes passed twelve. The Minutes of the Second Public Consultation about the Resettlement Location Design, House Model, Village Model and Integration of Host Communities, were draw up in scope of the Gas Development Project in the Rovuma Basin, Mozambique. The consultation was held in Quitupo village and is signed and witnessed by the state’s, the proponents’ and the community’s representatives.

5
Under the terms of the provisions contained in number 3 of article 23 of Decree nr. 31/2012, dated 8th August, which approves the Regulation regarding the Resettlement Process Resulting from Economic Activities, on the fourteenth day of August of the year two thousand and fourteen, a consultation meeting was held in Palma Sede, Locality of Mute, Administrative Post of Palma Sede, District of Palma, with the single agenda of seeking the community’s opinion regarding the “Resettlement Location Design, House Model, Village Models and Integration of the Host Communities”.

The meeting was chaired by Mr. Pedro Romão Jemusse, as the Administrator of the District of Palma and included the participation of the following entities:

From the Government Body of the District of Palma: Mr. Amade Omar Mpoto – Head of the Locality of Mute; Mr. Carlos Paulo – Representative of the District Services for Economic Activities (SDAE); Mrs. Verónica Pancrácio – Director of the District Services for Planning and Infrastructures;
From the Government of Cabo Delgado Province: Mr. Policarpo Napica – Provincial Director for Coordination of Environmental Action (DPCA); Mrs. Manuela Magos – Delegate of the National Petroleum Institute; Mr. Tiago Cherene, Head of the Provincial Services of Geography and Land Register; Mr. Felizardo Roque – Technician of the Provincial Directorate of Public Works and Habitation; Manuel Daniel – Provincial Delegate of the Institute for the Development of Small-Scale Fishing

From the Central Government: Mrs. Ana Isabel Senda – National Director of Estate and Territorial Planning (MICOA) and Head of the Resettlement Monitoring and Supervision Committee; Mr. Zefanias Chitsungo – National Director of Housing and Town Planning (MOPH) and member of the Resettlement Monitoring and Supervision Committee; Mrs. Lídia Abiba Massalana – Advisor to the Ministry of Fisheries; Mr. Silvano Langa – Advisor to the Minister of State Administration; Mr. Flávio Mulando – Head of the Department of Local State Bodies (MAE); Mr. Salvador Jossias – Head of the Survey Department, replacing the National Director of Land and Forestry (MINAG), member of the Technical Resettlement Monitoring and Supervision Committee.

Project proponents:

Anadarko Moçambique Área 1, Limitada (AMA1) represented by Mr. Alcindo Maússe – Director of Government Relations and Social Matters, Mr. Alexandre Jossias – Director of the Environment and Safety in the Workplace.

Eni East Africa SpA Moçambique represented by Mr. Herculano Vilanculo and António Vasco – Social Projects.

From the Civil Society, represented by the Provincial Union of Farmers of Cabo Delgado, MPESCAS-Palma, CCP – Palma, STV – Television, Christian Council of Mozambique, NCC Moç Lda, Centro Terra Viva (CTV), Iniciativa de Terras Comunitárias (ITC) e the Centro de Estudos de Comunicação Sekelekane.
From the community which was represented by approximately one hundred and forty-eight people, among them men, youth, children and community leaders, with emphasis on the participation of approximately 45% of women.

The meeting began at fifteen minutes passed nine. The Administrator welcomed all Delegations, including the Central, Provincial and District Government. During the introduction of the members of the District’s advisory council these individuals stood up. The Administrator then asked the representatives of the Provincial Government and the Central Bodies to introduce themselves. The same procedure was requested from the representatives of the companies Anadarko and eni, and subsequently to those present from the civil society.

This is the second round of the public consultation meeting that commenced on Monday in Senga, Maganja, Quitupo and today in Palma Sede, it is aimed at the preparation of the Resettlement Action Plan, useful for our communities. The Administrator asked the population to be attentive to the matters to be dealt with. We intend to gather the most contributions and recommended that there be no dominance and ask that the participants are quick when using the microphone.

The master of ceremonies, Mr. Inocêncio Maganha, requested that Mr. Pedro Wate, in representation of the proponent, proceed with the presentation.

Mr. Pedro Wate addressed the participants and informed that during the first Public Consultation meeting the areas of total exclusion had been presented, where people should not reside as they are inadequate in terms of safety. He explained and mentioned some activities such as the population census at the level of the project’s influential zones; asset survey; socio-economic study; studies specialized in the various areas as being preparation for the compensation packages. The site teams conducted visits to the areas of the resettlement host communities, involving the local leadership, members of the Community Resettlement Committees and influential people from the affected communities.

He mentioned that during the consultation process between the field teams and the communities Quitupo had selected Quitunda and Senga had accepted to welcome their brothers to lodge in Quitunda, and that during the second meeting the village design would be presented, its structure, layout, and will include support services, administration, commerce, Complete Primary School (EPC), playground, leisure
pavilion, community centre for learning and development of skills, including initiatives for income generation. During the presentation Mr. Pedro Wate presented descriptive maps and house models. He added that the houses will include electricity and a water supply system. Mr. Pedro Wate confirmed that he is working with the Government to approve the house model. The Quitunda community will receive equivalent treatment to that of the resettled community. To close off he asked for comments and contributions.

Mr. Alcido Maússe presented his comment as follows:

- The Quitupo community has been informed of the objective of the Liquefied Natural Gas plant that is in Quitupo.

- New houses must be built in Quitunda to host the community of Quitupo. A village of plus minus five hundred or six hundred houses will be built. The village will include brick houses, a health centre, a bus terminal, a fish market and other facilities.

- No one will lose out; the current homes will be replaced by improved homes.

- The affected machambas will receive replacement areas.

- Some people are being trained at Depot (Training Centre). Jobs will be available for the construction of the plant.

- No one will be resettled before receiving new homes and the affected families will follow-up the process.

Mr. Inocêncio Maganha commented as follows:

- The Resettlement Action Plan (RAP) has two phases: 1. Planning; 2. Implementation. We are now in the planning phase and thus we need to gather issues, contributions and suggestions that will be taken into account during the preparation of the RAP.

Once the presentation was conclude the master of ceremonies, Mr. Inocêncio Maganha, invited the participants to present comments and suggestions that will improve the proposal of the Resettlement Plan.
The participants expressed their opinion/comments regarding the subject matter of the meeting as follows:

1. Mrs. Sabina Miguel Valombe expressed her opinion as follows:

   - The houses are beautiful. The major concern is the kitchen to be built outside with local material. What will happen during the rainy season?
   - One cannot combine electricity with firewood. I propose the construction of a kitchen with conventional material.

2. Mrs. Consolata Maze, expressed her concern as follows:

   - I like the houses. I reside in Quitupo and my husband has 3 wives. Will they all reside in the same house?
   - Will there be a house available for someone that comes from Pundanhar area and owns nothing in Quitupo?

3. Mr. Sufiane Momede, member of the consultative council, expressed his concern as follows:

   - Who will settle the electricity and water expenses?
   - Will the disabled also have access to a home?
   - Who will assist orphans whose parents pass away in the resettlement area?

4. Mr. Luis Salimo, community leader of the Incularino neighbourhood, expressed his concern as follows:

   - If a person is uneducated will she or he not be entitled to what is his or hers?
   - Many people that reside in Palma own assets in Quitupo. A Resettlement Committee should be created in Palma.
   - Is it that in Palma we have no ranks? Many high ranked people are coming to Palma but we want no conflicts. If you have a disagreement with the
company then solve it, but let Palma develop. We want to develop like the
city of Beira.

5. Mrs. Rosa Albino expressed her opinion as follows:
   
   • The people of Palma are very lucky.
   
   • Many foreigners are buying land, our assets but want to pay very little. If
   anyone wishes to sell their assets, then they should sell freely.

6. Mr. Saíde Alberto, member of the consultative council, expressed his concern as
   follows:
   
   • I thank the Central, Provincial and District Government. The Government is
   communicating well with the company but some people want to destroy this
   effort. Some of these people are from Palma.

7. Mr. José Miguel expressed his concern as follows:
   
   • I thank Anadarko for the understanding it holds with the Government and
   the community.
   • Anadarko has indicated the areas available for the population. However,
   foreigners are purchasing big plots, some of which already have landmarks,
   but they have not spoken to the owners who own machambas. An example
   of these demarcations is from the river Namalala up to Pundanhar, which
   already belongs to someone called Papá.
   • Where will the population open their machambas?
   • The new generations will have no area for their machambas!

8. Mr. Tomás Viera Mário, journalist, expressed his concern as follows:
   
   • What were the motives for the selection of the resettlement site (Quitunda)?
   • What other villages were proposed?
   • Why is resettlement taking place in an existing community?
   • When will the minutes be read?
• Crucial issues such as compensation, which are to be discussed during the third round of public consultations, we propose that the technical documentation be circulated in advance so that the population affected may participate knowingly.

9. Mrs. Alda Salomão, Centro Terra Vida (CTV), expressed her opinion as follows:

• I want to emphasize what has been expressed; we must make certain that during the implementation of the project all conflicts have been reduced.

• Ensure that all concerns, issues raised by the communities, are received, responded and taken into account.

• The members of the Palma community are responsible for guaranteeing that the project is well implemented. The map reveals that there is a project that intends to occupy land, this involves a licensing process.

• Resettlement does not only involve housing but also the populations' rights.

• What rights will the resettled population be entitled to?

• I recommend that we discuss land occupation and other related issues.
Mr. Alexandre Jossias commented as follows:

- On behalf of Anadarko and eni I thank you for welcoming the project.
- I do not agree that people that are uneducated are ignorant. Since the project has started we have gained wisdom from the population.
- The population of Quitupo did not wish to be distant from the project area, but in the area.
- The community rights will be protected. That is the grounds for the asset survey.
- If an individual has three wives the second and third wife will be taken into account, they will be entitled to a home to guarantee the rights of women and children.
- The expansion area will have approximately 250 plots.
- Quitunda is the village that will be constructed and will host the current fifteen families.
- The main reason for the selection of Quitunda is to maintain the social structure intact, the selection of an area with low population density, and where traditions will not be affected.
- The project acknowledges that not only Quitupo will be affected. Palma, Maganja, Pemba, the entire nation has to benefit from the project.
- Public consultations are not only useful to gather questions but also to collect financial assistance to help improve the process.
- In relation to the treatment of graves, the project will discuss individually with each family.
- The reasons for the transfer are, among others, the associated risk of security and explosions.
- The pioneer camp will be destroyed once the plant is constructed, no one will reside in the area.
- The staff's residences will be outside the project area.
- In relation to the maintenance of the house: the houses will be of good quality, we will not handover houses that will require maintenance within a week.
- Resettlement is a means to develop the community, to guarantee that the population has an improved standard of living, get jobs in the project, and have
community projects and new businesses.

- We will be neighbours forever and when we have problems in the plant we will ask for assistance.
- In relation to the minutes of the meetings these will be signed by the local representatives and affixed within a period of five days in the communities of Senga, Quitupo and Maganja.
- I order to prepare for subsequent consultations; the issues of the public meetings should be discussed in advance with the members of the committees, local leadership and influent individuals.
- The house model has been decided 6 months ago with MICOA, DNAPOT, DPOPH, including the affected communities to gather contributions.

Mrs. Yarina Martins commented as follows:

- The objective of the census and the asset survey is to identify the number of families, type of assets affected by the project both physically (loss of residence) and economically (loss of source of income).
- In Quitupo the families have asked for the census to be initiated and subsequently the asset survey.
- Not only people from Quitupo, Senga and Maganja have assets inside the project area.
- In Palma 490 households were registered during the census.

At the end of the Question and Answer session the Administrator addressed the participants and presented his closing remarks:

He thanked everyone's participation, in particular those that posed questions and those that responded. We are interested in a good quality resettlement plan and we are counting on everyone's collaboration. This is a complex process and we have to make sure we know how to carry it out.

Our communities are prepared to receive contributions and recommendations of anyone. What we do not agree with is that some people echo what we say.
We have information from the community about the pamphlet that has not been read. If mistakes were committed let us forget those, let us ensure that future processes are better implemented. 

The decisions taken are considerate. 

To close off the meeting the Administrator thanked the members of the central, provincial and district government, AMA1, eni, civil society and the members of the District Consultative Council. 

Having nothing further to discuss the consultation meeting was concluded at thirty five minutes past one o’clock in the afternoon and the present minutes of the Second Public Consultation on the Resettlement Location Design, House Model, Village Models and Integration of Host Communities, within the scope of the Gas Development Project in the Rovuma Basin, in Mozambique. The meeting was held in the village of Palma. The present minutes is signed and witnessed by the representatives of the State, the proponents and the community representatives.

18 Agosto 2015 – Reunião Pública: Senga
On the eighteenth day of August of the year two thousand and fifteen, in accordance with the provisions set forth in paragraph 3 of art. 23 of Decree 31/2012, dated 8th August, which approves the Regulations on the Resettlement Process Resulting from Economic Activities, the Third Consultation Meeting was held with the Community of the Senga Village, Locality of Mute, Administrative Post of Palma Sede, District of Palma, with the following agenda:

I. Status of the surveys (registration of people and asset survey)

II. Presentation of the entitlement framework (proposed compensation package)

The meeting was chaired by Mr. Pedro Romão Jemusse, Administrator of the Palma District and was attended by the following individuals: ________________________________

On behalf of the Government of the Palma District: Mr. Abdul Piconês - Permanent Secretary; Mr. Amade Omar Mpoto – Head of the Mute Locality; Mr. Carlos Paulo – Representative of the District Services for Economic Activities (SDAE); Mrs. Verónica Pancrácio – Director of District
Services for Planning and Infrastructure; Mr. Saíde Assane – Director of Civil Registry and Notary Services and Mr. José Ernesto – Head of Operations of PRM.

On behalf of the Government of the Cabo Delgado Province: Mr. Ramiro Juni Nguiraze – Provincial Director of Mineral Resources and Energy (DIPREME); Mrs. Ivânia Florência – DIPREME; Mr. Tiago Mirione – Provincial Directorate of Agriculture; Mr. Hélio Brondalo – Provincial Directorate of Agriculture; Mr. Victor Cássimo – DIPREME; Mr. Cássimo Nivale – Provincial Directorate of Gender, Children and Social Welfare; Mr. Manuel Daniel – National Institute for the Development of Small Scale Fisheries.

On behalf of the Central Government: Mr. Arlindo Dgedge – National Director of Territorial Planning and Resettlement; Mrs. Eulália Macome – Ministry of Agriculture and Food Security; Mrs. Mara Bata, Mr. Lázaro Matlava, Mr. Inácio Novela – Ministry of Land, Environment and Rural Development; Mr. Silvano Langa – Ministry of State Administration and Public Service; Mr. Flávio Mulando – Ministry of State Administration and Public Service; Mrs. Abelina Chambule – National Petroleum Institute; Mr. Nélcio Bambo – Ministry of Gender, Children and Social Welfare; Mr. Emídio Raúl André, Mr. Erudito Boavida Malate and Mr. Arménio Neves da Silva – Ministry of the Sea, Inland Waters and Fisheries.

On behalf of the Project Proponents, namely: 

Anadarko Moçambique Área 1, Limitada (AMA1) represented by: Mr. Alcido Maússe, Director of Government Relations and Social Affairs, Mr. Alexandre Jossias – Environment, Health and Safety Manager, Mr. Sérgio Barros – Resettlement Process Manager; Mrs. Iva Garrido; Mrs. Maria João Hunguana, Mr. Cláudio Foquiço; Mr. Salvador Traquino and Mrs. Alice Madeira, Estevão Mabjaia and Consultants Mrs. Gaye Thompson, Mr. Pedro Wate and Mr. Inocêncio Maganha.
Eni East Africa SpA: Mr. Herculano Vilanculos, Mrs. Carla Pene, Mr. Eurico de Azevedo, and Mr. Constantino Matuta.

Empresa Nacional de Hidrocarbonetos E.P. (ENH): Mr. Julião Nhaquila; Mrs. Neusa Fortes and Mrs. Esperança Macovela.

The meeting was also attended by approximately two hundred and thirty four members of the community, including Mr. Tomás Pessa - Community Leader and Mr. Anselmo Yassine - Chairman of the Community Resettlement Committee, as well as members of various civil society organizations.

The meeting began at 9:30 AM, with the welcome greetings of the Administrator who then invited the representatives of the Government (at the District, Provincial and Central level), of ENH, of the project Proponents (Anadarko and Eni), as well as of the civil society organizations present to introduce themselves.

After the introductions, the Administrator, in his opening speech, emphasized the meeting's objectives and explained to the participants that the Government is eager to improve the quality of life of the communities and ensuring that the resettlement process is carried out in the best way possible. Similarly, he asked participants to carefully pay attention to the presentation that would ensue, and declared the Third Public Consultation Meeting open.

Next, the District Administrator invited the National Director of Territorial Planning and Resettlement to make the initial observations.

The National Director confirmed that the Government considers the Liquefied Natural Gas Project to be a strategic tool for the development of the country, similarly to others that are being implemented. He also emphasized that the Government is aware of the complaints
regarding this process and is presently assessing the process to measure potential failures that might have occurred and that at the appropriate time it will render the relevant clarifications. He mentioned that recently a Memorandum of Understanding was signed between the Government (represented by the Minister of Land, Environment and Rural Development) and Anadarko, which establishes the commitment of both parties to protect the rights of the communities affected by the Project. He concluded his intervention by urging the participants to contribute in a constructive manner with issues, ideas and observations in order for the pursued objectives to be attained.

Next, the meeting facilitator invited the Proponent, in the person of Mr. Sergio Barros, to present the agenda of the meeting. This presentation was preceded by a review of the resettlement planning process, including matters discussed in the previous two public consultation meetings.

It was mentioned that certain questions weren't responded to immediately by the Project. During the process these have been gradually responded to and in October 2014 a document was drafted containing the answers to the issues raised during the first and second public consultation meeting. This document was disclosed to the communities and posted in the Nkutano and in other visible locations in the community, as well as in the Project's website.

The Proponent proceeded with the presentation of the topics that constituted the meeting's agenda, having addressed the following issues in detail: registration of people and the asset survey; the compensation package, including the eligibility criteria and basis of calculation of the proposed values; the replacement village; the replacement of the livelihoods; and the medium and long term community benefits.

Once the presentation was concluded, the meeting's facilitator invited the participants to present issues, comments and suggestions around the addressed topics.
The meeting’s participants expressed themselves regarding the consultation’s topic as follows:

1. Mr. Omar Saïde Omar, community member: 

Regarding the compensation process, who will be the first to receive the compensation payment? Will it be the Quitupo or the Senga (Quitunda) community? We have heard about a fund to finance projects of the communities affected by the resettlement project. I think that this fund will not benefit those that are disadvantaged, but the other communities instead, for example, Palma. Presently, people are dismissed in the Project in an arbitrary manner. How do you turn up promising employment opportunities? Why is only the construction of the church here in Senga spoken about and not the construction of the mosque? The clinic of the Project’s camp does not provide assistance to the local workers; however, when someone falls ill they demand a certificate that often is not accepted.

In response the Proponent said that:

The compensation values were defined based on the surveys that were carried out. Therefore, both the first and the last will receive due compensations. It is compulsory by law that those affected should receive the compensations before they suffer the impacts. Therefore, the first to suffer the impacts of the Project will be the first to be compensated. With regard to the fund to finance the community projects, such fund will not be restricted to some communities, all the communities affected by the Project will benefit from this fund. Regarding the employment, the Proponent mentioned being unaware of the reported situation, however committed itself to follow up the matter for its due clarification. The camp’s clinic is small and is not able to cover the needs of all the communities. A health center will be built in the future replacement village to benefit all the communities. In relation to the mosques and churches, the Proponent mentioned the possibility of them being built but on the basis of a consultation process with the members of the communities affected by the project.
2. Mr. Raimundo Tangage, community member: I request that the company presents the costs of the crops and the trees, for example, the coconut trees and the cashew nut trees.

In response, the Proponent said that: 

In relation to the *machambas*, someone who has, for example, a hectare of maize will be compensated with the value of 180.000Mt. The prices of the trees vary depending on the type of tree. A *machamba* with no crops will be compensated the value of 80 000Mts. With reference to this matter, the compensation tables of the crops and fruit trees were presented and the respective basis of calculation was explained.

3. Mr. Salimo Alberto Assumane, community member: Mentioned being concerned with the areas that are to be compensated. In Senga, peanuts and beans, which are seasonal crops, are more cultivated. Therefore, if the time of the compensation coincides with the postharvest phase, how will this compensation be done? In the event that the people do not want the graves to be disturbed, what will the procedure be?

In response the Proponent said that: 

The compensation will depend on the *machamba*’s stage at the time that it was registered and at the time of the compensation and each one will deserve due attention. The value of the compensation will be defined and paid according to the *machamba*’s area at the time of the compensation, as well as the existing crops. With regards to the graves, their treatment will depend on an individual consultation process with the family members of the deceased.

4. Mr. Ali Saíde, community member: During the presentation we only heard about the payment of the compensation for our assets and the transfer of houses. We did not hear anything about our poultry houses; will there be compensation for the poultry houses?
What will the benefit be for the Patacua residents, given that it is one of the areas affected by the Project? ________________________________

In response, the Proponent said that: ________________________________

For the loss of the poultry houses, there will be compensation in the value of 10,000 MT; even so, the person affected may transfer all the savage material to the new resettlement location. Regarding the second point, the Proponent mentioned that the affected communities will benefit from a community fund that will be made available by the Project as part of the compensation package. Therefore, Patacua will benefit. In addition, the Project will create employment opportunities for the Afungi communities.____________________________________________________

5. Mr. Crisanto Paulino, community member: We want the development process to not start far from here, but rather that it starts here in Senga, as we are the owners of Quitunda. Before doing anything for the Quitupo community in Quitunda, something should be done for the Senga community so that we may better receive the Quitupo community. Senga has two churches and one mosque but we only hear about churches. Therefore, three places of worship should be built in Senga, two churches and one mosque.____________________________________________________

In response, the Proponent said that: ________________________________

The priority in the payment of the compensation will depend on the moment of the impact, possibly the Senga community, in Quitunda, will be the first to benefit in order to make way for the construction of the replacement village. The Senga community will have benefits in accordance with the consultations that are held. The construction of churches, as well as of mosques, will depend on the result of discussion with the communities.____________________________________________________________

6. Mr. Castro dos Santos, community member:__________________________
Will Senga be the last to receive the compensation and benefits from the Project? Taking into account the benefits that the Quitupo people will have, what will the specific benefits for the Senga community be? I suggest that the start of the construction of the houses in Quitunda be simultaneous with the start of the construction works of the infrastructures destined for the Senga community. He suggested that the employment opportunities be divided amongst the Senga and Quitupo residents.

In response, the Proponent reiterated that:

It is very likely that the Senga community be the first to be compensated in view of the fact that it is the first to suffer the impact of the Project's activities, namely the construction of the replacement village. The Senga community will have benefits according to the consultations that are held. In addition, the replacement village will have a hospital and a school that will serve all the surrounding communities. In relation to power and other infrastructures outside the resettlement village, the Project may not make assurances. However, those provisions may be reassessed by the Project once the village has been constructed given the proximity to the Senga community. With the construction activities that are fast approaching there will be more employment opportunities and these will be distributed to the various Afungi communities.

7. Mr. Amisse Francisco, community member: What will be the treatment of the machambas that have not been registered because they were not ready?

In response the Proponent said that:

As for the machambas that were not registered, these may still be registered during the course of the process. The Proponent also emphasized that at the time of the compensation, a rechecking of the collected data will be carried out, and thus the communities may continue to develop their activities without any restriction.
8. Mr. Casimiro Quiasse, community member: Where will the Tanzanians and those from Nacala that reside in the coastal area be resettled to? If a hospital is going to be built in Quitunda (Quitupo) one should also be built in Senga.__________________________

In response the Proponent said that:____________________________

That concern will be resolved with help from the members of the community, the leadership and the community resettlement committees, who are the ones that know best the members of their communities. The Proponent reminded that it was the members of the community and the respective leaders that facilitated the process of the survey/identification of people and assets. The hospital that will be built in Quitunda will be big enough to serve all the Afungi communities, including Senga.____________

9. Mr. Mateus Puicha, community member: Will there not be enough space for the opening of machambas within the DUAT area? In the event that the Mondlane area is occupied, a consultation forum should be created for the definition of the price to be paid for the relinquishing of the area for opening machambas by the Quitupo community.__________________________

In response, the Proponent said that: ________________________________

The Quitupo community will be resettled within the DUAT, a desire that was expressed by the community itself at the start of the consultation process. The request that the resettlement village be within the DUAT was accommodated by the Project, but there is no possibility of opening machambas within the DUAT, due to the safety risks and the fact that the soils outside of the area of establishment of the plant, including the security zones around it, are not the most adequate for the practice of agriculture. Finally, it would not be legitimate to attribute spaces to the community in areas in which they would not be able to hold DUATs, being that in that case they would not have security of tenure of the respective land.__________________________________
At the end of the Questions and Answers Session the National Director addressed the participants and, by way of conclusion, thanked them for the contributions presented, mentioning that, in his view, opportunities had been created for the community to present its concerns in a mutual learning exercise which enables the community to influence the running of the events. Emphasized that infrastructures will be established for the benefit of all the Afungi communities as only in that manner will they be put to the appropriate use.

At the close of the meeting, the Administrator thanked all the participants for their presence and appealed for the Project to take into consideration the recommendations made, so that this process runs in conformity with the aspirations of all the stakeholders.

There being nothing further, the consultation meeting ended when it was 1:30 PM and the present Minutes of the Third Public Consultation Meeting in the Senga community were drawn up, which will be signed and witnessed by the representatives of the Government, of the Proponents and of the community.

19 Agosto 2015 – Reunião Pública: Maganja
Minutes of Public Consultation Meeting within the scope of the Preparation of the Resettlement Plan – Maganja Village

THIRD PUBLIC CONSULTATION

On the eighteenth day of August in the year two thousand and fifteen, in accordance with the provisions set forth in paragraph 3 of art. 23 of Decree 31/2012, dated 8th August, which approves the Regulations on the Resettlement Process Resulting from Economic Activities, the Third Consultation Meeting was held with the Community of Maganja Village, Locality of Mute, Administrative Post of Palma Sede, District of Palma, with the following agenda:

I. Status of the surveys (registration of individuals and asset survey)

II. Presentation of the entitlement framework (proposed compensation package).

The meeting was chaired by Mr. Pedro Romão Jemusse, Administrator of Palma District and was attended by the following individuals: ________________________________

On behalf of the Government of Palma District: Mr. Abdul Piconês Permanent Secretary; Mr. Amade Omar Mpoto – Head of Locality of Mute; Mr. Carlos Paulo – Representative of the District Services for Economic Activities (SDAE); Mrs. Verónica Pancrácio – Director of District Services for Planning and Infrastructure; and Mr. José Ernesto – Head of Operations of PRM.
On behalf of the Government of Cabo Delgado Province: Mr. Ramiro Juni Nguiraze – Provincial Director for Mineral Resources and Energy (DIPREME); Mr. Policardo Napica – Provincial Director for Coordination of Environmental Affairs; Mrs. Ivânia Florência – DIPREME; Mr. Victor Cássimo – DIPREME; Mr. Cássimo Nivale – Provincial Directorate for Gender, Children and Social Welfare; Mr. Manuel Daniel – National Institute for the Development of Small Scale Fisheries; Mr. Armando Antonio Buruhane – National Petroleum Institute.

On behalf of the Central Government: Mr. Arlindo Dgedge – National Director of Territorial Planning and Resettlement; Mrs. Eulália Macome – Ministry of Agriculture and Food Security; Mrs. Mara Bata, Mr. Lázaro Matlava, Mr. Inácio Novela – Ministry of Land, Environment and Rural Development; Mr. Silvano Langa – Ministry of State Administration and Public Service; Mr. Flávio Mulando – Ministry of State Administration and Public Service; Mrs. Abelina Chambule – National Petroleum Institute (INP); Mr. Nélcio Bambo – Ministry of Gender, Children and Social Welfare; Mr. Erudito Boavida Malate, Mr. Arménio Neves da Silva and Mr. Emídio Raúl André – Ministry of the Sea, Inland Waters and Fisheries.

On behalf of the Project developers, namely:

Anadarko Moçambique Área 1, Limitada (AMA1) represented by: Mr. Alcido Maússe, Director of Relations with the Government and Social Affairs, Mr. Alexandre Jossias – Environment, Health and Safety Manager, Mr. Sérgio Barros – Resettlement Process Manager; Mrs. Iva Garrido; Mrs. Maria João Hunguana, Mr. Cláudio Foquiço; Mr. Salvador Traquino and Mrs. Alice Madeira - Relations, Mr. Estevão Mabajaia and Consultants Mrs. Gaye Thompson, Mr. Pedro Wate and Mr. Inocêncio Maganha.

Eni East Africa SpA Moçambique, represented by: Mr. Herculano Vilanculos, Mrs. Carla Pene, Mr. Euríco de Azevedo, and Mr. Constantino Matuta.
Empresa Nacional de Hidrocarbonetos (ENH) represented by: Mr. Julião Nhaquila; Mrs. Neusa Fortes and Mrs. Esperança Macovela.

Maganja community was represented by Mr. Ali Salimo Amisse - Community Leader and by Mr. Mansur Saide - Chairman of the Community Resettlement Committee.

The meeting began at 9:20 AM, with the welcome greetings of the Administrator who then invited the District Government representatives, the Provincial Government representatives and the Central Government representatives to introduce themselves. The same procedure was requested to the representatives of companies Anadarko, Eni and ENH.

After the introductions, the Administrator stressed that the aim of that meeting was to present the results of the consultations on the compensation package, and emphasized that the Government is concerned with the improvement of living conditions of communities. Similarly, he reminded the participants that two rounds of public consultations have been held, and the communities requested the Government that a session be organized to discuss the compensation package. It also asked the participants to follow carefully the whole presentation and declared the Third Public Consultation Meeting open.

After his intervention, the District Administrator gave the floor to the National Director of Territorial Planning and Resettlement, to make a few brief points regarding the Resettlement Plan preparation process. The National Director also said that the Government considers Palma Gas Development Project as strategic for the country’s development, particularly for Palma District. He also mentioned that, recently, the Government and Anadarko signed a Memorandum of Understanding (MoU) that outlines the actions to respect the rights of communities that will be affected. Therefore, the role of the Government is to monitor the implementation of the process, to ensure that the rights of communities are safeguarded. He also mentioned the Government’s intention that the resettlement process be an example of...
good practices in country, region and worldwide, hoping that this round of public consultations is participatory, and that issues, ideas and contributions are expressed in order for the outlined goals to be achieved.

After the intervention, the meeting facilitator and Project Consultant, Mr. Inocêncio Maganha, asked Mr. Sérgio Barros, Resettlement Manager, to proceed with the presentation of the consultation topics.

Mr. Sergio Barros, said that the meeting served to present the results of consultations on the proposed package of compensation previously discussed with the committees of the communities. Then he invited Mr. Pedro Wate, Project Consultant, to provide a summary of the issues addressed in previous public consultation rounds.

Mr. Pedro Wate said at the first Public Consultation meeting the topics presented were related to the Resettlement Process, Project Impact Area and Resettlement Location. In the second round of Public Consultation, the topics presented were the following: Design of the Resettlement Place, Concept Housing, Village Designs and Integration of the Host Community. During his presentation, Mr. Pedro Wate said some issues lacked clarification by the Project. In view of that, a document was drawn up in October 2014, containing answers for unclear issues, which was widely publicized through verbal communication and display in public places, including in Nkutanos.

After the presentation by Mr. Pedro Wate, Mr. Sergio Barros said that the objective of that meeting was to discuss the compensation package and the programs envisaged for the benefit of the communities. He mentioned that the project recognizes that this process affects the lives of local communities.
He also said that the following topics would be presented in this round of Public Consultations: (i) survey and registration of persons and assets; (ii) compensation entitlement framework; (iii) entitlement framework; (iv) Compensation - alternatives; (v) approach on compensation in accordance with the consultations; (vi) replacement village design; (vii) restoration of livelihoods; (viii) medium and long term community benefits.

After the presentation, the meeting facilitator invited the participants to submit their questions, comments and / or suggestions for improvement of the proposed compensation.

The meeting participants expressed their views on the proposed compensation package, as follows:

1. Mr. Saíde Momade, community member: How will the compensation process be done for plants and land? This is because the machambas we use were inherited from our ancestors, so they are family owned, i.e., the compensation for the land itself, should be for family benefit, and the plants for the family member who planted them.

   Mr. Sergio Barros said that before the compensation, the company’s team will come to meet the owners of machambas to reconfirm the records with family members, information on their assets and, in this process, each owner of assets, whether plants or machambas, will sign an agreement in the presence of Government and Project representatives.

2. Mr. Mazara Abudo, community member: the compensation for assets referred to is the payment or the support that the Project may provide to owners of assets located within the DUAT area? The compensation amounts will be paid to the affected families via bank or in cash? I ask the asset survey team to inform me of the number of hectares of my plot of land.
Mr. Sergio Barros’ response was that the Project team is currently available to explain, based on the register of assets of each person. Therefore, anyone who does not know the number of hectares may consult the project team by presentation of the registration card. Payment via bank is advantageous because if it is a term deposit, it may produce interest.

3. Mr. Ibraimo Ali, community member: When was carried out the consultation to establish the compensation rates? If the committee members were informed, why didn't they report to community members? ______________________________________________________

Mr. Sergio Barros answered that the Project teams held consultations with members of the affected communities about the rates. The Project also carried out an evaluation of the compensation paid by other projects in respect to resettlement processes, and based itself on the legislation. Thus, the values proposed resulted from research. However, he stressed, the most important will be the restoration programs and improvement of livelihood and other programs to support communities. ______________________________________________________

4. Mr. Issa Abdremane Saide, community member: Why is it that Eni’s asset survey project did not come to Maganja, where there are affected families, and went to Pundanhar, where there are no families affected by the Project? Are the promises made by Anadarko to the community true? ______________________________________________________

In response, Mr. Sergio Barros said that those are not activities related to this Project, and we will forward the issue to eni representatives, for further clarification. As to the promises, Anadarko works on the basis of high world-class standard ethical values. Therefore, it will not make false promises to the members of the communities affected by the Project. _____
5. Mr. Aruna Kunabasse, community member: I would like the compensation to be paid as pension, thus, on a monthly basis, as it has happened with former combatants and vulnerable groups. 

Mr. Sergio Barros responded that, if the amount of compensation is high, one can deposit in the bank and use it rationally, that is, use little each time.

6. Mr. Juma Sumail, community member: my concern is whether in fact the company will pay all existing fishermen within the community? The question of consultation of rates will not lead us to consensus, because we are many and each will present his price, so it is best that the Project decides and proceeds with payments.

7. In response, Mr. Sergio Barros said that the proposed compensation package provides for the payment of compensation to fishermen who will be affected by the Project. He mentioned that the project was aware that there may be lack of convergence in this process, but even so, the consultation process with the affected persons is always important and, if there were no need, people would have already received their compensation.

8. Mrs. Fátima Mimbre, representative of the Centre for Public Integrity (CIP): What are the criteria used to define the compensation rates? If indeed there were meetings to announce the rates, it is recommended that evidence be presented, for example, minutes signed on the concerned matter. Was there a data validation process? If so, when was it carried out?

In response, Mr. Sergio Barros said that since the beginning of the Project, it was always stressed the need for consultation with the affected communities. With regard to the rates, it was reported that they were subjected to an analysis and evaluation by specialists, and comparison with other projects. Therefore they were considered as generous and acceptable.
9. Mr. Issufo Tankar, member of Centro Terra Viva (CTV): I would like to thank you for giving me this opportunity, to raise issues about this process. The first issue is the opportunity given, because yesterday, in Senga, after all spoke, it was asked that someone from the company answered some questions, and there was no other session where people could submit additional issues or requested again clarification for the issues raised. At least, here, it was different. I would like to ask the Government and the company to improve this, to allow people to talk, and we all will be satisfied. The second issue has to do with the police. I know and acknowledge that there are personalities who are entitled to protection, but I have participated in many consultations and some attended by ministers and others by Administrators from other districts, and I have never seen policemen. I do not mean that the policemen should not be in these meetings, but they should remain in places where they not disturb the meeting and be called only when needed. The third issue is related to the machambas. I heard, and I was pleased to know, that the people affected will be compensated not only in cash but also in the machambas, and I wonder if it has been determined and if the area where new machambas will be assigned is already known? What will be the size of the machambas? Those who have 1 hectare will receive 1 hectare, or will receive less or more hectares? The last issue has to do with the census that was conducted. In past meetings, people informed the census team, that the information contained in the cards they received is different from what is in their machambas, and we did some work a few months ago to assess whether this situation was true or not, and we concluded that it was. There were error situations that happened during the census. There are cases of people who had guava trees, and the card referred that those guava trees were not productive, but we went to see the guava trees, it had guavas. There were situations of people who, in their cards had 12 coconut trees, but who actually have 15. We sent the report of this work to the company and to the Government but, so far we had no response. I would like to understand what the company did and what it will do or intends to do in order
to correct these mistakes? And when will it be done? As it is essential that the compensation be effective. Thank you.

10. Mrs. Alda Salomão, member of Centro Terra Viva: I would also like to give my contribution to this discussion we are having here today, and bring some suggestions and contributions to this process. Many of us are aware that the process is complex and there are many difficulties, and we are all here to develop this further, and the concern of all is to ensure that the proceedings are conducted in the best possible way. I have some questions to ask that may help to dispel the doubts that still prevail within the people who will be affected by the Project. The first question is directed to the District Administration. We realize that, since the beginning of the Project’s activities, people are being moved from their housing areas, we know that there are people who are going to have to leave where they live to another area, and we know that there are people who will stop working in certain areas, there are a lot of movements and activities that will happen around this Project. We also know that this Project is very important, but certainly it is not the only Project that will be implemented in this region. We know that the hydrocarbons sector is an important sector for the District, but there are other important sectors too, the activities to be implemented in the District will have to continue. That said, the question is, what is the instrument that the District is using to ensure that all these different interests are included and appropriately treated, starting with the interests of people living in this area? The second question is, the District Administrator must make his decisions, in relation to the land occupation, based on the Land Use Plan. Once there, we have the Land Use Plan that allows us to guide this entire process, not only the resettlement process but the entire planning process of how things should happen in the territory? The law that requires that districts should have the Land Use Plan was approved in 2007 and therefore it seems to me that, in the Palma situation, we lack this essential tool to help guide the district government in making its decisions. Why I am highlighting this instrument, the Land Use Plan? Because the decisions that are being taken pursuant to the Project presence cannot be taken without taking into account the Land Use Plan that should exist in the District. The decision that, for example, Quitupo will be resettled in Senga, or the decision that the machambas of Quitupo will be carried out at Mondlane, or the decision that the company will use areas of Maganja may not be taken without considering the provisions of the Land Use Plan. We all remember that we were consulted, because in Mondlane area,
in Maganja area and in Senga area a city is being designed, do you remember that? The question is, how do we know that these decisions are being taken today will not have to be changed again? So my suggestion is the approval and adoption of the Land Use Plan for the Palma District, which is a priority, right now. The Resettlement Plan should only be approved after there is a Land Use Plan, which clearly shows how the Resettlement Plan was integrated in the Land Use Plan. Regarding the specific subject of this consultation, I would like to ask a question and make a suggestion to the National Director of Territorial Planning and Resettlement. I think that we can only finish the discussions about compensation if we have concrete information on what we have to compensate. I have two questions in that regard. The first is: for us to calculate the compensation of the communities in the DUAT Area, we need to know the dimensions of the Project infrastructure, and what is the percentage of the area that these communities will lose in favour of the Project? I do not know if Maganja knows the dimension of Maganja community area, and what percentage of this area Maganja will give to the Project. It is necessary to make the delimitation and determination of the areas and boundaries of the affected villages in Afungi, to better understand what percentage of the household and community area will be lost in favour of the Project, and what they will receive as replacement. I remember that, during the 2nd Public Consultation, a lady asked for technical assistance at the time that the community will receive compensation. I am not sure if this was done, I would like to say here that I think it is important to ensure that families have an opportunity to be assisted, not necessarily by CTV, but by other civil society organizations, provided that they are helped to understand the information, and during the negotiation of the agreements, which we heard that will be established. In conclusion, I ask the company to show interest in this, as well as all of us. Our appeal is that it prioritizes the Land Use Plan, the delimitation of community land, the verification and validation of data that has been collected, to enable clarity on what measures should be taken.

In response, Mr. Sergio Barros said that during this session it was explained that the Government is working with the company to identify replacement areas for agriculture, and the communities will be consulted. Most people cultivate less than one hectare, however, the company proposes to grant 1.5 hectares that the households may use for farming and fallow, as it is typical in the zone. Regarding the asset registration, it is possible that people
have problems in the report (summary) of assets. In this case, the reports will be verified, in order for each family to confirm the assets they own. The household assets will be updated. Tomorrow, they may forward to the committee, the issues related to the sizes of the areas. In respect to the delimitations, Fórum Terra will return to perform the community delimitation.

At the end of the Questions and Answers session, the National Director said the closing remarks and thanked the contributions submitted. He said that this type of interaction is a mutual learning exercise. In relation to the type of compensation payments, he suggested that it should be carried out via bank because it was safer. Regarding the Land Use Plan, he highlighted the relevance of preparing this document, both at the level of districts and municipalities. Regarding the Palma District, he said the Land Use Plan is being prepared. Simultaneously, the Urbanization General Plan of 18000 hectares of Palma is being prepared. He finalised by stating that the challenge is to look at the plans in an integrated manner, which is the Government's concern, that will take place in the near future. Therefore, the Resettlement Plan can proceed without approval of the Land Use Plan. The Territory Planning Act provides that where there are no higher-ranking plans, the plans can be implemented in parallel, as long as environmental concerns are safeguarded. Therefore, they are not mutually exclusive, but there is need for harmonization.

Ending the meeting, the Administrator thanked the presence and participation of all, and said that, as District Government, we assume and we comply with the recommendations that were presented, and we are open to receive contributions from all those who wish to work seriously for the development of this Project.

There being no further business to discuss, the consultation ended at 1:40 PM, and the Minutes of the Third Public Consultation on the reporting of the activities undertaken to date, and presentation and consultation on the compensation package for resettlement within the scope of
the Liquefied Natural Gas Development Project in the Rovuma Basin, Mozambique, held in the Maganja village was drafted and will be signed and witnessed by representatives of the Government, the proponents and the community representatives.

20 Agosto 2015 – Reunião Pública: Quitupo
Minutes of Public Consultation Meeting within the scope of the Preparation of the Resettlement Plan – Quitupo Village

THIRD PUBLIC CONSULTATION

On the twentieth day of August in the year two thousand and fifteen, in accordance with the provisions set forth in paragraph 3 of art. 23 of Decree 31/2012, dated 8th August, which approves the Regulations on the Resettlement Process Resulting from Economic Activities, the Third Consultation Meeting was held with the Community of Quitupo village, Locality of Mute, Administrative Post of Palma Sede, District of Palma, with the following agenda:

I. Status of the surveys (registration of people and asset survey)
II. Presentation of the entitlement framework (proposed compensation package)

The meeting was chaired by Mr. Pedro Romão Jemusse, Administrator of Palma District and was attended by the following individuals: ________________________________

On behalf of the Government of Palma District: Mr. Abdul Piconês - Permanent Secretary; Mr. Amade Omar Mpoto – Head of Mute Locality; Mr. Carlos Paulo – Representative of the District Services for Economic Activities (SDAE); Mrs. Verónica Pancrácio – Director of District Service for Planning and Infrastructure; Mr. Saíde Assane - Director of Civil Registry and Notary Services and Mr. José Ernesto – Head of Operations of PRM; and Mr. Alfane Cesar – Police Commander (PRM). ________________________________

On behalf of the Government of Cabo Delgado Province: Mr. Ramiro Juni Nguiraze – Provincial Director of Mineral Resources and Energy (DIPREME); Mr. Policarpo Napica – Provincial Director for Coordination of Environmental Affairs; Mrs. Ivânia Florêncio – DIPREME; Mr. Tiago
Mirione – Provincial Directorate of Agriculture; Mr. Hélio Brondalo – Provincial Directorate of Agriculture; Mr. Victor Cássimo – DIPREME; Mr. Cássimo Nivale – Provincial Directorate of Women and Social Welfare; Mr. André Bonifácio Cheyo – Maritime Administration; Mr. Manuel Daniel – National Institute for the Development of Small Scale Fisheries.

On behalf of the Central Government: Mr. Arlindo Dgedge – National Director of Territorial Planning and Resettlement; Mr. Zefanias Chitsungo – National Director of Housing and Urban Planning; Mrs. Eulália Macome – Ministry of Agriculture and Food Security; Mrs. Mara Bata, Mr. Lázaro Matlava, Mr. Inácio Novela – Ministry of Land, Environment and Rural Development; Mr. Silvano Langa – Ministry of State Administration and Public Service; Mr. Flávio Mulando – Ministry of State Administration and Public Service; Mrs. Abelina Chambule – National Petroleum Institute; Mr. Nélcio Bambo – Ministry of Gender, Children and Social Welfare; Mr. Emídio Raúl André, Mr. Erudito Boavida Malate and Mr. Arménio Neves da Silva – Ministry of the Sea, Inland Waters and Fisheries.

On behalf of the Project developers, namely:

Anadarko Moçambique Área 1, Limitada (AMA1) represented by: Mr. Alcido Maússe, Director of Relations with the Government and Social Affairs, Mr. Alexandre Jossias – Environment, Health and Safety Manager, Mr. Sérgio Barros – Resettlement Process Manager; Mrs. Iva Garrido; Mrs. Maria João Hunguana, Mr. Cláudio Foquiço; Mr. Salvador Traquino and Mrs. Alice Madeira, Mr. Estevão Mabjaia and Consultants Mrs. Gaye Thompson, Mr. Pedro Wate and Mr. Inocêncio Maganha.

Eni East Africa SpA Moçambique, represented by: Mr. Herculano Vilanculo, Mrs. Carla Pene, Mr. Eurico de Azevedo, and Mr. Constantino Matuta.

Empresa Nacional de Hidrocarbonetos (ENH) represented by: Mr. Julião Nhaquila; Mrs. Neusa Fortes and Mrs. Esperança Macovela.

The meeting was also attended by approximately five hundred and forty members of Quitupu community, including Mr. Luís Abdala - Community Leader and Andurabe Issa – Chairperson of the Community Resettlement Committee, as well as members of several civil society organizations.

The meeting began at 9:30 AM, with the welcome greetings of the Administrator who then invited the Government representatives (at the District, Provincial and Central level), ENH,
project developers (Anadarko and Eni), as well as the civil society organizations to introduce themselves.

After the introductions, the Administrator, in his opening speech, emphasized the meeting's objectives and explained to the participants that the Government is concerned with improving the quality of life of the communities and ensuring that the resettlement process is carried out in the best way possible. Similarly, he asked participants to carefully pay attention to the presentation that would ensue, and declared the Third Public Consultation Meeting open.

After his intervention, the District Administrator gave the floor to the National Director of Territorial Planning and Resettlement, Mr. Arlindo Dgedge, to make a few brief points. The National Director said the government attaches to this Project paramount and strategic importance for the development of the country, Cabo Delgado Province, Palma District and particularly Quitupo community. He also said that recently a Memorandum of Understanding was signed between the Government (represented by the Minister of Land, Environment and Rural Development) and Anadarko, which establishes the commitment of the parties in enforcing the rights of communities affected by the Project. Thus, both entities are committed with the successful completion of this Project, with safety. This Memorandum has a special meaning for Quitupo community, and it aims to ensure that the resettlement process is implemented in the best possible way, and to stand as a reference. This process does not just mean the transfer of persons but includes the implementation of programs for restoration and improvement of the quality of life of affected communities in the new resettlement place. The communities will be trained to carry out development projects that will benefit the communities themselves. He said that that meeting would deal with the compensation package, urging everyone to pay attention to the information that would be transmitted.

After the intervention, the meeting facilitator and Project Consultant, Mr. Inocêncio Maganha, asked Mr. Sérgio Barros, Resettlement Manager, to proceed with the presentation of the consultation topics.

Mr. Sergio Barros asked Mr. Pedro Wate, Project Consultant, to provide an overview of the issues addressed in previous public consultation rounds, prior to starting the presentation of the current meeting items. Mr. Pedro Wate reminded the participants that, in the first Public Consultation meeting, the topics presented were related to the Resettlement Process, Project Impact Area and Resettlement Location. In the second round of public consultations, the topics presented were: Definition of Resettlement Site, the House Model, the Village Layout and the Integration of Host Communities.
Mr. Pedro Wate also said that there were issues that were not immediately clarified by the Project. However, during the process, these issues were clarified. Following this, in October 2014, a document was prepared which contains the clarifications requested in the public consultation. This document was placed in the Nkutano (meeting place) and elsewhere, in highly visible places within the community. Project teams have released the answers and placed them in the communities covered by the process.

The Proponent continued with the presentation of the themes that constituted the meeting’s agenda, and the following aspects were discussed in detail: survey and registration of persons and assets; compensation package, including eligibility criteria and calculation basis of the proposed values; replacement village; restoration of livelihoods; and medium and long term community benefits.

After the presentation, the future replacement village’s three-dimensional model video was shown and, at the end, the meeting facilitator, Mr. Inocêncio Maganha, invited the participants to submit their contributions, as questions, comments and suggestions, to improve the proposal of the Resettlement Plan.

The meeting participants expressed their views on the consultation issue as follows:

1. Mrs. Ernestina Nkeka, community member: 
   Assisted by a lady from Vila de Palma, I found irregularities in the registration of my plants, some fruit trees have been reported to be non-productive.

   Mr. Sérgio Barros responded as follows:
   
   On the issue of Mrs. Ernestina which has previously been brought to the Project attention, it was asked to her to contact the Project team and the Community Resettlement Committee at the end of the meeting, to schedule another visit to recheck her property. He then reassured that, all members of the community in a similar situation, the recorded data would be checked, before signing the compensation agreements.

2. Mr. Adinane Buruhane, community member:
   
   We request that the Government members clarify the mistakes that were made at the time the DUAT was awarded to the company. We want areas suitable to the cultivation of coconut trees and, preferably, in the coastal zone and not inland. Regarding the graves, our religion does not allow their transfer or sale. When will the delimitation of the
communities affected by the Project take place? We also want to know what will be the size of the plant to be built by the company. Why was there no negotiation of the prices established after the first proposals?

Mr. Sérgio Barros’ response was that:

On the question on the size of the plant, the executive project is being prepared and it will be made available once completed. He also said that not all the Project area is suitable for construction due to the need to comply with environmental and safety requirements for the residents. The Resettlement Plan takes into account the whole potential impact area, to avoid there being any need to resettle again the affected communities, in the future. On issue of the graves, he thanked observation and stressed that it is not the Project’s intention to relocate graves if it is not strictly necessary to enable the construction activities. The Project will not make any decision on the graves without first consulting the family. On the best places to plant coconut trees, either inland or on the coast, if needed, the Project is available to place expert consultants in agriculture to work in this issue, in order to assess the potential sites identified and to determine their capacity for the cultivation of coconut trees. However, households are free to continue to develop this activity in other locations of their choice. As regards to compensation, he reiterated that in recent months, the Project was in constant interaction with the communities about the compensation package, culminating in a detailed presentation of the calculation basis and the criteria that guided the design of the revised package in the meetings held on the 6th, 7th and 11th August 2015. This package includes various items, from the monetary compensation, infrastructures, restoration programs and improvement of livelihoods and other benefits available, including the community fund, which was shared with the Government at various levels. He stressed that the figures that had just been presented were not yet definitive, and required approval within the scope of the Resettlement Plan.

3. Mrs. Sijiwe Sumail community member:

Why isn’t the company compensating the owners of the areas where it is developing its activities?

Mr. Sérgio Barros responded as follows:

If there are cases where households have not been compensated for the temporary occupation of their properties, within the scope of the development of the Project activities, they should report such cases to the Project teams for proper referral. He clarified that, although, as a rule, the Project also compensates and has been compensating for the households’ temporary loss of access to assets, the permanent loss will be compensated under the Resettlement Plan.
4. Mr. Assane Sangagi, community member: ________________________________
The people of Quitupo want to be resettled in Quitunda, rather than Namba, because most people here live on cassava production, and not coconut trees. We want the company to develop its programs that will ensure benefits to the communities. People want areas for the development of agricultural activities. Why is the company firing people without justification? Community members want to know how many hectares they have based on the asset survey and registration that took place. The people of Quitupo is not concerned with the DUAT problems, but with the benefits that will accrue to the community with the implementation of the Project. I recognize that the community has a low level of education, which has not allowed community members to benefit more from employment opportunities, but I request the Project to take this into account. There are members of the Community Committee who are against the interests of the community. Why does it not bother to solve the other problems the community is facing? We do not want CTV (Centro Terra Viva). ________________________________

Mr. Sergio Barros responded as follows: ________________________________
On employment issues, he noted that the team present was responsible for the resettlement process, so it would not be able to answer questions on other matters. However, he undertook to refer the matter to the relevant department of the company. On the low level of education which, in the opinion of the community member, impedes access to employment, he said that the gas plant to be built falls under the first phase of the Project, but there will be a second and possibly a third. Therefore, it is appropriate and important that we start sending our children to school so that they get the training and may be the future engineers who will build and operate the factory in the later stages. On the lack of knowledge of the assets they owned, according to a registration carried out, he clarified that, after the asset survey a document was produced, whose contents were explained, and a copy was signed by all the stakeholders and given to each affected household. However, he said, there is still room for any clarification, and, for this purpose, the interested parties should contact the Community Resettlement Committee (CRC) so that the Project team goes to their houses. ________________________________

5. Mr. Sumail Momade, community member: ________________________________
We want to know where will be the place that we will use to work in our machambas, after being resettled. Why don’t the Government and the Company begin with the construction? ________________________________

In response, Mr. Sérgio Barros stated that: ________________________________
The district Government, with the support of the Project, is identifying the most suitable area to replace the farming areas. As regards to the delay in starting the construction, he said that this is a complex process that requires caution, and it is necessary to file all
edges in order to proceed safely and with the certainty that all the social and environmental aspects related to the Project have been taken care of.

6. Mr. Aburemane Abdala, community member: 
   I am from here, in Quitupo; I was born and raised here and now live in Milamba zone. The company has given the opportunity to the whole community, but nowadays there is no understanding between Milamba and Quitupo. I ask that the Government, together with the Project, analyse this situation, because we do not understand the reason for this conflict. There are people who recently came to Quitupo in order to be eligible for resettlement, and they are only concerned with obtaining new houses, but there are people who have been here for a long time who are not only concerned about the houses but also with our livelihoods, and there is no understanding between these two interest groups. I have inherited assets from my parents and I want my children also to inherit the same assets (machambas and trees) in the future. I would like to request the Government that, before we go to Quitunda, to enable us to have an area to continue to work in our machambas of cassava and, on the replacement of coconut trees, that the Government give us land in Ngoji for the purpose.

7. Mr. Dade Sumail, community member: 
   I would say that the Milamba community does not want to be resettled in Quitunda. Take only Quitupo community there, and find another place for us, from Milamba. And I ask the District Administrator for this to be the last meeting, and that, next month, the planned construction works should start, if we just stay here saying what is going to be done next, we will end up starving to death, while others will be having better living conditions than us.

8. Mr. Bacar Jamal, community member: 
   I am standing here because I am worried with something. The first situation is that we were asked if we could be resettled in Namba and we rejected it. I realised that I depend on my machambas of cassava and there I would not have the opportunity to cultivate. I also noticed that this concern was not only mine but also of others, who preferred Quitunda. I am aware that the compensation amount that I will receive is not for the sale of my land of machambas, but the occupation of space by the Project. What is important to me is the guarantee of having another land in place to continue to work on my machambas. The money that I will get may not last long, I may use it in a short time. Therefore, if I have 6 hectares of machambas, and conditions should be created for us to be assigned another land to continue farming. I would like to ask the Project to do us a great favour: after we are relocated to Quitunda, the Project should create a monthly pension for us to restart our lives. We think that CTV is here to thwart us and to delay the whole process with the help of the committee. When CTV has some issue, they deal
only with the committee and do not come to the community. We consider that this situation creates misunderstanding between the community and the representatives of the committee. When you schedule a meeting like this, there are situations that disrupt some things. It is not our intention, but that of others. We would like things to be successfully carried out and that the defined benefits to be real.

Mr. Sérgio Barros responded as follows: The company, before establishing this compensation package, carried out several researches, using the Government Table (Table for Compensation Applied in Cabo Delgado Province) as a starting point. It was found that the more used crop in these communities is cassava. Therefore it was decided to increase the value of other cultures using as reference the value assigned to the cassava crop.

9. Mr. Sumail Ali Tuaibo, community member: At this meeting, we are talking about the Project and not party issues, so let’s leave aside the issues related to the party and let us just discuss Project related matters. We, from Quitupo, are here collaborating with the Project from the beginning until today, but some groups appeared, such as CTV, who cause contradictions in the communities. Here in Quitupo, we lack schools and hospitals. CTV has been around for a long time and there are also several organizations that provide support, why they never bothered to ask support for us in this area? If today we have a school is due to the Government effort. After realizing that there is a Project that is developing activities in our communities CTV came to confuse things. If the Government and the Project decide to do a construction, let it be done before organizations such as CTV come to counteract things, because then we get confused. We want to see planned things to go forth. The works should proceed. Another issue I have to present is regarding the census: there are approximately 10 members of this community who have not registered their assets. I request that their situation be dealt with.

10. Sr Assane Selemane Mpai, community member: My brothers from Quitupo, we have here the presence of many guests from various parts of the country, however, since the beginning of the meeting, nothing was said that our guests can take with them. What the Government and the Project should do right now is to sit and plan when the payments of compensation will be done and start the construction. They should then return to tell us the dates scheduled for that purpose, because people are tired of waiting. In order to end this problem that exists, the things that I am presenting should be looked into. For example, if a man is going to get engaged to a girl, and they remain engaged for more than 2 or 3 years, does that woman trust that the man wants to really marry her?
Mr. Sergio Barros commented that: 

This process seems to be very slow due to having several steps that must be followed. It is important that the whole community is involved in every activity that the Project will undertake, and the affected parties have the right to information and to be consulted. It is also important the access to information, hence the reason for the public consultations conducted by the Project.

11. Mrs. Fátima Mimbire, member of the Public Integrity Centre (CIP): 

We are interested in this process because it is one of the main projects that can change the dynamics of this country. My question is regarding the table of compensation values for fruit trees: on the table there is an annotation that has two points, saying “does not include the cost of replacement, in the case of tree crops” and “does not include costs of acquisition of fruits”. I would like to understand if this means that, with the value that will be assigned to the community, the community will have to buy replacement seedlings or if the replacement seedlings will also be part of the payment. I would like to appeal to the Government representatives to pay attention to the details of the promises that are being made, because we have examples of resettlements which then caused some confusion. Finally, I want to request the companies that, when the resettlement plan finishes, the consultation or presentation of the document be also done in Maputo, because there are a lot of interested people who cannot come to Cabo Delgado, so that we can comment on the document.

In response, Mr. Sergio Barros stated that: 

The compensation amount for the loss of the trees, as presented by the Project, does not include the value of the seedlings, which will be acquired by the Project and distributed to the affected households. On the publication of the Resettlement Plan, this document will be distributed through various media, including internet, newspapers, radio, and it will be available for consultation at the relevant institutions.

12. Mr. Issufo Tankar, member of CTV: 

I know that we are tired, so I'll be brief and direct. I heard the first lady who questioned about the census, and in all meetings she repeats that question. I wanted to take this opportunity to ask the company here and now, what is the difficulty that the company faces, to go to people who have complaints about the census, in order to fix the situation? There may have been errors in data entry or assets calculation, I do not see the reason for the problems to persist. The film passed here explained that plots of 800 m² would be built for each of the inhabitants, in the new resettlement area, but Article 18 of the Resettlement Regulation provides as follows: paragraph b) of nr. 1 establishes the
following: “in urban areas, the plot must not have an area of less than 800 m²" and paragraph c) that, in my point of view, is appropriate, establishes the following: “in rural areas the plot should not have an area smaller than 5000 m²”. During the 2nd round of public meetings, I asked a question that was not answered until today, so I would like to insist: what is the actual size of the plant? How many hectares will the plant occupy? _____

13. Mr. Sergio Barros, representing the Project, said: ________________________________

On the reconfirmation of census cases, the Project was going to solve the pending cases in this area. Regarding the area to be occupied by the plant, he reiterated that the executive Project is being prepared and will be available once completed. He also said that not all the Project area is suitable for construction due to the environmental and safety requirements to be complied with for the residents. The Resettlement Plan takes into account the whole potential impact area, in order to avoid the need to resettle again the affected communities, in the future.

After Mr. Sérgio Barros’ intervention, the Administrator of Palma District invited the National Director of Territorial Planning and Resettlement to say a few words, who reiterated that, this development is a concern for everyone, and we want to see this area developed with schools, hospitals, factories that, to some extent, will provide jobs and help improve the people’s living conditions. He said that the Government’s mission is to do all the monitoring of the process, all stages through to the end, to ensure that the local community’s interests are properly secured. He also called for further dialogue, which he considers to be fundamental. He finalised by referring to a specific question raised in relation to the 800 m² versus 5000 m² for the housing plot, which results from the provisions set forth in Article 18 of the Regulations on the Resettlement, an issue that he considers to be academic and technical and that lacks debate. He invited the colleagues who raised the issue to further the discussion, but taking into account that the Government intends to urbanize the region. He reported that the development of an urbanization plan is still ongoing, and such plan will guide the development process of the urban area. Therefore, the aim is to plan a future city, and if the Government allocated 5000m² plots, it would be doing quite the opposite exercise. He mentioned that the areas for the development of agriculture will be identified and people will have their respective DUATs, in an area separated from the residential area. Thus, the dimension of the plot helps to make profitable the set of infrastructures that will be implemented in this future residential area. He ended by appealing to the sense of unity and concord as regards to the development’s objectives. ______________

Upon this intervention of the National Director, the Administrator thanked the presence of all and declared the meeting closed. ____________________________

There being no further business to discuss, the consultation ended at 3:40 PM and the Minutes of the Third Public Consultation held in Quitupo village were drafted, and will be signed and witnessed by representatives of the Government, the project developers and the community. __

Minutes of Public Consultation Meeting within the scope of the Preparation of the Resettlement Plan - Vila de Palma

THIRD PUBLIC CONSULTATION

On the twenty-second day of August in the year two thousand and fifteen, in accordance with the provisions set forth in paragraph 3 of art. 23 of Decree 31/2012, dated 8th August, which approves the Regulations on the Resettlement Process Resulting from Economic Activities, the Third Consultation Meeting was held with the Community of Vila de Palma Sede, Locality of Palma, Administrative Post of Palma, District of Palma, with the following agenda:

I. Status of the surveys (registration of people and asset survey)

II. Presentation of the entitlement framework (proposed compensation package)

The meeting was chaired by Mr. Pedro Romão Jemusse, Administrator of Palma District and was attended by the following individuals: _____________________________________________

On behalf of the Government of Palma District: Mr. Abdul Piconês - Permanent Secretary; Mr. Carlos Paulo – Representative of the District Services for Economic Activities (SDAE); Mrs. Verónica Pancrácio – Director of District Services for Planning and Infrastructure; and Mr. Alfane César – Police Commander (PRM). _____________________________________________
On behalf of the Government of Cabo Delgado Province: Mr. Policarpo Napica – Provincial Director for Coordination of Environmental Affairs; Mrs. Ivânia Florência – DIPREME; Mr. Tiago Mirione – Provincial Directorate of Agriculture; Mr. Hélio Brondalo – Provincial Directorate of Agriculture; Mr. Victor Cássimo – DIPREME; Mr. Cássimo Nivale – Provincial Directorate of Women and Social Welfare; Mr. André Bonifácio Cheyo – Maritime Administration; Mr. Manuel Daniel – National Institute for the Development of Small Scale Fisheries.

On behalf of the Central Government: Mr. Arlindo Dgedge – National Director of Territorial Planning and Resettlement; Mr. Zefanias Chitsungo – National Director of Housing and Urban Planning; Mrs. Eulália Macome – Ministry of Agriculture and Food Security; Mrs. Mara Bata, Mr. Lázaro Matlava, Mr. Inácio Novela – Ministry of Land, Environment and Rural Development; Mr. Silvano Langa – Ministry of State Administration and Public Service; Mr. Flávio Mulando – Ministry of State Administration and Public Service; Mrs. Abelina Chambule – National Petroleum Institute; Mr. Nélcio Bambo – Ministry of Gender, Children and Social Welfare; Mr. Emídio Raúl André, Mr. Erudito Boavida Malate and Mr. Arménio Neves da Silva – Ministry of the Sea, Inland Waters and Fisheries.

On behalf of the Project developers, namely: 

Anadarko Moçambique Área 1, Limitada (AMA1) represented by: Mr. Alcindo Maússe, Director of Relations with the Government and Social Affairs, Mr. Alexandre Jossias – Environment, Health and Safety Manager, Mr. Sérgio Barros – Resettlement Process Manager; Mrs. Iva Garrido, Mrs. Maria João Hunguana, Mr. Cláudio Foquiço; Mr. Salvador Traquino and Mrs. Alice Madeira, Mr. Estevão Mabjaia and Consultants Mrs. Gaye Thompson, Mr. Pedro Wate and Mr. Inocêncio Maganha.

Eni East Africa SpA Moçambique, represented by: Mr. Herculano Vilanculos, Mrs. Carla Pene, Mr. Euríco de Azevedo, and Mr. Constantino Matuta.
Empresa Nacional de Hidrocarbonetos (ENH) represented by: Mr. Julião Nhaquila and Mrs. Esperança Macovela.

The meeting was also attended by approximately six hundred and thirty members of Vila de Palma, including Mr. Issa Abdala Sumail - Community Leader and Pedro Nchamo – Chairman of the Community Resettlement Committee, as well as members of several civil society organizations.

The meeting began at 9:40 AM, with the welcome greetings of the Administrator who then invited the Government representatives (at the District, Provincial and Central level), ENH, Anadarko, as well as the civil society organizations to introduce themselves.

After the introductions, the Administrator, in his opening speech, emphasized the meeting's objectives and explained to the participants that the Government is concerned with improving the quality of life of the communities and ensuring that the resettlement process is carried out in the best way possible. Similarly, he asked participants to carefully pay attention to the presentation that would ensue, and declared the Third Public Consultation Meeting open.

After his intervention, the District Administrator gave the floor to the National Director of Territorial Planning and Resettlement, Mr. Arlindo Dgedge, to make a few brief points. The National Director said they had been mandated by the Government, at the Central level, to join the communities, the District Government and all active sections of Palma District society, so that, together, they could think how to carry out the resettlement process. He also said that each of the people involved has an expertise, a different knowledge from the others, and that was important, because where many people think, it is easier to achieve a good solution, which demonstrates the importance given by the Government, as noted by the Administrator, to the development of the Project, to the community of Palma District, to the Cabo Delgado Province and to the country, in general. He also said that the Project is also important, not only to our country, as well as to other countries in the world, and that is why they were concerned to see the Project to take the necessary steps. He stressed that the major concern of the Government
in the process is that it is carried out always with a view to safeguard the interests of the communities living in the area where the Project will be developed. The National Director said that, for the Government, it is of paramount importance that the rights, interests and wishes of those people living in Palma and Afungi are safeguarded, and that was why the Government had approved a law that shows the steps to be taken until the resettlement of people, to allow the construction of the factories. The Director also mentioned that it is essential the unity within the communities, and that the communities should come together around the main objective, which is the development of the district. He pointed out that for that, it is necessary that communities are well organized and clear in defending the objective, which is the consensus. In conclusion, the National Director called for the communities to be more united in defending their interests within the Project development, as only united as a community and together with the Government they could achieve the desired objectives.

After the intervention, the meeting facilitator and Project Consultant, Mr. Inocêncio Maganha, asked Mr. Sérgio Barros, Resettlement Manager, to proceed with the presentation of the consultation topics.

Mr. Sergio Barros asked Mr. Pedro Wate, Project Consultant, to provide a summary of the issues addressed in previous public consultation rounds, prior to starting the presentation of the current meeting items. Mr. Pedro Wate reminded the participants that the topics presented in the first Public Consultation meeting were related to the Resettlement Process, Project Impact Area and Local Resettlement. In the second round of public consultations, the topics presented were: Definition of Resettlement Site, the House Type, the Village Layout and the Integration of Host Communities.

Mr. Pedro Wate also said that there were issues that were not immediately clarified by the Project. However, during the process, these issues were clarified. Following this, in October 2014, a document was prepared which contains the clarifications requested in the public consultation. This document was placed in the Nkutano (meeting place) and in other visible
places within the community. Project teams have released the answers and posted them in the communities covered by the process.

The Proponent continued with the presentation of the themes that constituted the meeting's agenda, and the following aspects were discussed in detail: survey and registration of people and assets; compensation package, including eligibility criteria and calculation basis of the proposed values; replacement village; restoration of livelihoods; and medium and long term community benefits.

The meeting participants expressed their views on the consultation issue as follows:

1. Mr. Ássimo Biche, community member:
   I did not have the opportunity to register my machambas during the period in which the census was conducted, would there still be a chance of registering machambas or not? ___

   Mr. Sérgio Barros responded as follows:
   The answer is yes, you can still make the registration of your assets. For the purpose, you just have to approach the resettlement committee, who will carry your concern to the Project. However, he explained, often those who registered their assets did not have machambas (cultivated areas) at the time, and now they have them and want to register them. You should not worry. You may continue to work on your new machambas, and there is no need to request the Project teams to update the data, as these assets will be verified prior to the compensation payments.

2. Mrs. Sidjiwe Momade, community member:
   I gave the members of the Committee, the summary of the asset survey. Will it be returned to me or not?
Commenting on that, Mr. Pedro Nchamo, Chairperson of Palma Committee presented his position, stating that: __________________________________________________________

Regarding the lady who complained about the census card, the committee received the card and referred this case to the census team, who said that we should wait until the time of updating the *machambas*, to handle this case together with other similar cases. The committee is also still waiting, to facilitate the process. He said that he noticed that many people had complained for not having registered their *machambas* and yet, they never approached the committee to express their concerns. The Committee is waiting for them to register them, and to refer such cases to the Project, for solution. He also mentioned that there are contradictions within the community, regarding the compensation process, as the community does not believe, and feels unsure that the company will compensate those affected, and what the community wanted was that this process was quick for the community to be happy. __________________________________________________________

3. Mr. Momede Alifa, community member: __________________________________________________________

Will the compensation values be truly available to people who have registered their assets? Because whoever is heading this process is people from Maputo, and these people despise us, which proves that they will not allow people to pay the compensation entitlement. Another issue is that, within the community, there are people who have completed high school, why is it that when there are vacancies, the company hires people from Maputo leaving out those from the community? What kind of training does Maputo people have that is different from these people in the community, with the high school level? Another issue is related to the BACTEC company. We learnt to weed since our childhood, but in that company, we are controlled by children from Maputo. In addition, these people are disrespectful. I worked with 14 white people, in different locations in Quitupo area, during the research process, and today the company no longer calls me, and it is making promises of development. Will this really happen? __________________________________________________________
In response, Mr. Sérgio Barros stated that: ________________________________

Whether or not it will pay compensation values as they were explained, those values will be in a document that will be delivered to the Government for approval, and that the Project will have to comply with. Therefore, the Project will always pay. He also said that regardless of who was managing the activities – whether from Cabo Delgado, Niassa or Sofala - the Project will have to pay, and the approved documents (Resettlement Plan) will guide the process. ________________________________

4. Mr. Saíde Mvita, community member: ________________________________

Why is it that, when we submit our applications to work in the company, they prevent us because we are from Palma? After all, Quitupo, Senga, Maganja and Patacua are not from Palma? This instruction comes from the company staff or the community leaders of Afungi area? We were told to take care of documentation, and the amount charged was 300 Meticais, and they told us to wait 90 days. How will a person, who has 500MT, and a family to feed manage? ________________________________

In response, Mr. Sérgio Barros stated that: ________________________________

The identification documents (Bls) were highlighted because the Project will support the campaign, which will not be a regular process, but a faster one, and that more people should go and register themselves. He also said that, during the upcoming campaign, the cost to issue the BIs will be lower than the usual. Regarding the issue related to employment, he contradicted the previous speaker who said that those who come from other regions are privileged at the expense of local residents. He suggested that the district residents should be more patient because more job opportunities will arise with the various planned activities, including construction. ________________________________

5. Mr. Mohamed Abdala, community member: ________________________________
Why am I being prevented from fishing in my usual spot before being paid the compensation amount? I took care of my documents three years ago, but so far still did not get the documents, and now we are being required to take care of the documents. Will be possible to get the document indeed? __________________________________________________________________________

In response, Mr. Sérgio Barros stated that: __________________________________________________________________________

At that time there was no area in which the Project had forbidden fishing, and facing this situation, he requested the fisherman to approach the team for clarification. As regards to the BIs, he reemphasized that the campaign will be supported by the Project, the teams will meet the communities, the costs and time for issuance would be reduced in relation to the regular process. __________________________________________________________________________

6. Mr. Sumail Nfaume, community member: __________________________________________________________________________

There is a concern that made me stand up and come to the front: on the day I entered the car of the census team to go to Quitupo, specifically in Nacabande, to map my machamba, which I inherited from my parents, as we got there, we did an asset survey and at the end the team told me that machamba had already been registered by someone else. How will I find out who is such a person who registered my area without my knowledge? __________

Mr. Sérgio Barros answered as follows: __________________________________________________________________________

If the machamba was not registered at the time, the farmer should approach the teams to do so. However, he should not worry because the Project will not award compensation for areas claimed by more than one household without first calling all of them and clarifying the situation, and finding out who is indeed the one true owner. __________________________________________________________________________

7. Mr. Assumane Chale, community member: __________________________________________________________________________

I stood up to find out when will we actually get the compensation amount, since all of us did the survey of our machambas? All of you, our representatives, know we have done the survey and we have the respective summaries of the registration of assets, yet, you are still
delaying the payment. When will we get the compensation? If it was just to talk, there was no need for us to gather here in droves. If so many of us showed up to this big meeting, it was because we thought that we were going to be paid our compensation. Or, you do not yet know the number of people who went through the census? If you already know the number of people affected and who have done the census, why this delay in the process? I am one of the people working in one of the Project’s companies, and today when I heard about this meeting, I preferred to skip work to come and attend this meeting, when I saw a large number of white people passing by. I said “today is the day we will get our compensation money”. Those people who rushed to do their asset survey should be paid their due compensation, and those that have not yet done so, leave them aside, they know why they still did not do it, to this day. We made ourselves quickly available to participate in census process, to ensure the payment of compensation. So, those who have not yet done it, they have their reasons. 

Mr. Sérgio Barros response was the following: 

All stakeholders concerned, including the Project, the Government, are eager to see the process to move forward, yet each and every community has the right to express their agreement or disagreement, for clarifications and advancing. 

8. Mr. Ali Selemane, community member: 

There is an issue that I would like to present here and, if I am making a mistake, I ask you to forgive me. There is something wrong taking place, and it is related to Anadarko Company. There are people in all districts who support the company’s activities but the company does not give them any assistance or payment. In fact, these people have the same right to be paid as others in the Project teams who come to work with the communities. Another issue that I have to present: you promise us jobs every day, but you never fulfil your promises. Another issue: you always hold meetings with people who have their assets in Afungi, promising payment, but the compensation values never come. If this is only meetings, it is best to leave the areas of machambas with their owners, because we are tired of only
listening to words. If you are ready to make available the amounts of compensation, then deliver them to the people. Each one has their entitlement, the way it was planned. We heard that there are two companies (Project proponents), but our concern is to know whether they have reached an agreement or not. They promised compensation for machambas and building of houses for people affected but, to date, nothing has been done. Is that there are people who are going to be removed from their dwelling places and resettled elsewhere, and will be compensated for their assets, will conditions be created for them to continue their subsistence activities, such as machambas? So, I would like to request you to make an effort to meet the wishes of those affected and that everything be done in the best possible way.

Mr. Sérgio Barros’ response was as follows:

He was not very clear about what was wrong, and asked the Mr. Selemane to report to the team after the meeting, to expose again the situation, and informed that, if the work done was for the resettlement team, it would be known immediately, otherwise, the concern could be referred to the relevant teams. As regards to the areas to continue the agricultural activities, he said that the census and survey teams had been visiting the households and inquiring them as to who lived of agriculture, in those areas, and would need new areas for cultivation, and informing that the Project would seek and find such areas. However, there were households that, although they would lose land there, they carried out farming activities elsewhere, and many affirmed that did not need land, however, they were also registered.

9. Mr. Mussa Selemane, community member:

I stood up here to ask a question or for a consultation. We underwent the census and, afterwards, we received summaries of registration of assets. Our houses are not in good condition, when it rains there is seepage of water, and we also have rat problems. So, when it rains, the summaries may get wet, or the rats may gnaw the summaries. Thus, until when do we have to keep those summaries? Because if by chance there is an incident and the
summaries are damaged, what will we do? After the census, they gave us only the summaries, but we do not know what the purpose of that was.

The response of Mr. Sérgio Barros was as follows:

All stakeholders, including the Government and the Project, were willing to start with activities, however there is a need to consult all people and affected communities, and only after they are all informed about what will happen, the activities may start. On the asset surveys, he reassured that they should not worry, because even if the summaries of assets get destroyed, it is possible to recover the data that is stored on the company’s computers.

After Mr. Sergio Barros’ intervention, the Administrator of Palma District invited the National Director of Territorial Planning and Resettlement to say a few words, who reiterated that, in fact, the interventions that have been made did not allow many comments. However, as the Administrator had said, the major concern of the Government is to start the compensation process and the development Project. Therefore, this is also a concern for the Central Government and, as such, His Excellency, the Minister of Land, Environment and Rural Development had signed, two weeks before, an agreement with Anadarko company to ensure that the resettlement process and the compensation process were actually carried out. So, after the signing, His Excellency, the Minister questioned the Technical Commission for Monitoring and Supervision of Resettlement, when would they start the compensation and the implementation of the Resettlement Plan. Thus, this fact shows that it is a concern of the Government that the Project starts as soon as possible with its activities. The Director called for there to be unity, the District and the Provincial Government for achieving the main objective.

Upon this intervention of the National Director, the Administrator thanked the presence of all and declared the meeting closed.
There being no further business to discuss, the consultation ended at 12:30 PM, and the Minutes of the Third Public Consultation held in Vila de Palma were drafted, and will be signed and witnessed by representatives of the Government, the proponents and the community.

14 Dezembro 2015 – Reunião Pública: Senga
Minutes of the IV Public Consultation Meeting on the Presentation of the Draft Resettlement Plan – Senga Village

On the fourteenth day of December of the year Two Thousand and Fifteen, in accordance with the provisions set forth in paragraph 3 of art. 23 of Decree 31/2012, dated 8th August, which approves the Regulations on the Resettlement Process Resulting from Economic Activities, the Fourth Consultation Meeting was held with the Community of Palma-Sede, District of Palma, with the following agenda: ___________________________________________

I. Presentation of the Draft Resettlement Plan _________________________________

The meeting was chaired by Mr. Abdul Piconês, Permanent Secretary of Palm District, in his quality as Representative of the District Government, and was attended by the following individuals: _________________________________

On behalf of the Government of Palma District: Mrs. Verónica Pancrácio – Director of District Service for Planning and Infrastructure; Mrs. Adelina Mário Sitoe – Director of District Service for Education, Youth and Technology and Mr. Carlos Paulo – Representative of the District Services for Economic Activities (SDAE). _________________________________

On behalf of the Government of Cabo Delgado Province: Mr. António Domingos Mapure – Provincial Permanent Secretary; Mr. Policarpo Napica – Provincial Director of Land, Environment and Rural Development; Mr. Cassamo Júnior – Provincial Director of Sea, _________________________________

[Initialled]
Inland Waters and Fisheries; Mr. Borges do Rosário – Representative of the Provincial Directorate of Public Works, Housing and Water Resources; Mr. Diamantino Mateus Abdala – Secretary of the Provincial Government and Mrs. Cecília Luisa Livalengo – representative of the Provincial Directorate of Education and Human Development.

On behalf of the Central Government: Mr. Arlindo Dgedge – National Director of Territorial Planning and Resettlement; Mr. Inácio Pedro Tezoura and Mrs. Maria Sofia dos Santos – Ministry of Public Works, Housing and Water Resources; Mr. Joel Julião Nhassengo – Ministry of Agriculture and Food Security; Mr. Adério Wetela and Mr. Guilherme Constança – Ministry of Land, Environment and Rural Development; Mr. Silvano Langa – Ministry of State Administration and Public Service; Mrs. Abelinha Chambule and Mrs. Natália Magaia Camba – National Petroleum Institute and Mr. Emídio Ruíl André – Ministry of the Sea, Inland Waters and Fisheries.

On behalf of the Project developers, namely:

Anadarko Moçambique Área 1, Limitada (AMA1) represented by: Mr. Alexandre Jossias – Environment, Health and Safety Manager; Mrs. Katie Roche – Resettlement Manager, Mr. Sérgio Barros – Resettlement Process Manager; Mrs. Iva Garrido; Mr. Cláudio Foquiço; Mrs. Alice Madeira, Mr. Osvaldo de Castro, Mr. Estevão Mabjaia and by Consultants, Mrs. Gaye Thompson, Mr. Pedro Wate and Mr. Inocêncio Maganha.

Eni East Africa SpA Moçambique represented by Mr. Herculano Vilanculos, Mr. Eurico de Azevedo, Mrs. Carla Pene, Mr. Martino Carretini and Mr. Stefano Saviano.

Empresa Nacional de Hidrocarbonetos (ENH) represented by Mr. Julião Nhaquila and by Mrs. Maria Esperança Macovela.

The meeting was attended by approximately two hundred and fifty members of Senga community, including Mr. Tomás Pessa – Community Leader and Mr. Anselmo Yassine – Chairperson of the Community Resettlement Committee, as well as members of some civil
society organizations. It should be noted that, amongst the attendees, eighty two members were women.

The meeting began at 9:00 AM, with welcome greetings by Mr. Tomás Pessa, Village Chief, who, in his intervention, mentioned that it was not the first meeting that brought together the people and other stakeholders as regards to the Gas Liquefaction Project, and wished that the IV Round of Public Consultation Meetings was successful and brought about the desired results for the development of Senga Village and Palma District, and gave the floor to the District Permanent Secretary.

In turn, the District Permanent Secretary mentioned in his speech that the draft Resettlement Plan would be presented in that IV Round of Public Consultation Meetings. He also said that the draft Resettlement Plan resulted of the joint work carried out between the Project, the Government at various levels, the Consultants, the Community Resettlement Committees and the population of Senga Village and the District. This consultation was graced by Government Authorities at all levels (Central, Provincial and District) to witness the event. Finally, he invited the Provincial Permanent Secretary to address population.

The Provincial Permanent Secretary welcomed the people for the warm welcome and then said that, given the importance of the IV Round of Public Consultation Meetings, the Provincial Government was present at the event to witness the act and to encourage the population. He welcomed the residents of Senga for the patriotism shown during the whole process, which culminated in the preparation of the Resettlement Plan, and affirmed that, that phase was very important for the implementation of the Gas Liquefaction Project. He welcomed in particular the Community Resettlement Committee for its commitment to bring to fruition the ongoing work within the scope of the Project. After that, he invited the National Director of Territorial Planning and Resettlement to take the floor.

In his speech, the National Director of Territorial Planning and Resettlement, Mr. Arlindo Dgedge, stressed that due to the importance of the event, the Government of Mozambique was represented at all levels, which was why central provincial and district level officials were
present at the event. He emphasized that the Government attached great importance to the Project, as it could help the people of Senga, Afungi, Palma, Cabo Delgado and Mozambique, in general, to improve their living conditions. The dream of every Mozambican was to see the children studying in brick classrooms, with desks; to see Afungi area, in Palma, transformed into a lit up city, with water supply, improved roads; to see the children studying and working in the future in the industries associated with the Project. Such dream relied on the participation and unity in the goal of developing Afungi. He finished his intervention calling upon the population, together with the Government and the Project, to focus on the development goals of Senga Village, Palma District, Cabo Delgado and Mozambique.

Once the interventions were finalised, the meeting’s facilitator, Mr. Inocêncio Maganha, requested Mr. Pedro Wate to present the draft Resettlement Plan.

Mr. Peter Wate briefly summarized the steps taken since the resettlement announcement, in August 2013, to date, which culminated in the preparation of the Resettlement Plan. He also said that the Government of Mozambique awarded Afungi area for the development of the Gas Liquefaction Project. Due to the fact that the Project would occupy a large area, it would imply movement and resettlement of people and, in the light of Mozambican legislation, the resettlement of the population must comply with established procedures, from the socio-economic studies, census, assets survey and additional studies, such as the survey of persons with special needs, in the interests of a better understanding of the characteristics of local communities, as to their cultural habits, customs, production systems, among others. The population has been actively involved in all stages of the resettlement planning process that led to the establishment of the compensation entitlement framework, the choice of resettlement site, and including the development of the model house and the future resettlement village. During this process, Senga people had an important role by assigning a parcel of land for the construction of the resettlement village. He also said that the Government, with support of the Project, had identified a replacement area for agricultural purposes which would be given to the people who would lose their agricultural areas. The
Project obtained the opinions of the population regarding this replacement land identification process, and was working to evaluate the adequacy of future crop areas for agricultural production. The project provides for the opening of access routes to various points where the fishing centres will be established and it foresees the provision of basic equipment for processing and storage of fish. Due to the fact that Senga will provide parcels of their land, this community, in addition to benefitting from infrastructures that will be built in the resettlement village (school, health centre, market, police station, bus station, etc.), community agreements will also be entered into, which will allow the community to benefit from local development projects. The draft Resettlement Plan includes a monitoring and evaluation tool that allows different stakeholders (people, Resettlement Committee, Government, and Civil Society) to monitor and ensure the implementation of the Project, and that external factors to the implementation process be taken into account. During the implementation of the Resettlement Plan, there will be room or a mechanism for the management of all situations that might not have been accounted for. Through this mechanism, any community member who may have any complaint concerning the implementation of the resettlement can approach the Project to restore his rights.__________

He also mentioned that the Project will facilitate the implementation of a civil registration campaign of Afungi communities, in the beginning of 2016, which will be free. In the fisheries sector, pilot activities will be carried out by placing fish and lobster aggregation devices. In the Agriculture sector, in addition to the results achieved so far, the Project will continue with more efforts to help increase production levels and agricultural productivity. ______________

The Resettlement Plan under discussion is a draft and, therefore, it requires more contributions from all stakeholders in the Project. In order to collect more contributions, copies of the Resettlement Plan were made available to various Government institutions, at different levels, to enable easy access by the public and shared over the Internet in the Project’s Website. ____________________________________________________________________________

Upon the presentation, participants expressed their views on the consultation issue, as follows:

[Initialled]
1. Mr. Dinis Mateus, Senga community member, presented the following issues: ____

We made available the area for the affected population of Quitupo. However, to date, we haven’t seen the benefits for the Senga people. Do the benefits of Senga boil down only to the sharing of infrastructure which will be built in the resettlement village? ________________

During the last public consultation, a promise was made to carry out the asset registration and survey of people who had not been covered by the census. Considering that this is the last visit, what can be expected in this regard? The brochure, on page eight, indicates a higher amount assigned to banana and pineapple trees, in relation to coconut, mango and cashew trees. What is the explanation? ______________________________________________________________________

2. Mr. Omar Saíde Omar, community member, stated the following: __________

I appreciate the opportunity and the presence of the Project and the Government in this event. The Project has promised and is carrying out activities which will improve the living conditions of the Community. I request clarification on the withdrawal of RSS, as it employed more people. I appreciate the opportunity and the presence of the Project and the Government in this event. Why do those who consider themselves defenders of the community interests come and conduct their activities in secrecy? The Senga people are waiting and ask the Government to ensure their rights and benefits in the implementation of the Resettlement Plan. The Government should not allow individuals to foment unrest in the communities. There are people who underwent the census and lost their cards, how will this matter be solved? ______________________________________________________________________

3. Mr. Leonardo Nfaume, community member, informed the following aspects: ______

I appreciate the opportunity to participate in this IV Round of Public Consultation Meetings. I agree with the positioning of the community members who preceded me. The Senga community is open to make available more farming areas for the population who will be resettled. We request that a chronology of the different phases of implementation of the Project be presented; we ask that young people get the opportunity to work on the Project. We ask for clarification on physical and economic resettlement; we would like to inform the

[Initialled]
Government that the Senga community will not cooperate with entities that create disturbance within the community. ___________________________________________________

4. Mr. Américo Francisco Xavier, community member, stated as follows: ____________

I request that all programs within the scope of the resettlement be implemented, before serious problems arise, caused by individuals who are against the District’s development. The people are not against the development of this Project. There is a feeling that the Project is progressing very slowly, therefore I ask for a quicker implementation. The proof is that we participated in all processes, from the studies, census and asset survey and we gave a portion of our Senga village for the resettlement of the Quitupo people, but to this day nothing was implemented. __________________________________________________________

5. Mrs. Cristina Tangachi, community member, mentioned the following: ____________

In Senga village there is a lot of poverty. There are no signs of the Project’s presence, by creating more jobs for the residents of this village; we request that the Project increases the number of jobs for its residents. _____________________________________________________

In response Mr. Peter Wate said that: ______________________________________________

In addition to the benefits listed in the presentation, there are other benefits. The Project has a list of the needs of the population of Senga, which was obtained during the consultations, and it will help the community to meet them as soon as it starts implementing the resettlement. According to the plan, funds will be made available to finance community projects. The community will enter into agreements as regards to the management of the Fund with the Project. The community may submit projects and, if approved, those projects will be financed. At the beginning of 2016, the Project and the communities will begin discussions on the details of financing mechanisms for projects through the Fund. ________

In relation to members who lost cards, new cards will be issued, by submitting the name and card number to the Community Resettlement Committee. As for new property registration, they may also approach the Community Resettlement Committee. ______________________
Finalising his speech, the Permanent Secretary of Palma District mentioned that the people showed maturity and that it is aware of what it wants for the future. He thanked the positioning of the population at the IV Round of Public Consultation Meetings and requested the Provincial Permanent Secretary to submit his comments.

In his final speech, the Provincial Permanent Secretary said that he had followed closely the community's interventions and he was very pleased to note that the Senga people is well informed about the Project. He thanked the sense of solidarity shown by the population, as it showed willingness to assign more areas to the population to be resettled. He also stressed that the Government's task is to ensure that community rights are safeguarded, and called for a lot of dialogue and search for solutions to problems involving the whole community, in the subsequent steps of implementation of the Resettlement Plan.

The National Director of Territorial Planning and Resettlement, in turn, thanked the people of Senga for the teachings. In his view, he said, he learned what Senga community wants for their development. As regards to those who disturb the community, he affirmed that, if the community is united and has clear goals, those people will not achieve their intentions. He said it would convey at the highest level, the message that the people of Senga is keen on the Project advancement. He also spoke about the need to improve communication and coordination mechanisms between the Government entities and the community in the resettlement monitoring process, calling for increased participation of all.

Closing the meeting, the Permanent Secretary of Palma District said they were aware that there were issues which might not have been taken into account in the draft Resettlement Plan, therefore, the Project and the Government were open to welcome such suggestions. Then, he thanked and closed the IV Round of Public Consultation Meeting with Senga Community.

15 Dezembro 2015 – Reunião Pública: Maganja
Minutes of the IV Public Consultation Meeting on the Presentation of the
Draft Resettlement Plan - Village of Maganja

On the fifteenth day of December of the year two thousand and fifteen, in accordance with the provisions set forth in number 3 of article 23 of Decree nr. 31/2012, dated 8 August that approves the Regulations on the Process for Resettlement Resulting from Economic Activities, the Fourth Public Consultation Meeting was convened with the Community of the Maganja Village, Locality of Mute, administrative Post of Palma Sede, District of Palma, with the following agenda: ____________________________________________________________

I. Presentation of the Draft Resettlement Plan __________________________________________

The meeting was directed by Mr. Abdul Piconês, Permanent Secretary of the District of Palma, as the Representative of the District Government and included the participation of the following individuals: ____________________________________________________________

From the Government of the District of Palma: Mrs. Verónica Pancrácio – Director of the District Service for Planning and Infrastructures; Mrs. Adelina Mário Sitoe – Director of the District Service for Education, Youth and Technology and Mr. Carlos Paulo – Representative of the District Service for Economic Activities (SDAE). ________________________________

From the Government of the Province of Cabo Delgado: Mr. António Domingos Mapure – Provincial Permanent Secretary; Mr. Policarpo Napica – Provincial Director of Land,
Environment and Rural Development; Mr. Cassamo Júnior – Provincial Director of Sea, Interior Waters and Fisheries; Mr. Borges do Rosário – Representative of the Provincial Directorate for Public Works, Housing and Water Resources; Mr. Diamantino Mateus Abdala – Secretary of the Provincial Government and Mrs. Cecilia Luisa Livalengo - Representative of the Provincial Directorate for Education and Human Development.

From the Central Government: Mr. Arlindo Dgedge – National Director for Territorial Planning and Resettlement; Mr. Inácio Pedro Tezoura and Mrs. Maria Sofia dos Santos – Ministry of Public Works, Housing and Water Resources; Mr. Joel Julião Nhassengo – Ministry of Agriculture and Food Security; Mr. Adérito Wetela and Mr. Guilherme Constâncio – Ministry of Land, Environment and Rural Development; Mr. Silvano Langa – Ministry of State Administration and Public Service; Mrs. Abelina Chambule and Mrs. Natália Magaia Camba – National Petroleum Institute and Mr. Emídio Raúl André – Ministry of Sea, Interior Waters and Fisheries.

From the Project proponents:

Anadarko Moçambique Área 1, Limitada (AMA1) represented by Mr. Alexandre Jossias – Environment, Health and Safety Manager; Mrs. Katie Roche, Resettlement Manager, Mr. Sérgio Barros – Resettlement Process Manager; Mrs. Iva Garrido; Mr. Cláudio Foquiço; Mrs. Alice Madeira, Mr. Osvaldo de Castro, Mr. Estevão Mabjaia and consultants: Mr. Pedro Wate, Mr. Inocêncio Maganha and Mrs. Gaye Thompson.

Eni East Africa SpA Moçambique represented by Mr. Herculano Vilanculos, Mr. Eurico de Azevedo, Mrs. Carla Pene, Mr. Martino Carretini and Mr. Stefano Saviano.

Empresa Nacional de Hidrocarbonetos (ENH) represented by Mr. Julião Nhaquila and Mrs. Maria Esperança Macovela.

About three hundred members of the Maganja community attended the meeting, among which Mr. Salimo Amisse – Community Leader and Mr. Mansur Saide – Chairman of the Community Resettlement Committee, as well as members of some civil society organizations. Ninety six meeting participants were women.
The meeting initiated at nine o'clock. Mr. Salimo Amisse, community leader, greeted the participants and asked the population to express their opinion about the Project without fear. Next, Mr. Amisse gave the floor to the District Permanent Secretary to open the session.

The District Permanent Secretary stated that the Draft Resettlement Plan would be presented during the IV Public Consultation Meeting. He further mentioned that the elaboration of this Draft Plan had included various activities, such as the census, the asset survey, the socioeconomic survey and the rounds of public consultation meetings. The approval of the Resettlement Plan will permit its implementation. This meeting has the privilege of including the participation of government entities at all levels (Central, Provincial and District) to witness each phase of the Project's activities. As a concluding remark, the District Permanent Secretary invited the Provincial Permanent Secretary to address the population and to introduce his entourage.

The Provincial Permanent Secretary greeted the population of Maganja on their effort to complete the objectives of the Liquefied Gas Project. He mentioned that, among other assignments, it is the Provincial Secretariat's responsibility to oversee the territory. This reality establishes this institution's requirement to follow-up the implementation process of the present Project. As a concluding remark, the Provincial Permanent Secretary greeted the District Government and the population of Maganja for its patriotism and for the high sense of responsibility demonstrated throughout the process that culminated with the preparation of the present Draft Resettlement Plan. Next, the Provincial Permanent Secretary gave the floor to the National Director for Territorial Planning and Resettlement.

During his intervention, the National Director for Territorial Planning and Resettlement, Mr. Arlindo Dgedge, thanked the community members for their warm welcome. He mentioned that the objective of the present meeting is to discuss the future of the Maganja community. Mr. Dgedge mentioned that the Government is involved in the resettlement discussion process for a while now, together with the community. The Government of Mozambique values this project because it will add to the development the population's living conditions. He added that the project will bring more schools, more health units and more employment for the population.
Thus, the Government wishes this Project to go ahead. However, for this to happen the population needs to be united, must be alert to avoid interference from those that oppose development. He mentioned that because the Government considers the Project so significant it has created a commission that includes professionals from various fields to work together in order to complete the resettlement process.

Once all interventions were concluded, the meeting facilitator, Mr. Inocêncio Maganha, asked Mr. Pedro Wate to present the Draft Resettlement Plan.

Mr. Pedro Wate presented the Draft Resettlement Plan and mentioned that the entire Maganja population had participated in the processes that led to the elaboration of said Plan, from the different surveys and studies that identified the number of people affected by the Project, to the identification of the activities carried out by the population for their subsistence. Throughout the entire process both the national applicable rules and the international rules on resettlement were observed. Mr. Wate thanked the Maganja population for their active participation in all the processes that culminated in the elaboration of the Resettlement Plan. He reminded the participants that three previous rounds of public consultation meetings had been convened that allowed for a consensus in relation to the Plan's elaboration process, which is now disclosed in the fourth round of meetings. The Draft Resettlement Plan was distributed among key institutions at central, provincial and district level, and to the affected communities. Taking into account that not every person would have time to consult the document due to its dimension, a brochure was prepared in English, Portuguese and Kiswahili. The studies performed allowed for the identification of the locations where the population fishes, which fishing gear is used, the level of involvement of women in this activity and the type of existing crops. Mr. Wate further stated that the study ascertained the percentage of schoolchildren that do not attend school; the awareness that the main fruit trees are coconut trees and cashew trees and the identification of people with special needs (elderly, orphans, and children headed households). A fishermen and intertidal collectors census was performed. The information resulting from this census will be used for compensation.

In relation to compensation, Mr. Pedro Wate said that the compensation entitlement framework was discussed with the community during the third round of public meetings. The Resettlement
Plan provides for compensation of various crops and fruit trees. The Plan also provides for compensation of fishing activities, as said activities and intertidal collection are affected by the Project. Compensation for lost land will only be reimbursed when construction begins. As for fishing, compensation will be take place when the pipeline is installed at sea.

In relation to agricultural replacement land, the consultant confirmed that the District Government and the Project are working together and have already identified a potential area, between the villages of Senga and Mondlane. He informed that studies are in course to determine the propensity of the land for agricultural practices, community mapping and delimitation, whose preliminary results indicate that part of the area is favourable for agricultural practices. He said that in relation to the restoration of agricultural livelihoods the Project has prepared some pilot packages that will be implemented as of the first quarter of 2016.

In the fishing sector, Pedro Wate said that fish and lobster aggregation devices will be tested, which may improve the catching of the fish. He added that the Project provides for the opening of roads to Salama and Maganja Velha, where the Fishing Centres will be established and further provides for the provision of basic equipment for the processing and conservation of the fish.

The consultant said that the draft of the Resettlement Plan contemplates a monitoring and evaluation tool that will allow the different stakeholders (Population, Resettlement Committee, Government and Civil Society) to monitor and ensure the implementation of the Project and that the external factors of the implementation process are also taken into consideration. In the course of the implementation of the Resettlement Plan, there will be space and mechanism for the management of all the situations which may possibly not have been addressed. Through this mechanism, any member of the community that has any grievance pertaining to the implementation of the resettlement, may intercede with the Project to restore their rights.

The Resettlement Plan under discussion is a draft; therefore it requires more contributions from all the stakeholders in the Project. For the collection of more contributions, the copies of the Resettlement Plan were made available to various Government institutions at different levels.
and shared via the Internet on the Project’s website, in order to allow easy access by the general public.

After the presentation, the participants expressed themselves on the theme of the consultation, as follows:

1. Mr. Issa Abduremane Saide, member of the Maganja community, presented the following issues:

   We are about to benefit from the Project’s implementation process. The community members were aware of the arrival of a Project team to respond to the community’s concerns. Some people had already presented grievances, however, up to this moment there are no responses. There are community members that have still not been registered, will they have another opportunity for their registration?

   We request that the Project manages the community fund in a transparent manner, benefitting the communities of the Project’s area of direct influence. We suggest that management mechanisms which are transparent and inclusive be established for the Community Development Fund.

2. Anlaué Momade Charifo, member of the Maganja community, presented his concern as follows:

   I had expected that this would be the last round, as has been disclosed; however, I believe that there will be others. The Community Resettlement Committees and the ANADARKO workers excluded elderly people and children from the fishermen census in Maganja, where the entire population practices fishing. I request that if there is a fisherman survey, that the project works with the community and not with the Resettlement Committee, because it impedes people from being registered.

   I ask that the requests and ideas of the elderly people from the community be considered to avoid that they make decisions that reflect negatively on the project and consequently in the loss of employment by certain of the Project’s workers.
I appeal that the Project’s works occur with tranquillity, respecting the communities’ standards and rights and that the registration of the fishermen that are not included be done.

3. Mrs. Zainabo Nazir, community member, presented her concern as follows:

During the fishermen census in Maganja people were registered that do not belong to this community. Many fishermen that reside in Nsemo do not belong to the Maganja community – they are *vientes* – yet they were registered to the detriment of the local residents. In my case, my children were not registered.

4. Mr. Juma Sumail, community member, presented his opinion as follows:

We ask for employment opportunities, we are tired of meetings. We ask that tomorrow, on the sixteenth day, the Community Resettlement Committee be dismissed, because the members create problems among themselves, they do not tell the truth, they are young people and do not have competency to represent us.

5. Mr. Issa Rachide Salimo, community member, expressed himself by saying:

I thank the Government for creating the possibility of the companies working for the development of the communities. In Maganja we are all fishermen, including the children and the elderly people. Therefore, no member of the community should be excluded from the fishermen registration.

6. Dade Amade, community member, mentioned the following:

I thank the Government and the Project at all levels, but the process is slow. As it is delayed new issues arise that need to be discussed, however, there are no major conflicts that compromise the implementation of the Project. There were promises that young people from the community would be trained to work in the Project, something which has not been achieved. This causes discomfort in the community and causes clashes between workers and the community. The community members that work at ANADARKO have very low salaries compared to the workers that come from outside. I ask for more employment opportunities for the community members and salary increases for them.
At the community level, there are people that proclaim to be defenders of the community’s interests, while they hold clandestine meetings, contradicting the agreements reached during the public meetings.

In response to the presented issues, Mr. Pedro Wate said that:

The questions that were raised demonstrate that the community is concerned with its development. Regarding the surveys of the production areas, when the time comes for the agreements, the teams will be on the field to perform the verification and adjustment, taking into account the areas found. The families whose *machambas* were not surveyed should, at the end of the meeting, present their names. The Project worked with the listed families whose *machambas* were not surveyed and is open to receive grievances about possible areas allegedly not registered.

Regarding the community development fund, the Project commits itself to working to ensure greater transparency and coverage of its management. Regarding the members of the Resettlement Committee, these were elected by the community itself and given that they are at the end of their mandate, it will be up to the community to decide who should or shouldn’t continue as a member.

In response to the matter of the fishermen census, Mr. Alfredo Massinga mentioned the following:

He participated in all the census processes in Maganja and in Nsemo since two thousand and thirteen. All the activities have their rules. He understands that everyone would like to be registered and that was the expectation, but not everyone is a fisherman. Enumerators were placed that dealt with the fishermen and women collectors every day. Some years later, the team have profound knowledge about who is a fisherman and who is not. Likewise, we worked with the Community Leaders that indicated who is a fisherman; in fact, the people answered a survey that proved who is really a fisherman, since the fishermen answered all the questions and those who were not fishermen could not answer them. The registration observed rules that have to be respected.
We identify that there are people that may have been left out. We recognise that possibly, some people that are not from Maganja and who dedicate themselves to fishing may have been registered. Nevertheless, when the time comes for the implementation, all the irregular situations will be corrected.

In relation to the Nsemo fishermen who are not considered members of the Maganja community, it is clear that their origin does not matter, but rather the fact that they are fishermen, residents and are developing the activity in that location, they enjoy the same rights as the fishermen from Maganja.

Closing the Project’s participation, Mr. Alexandre Jossias communicated the following:

He thanked the Maganja community for their contributions, considering them legitimate. Mentioned that the Project is open to receive grievances, opinions and instructions from the community regarding how it wants to see the Project implemented. Regarding the grievances related to Anadarko’s workers, there are many ways to communicate the complaints to the Project. Apart from the complaints process, there is a telephone line available for the purpose, simply by indicating the name of the person to whom you wish to report, what is the problem and when the incident happened.

During the closing, the Permanent Secretary of the District of Palma thanked the community for their contributions and concerns, considering them valid. Mentioned that there is a need to collaborate providing contributions to improve the process. Everyone knows that where there are benefits is where everyone runs to. In fact, not everyone present at the meeting is a fisherman. The Government has participated in the works executed by the Project and can prove that not all the Maganja population practices fishing.

In his final intervention, the Provincial Permanent Secretary said that he attentively followed the six interventions of the Community that expressed the population’s concerns, of which he said he was satisfied by the fact that all the interventions are in favour of the advancement of the Project but naturally, it is important to review and address all the concerns of the communities. In turn, he said he attentively followed the clarifications given by the Project managers and was satisfied to observe that they are committed to correcting what is necessary, observing the
legislation and the community's rights. He also recalled that this Project is occurring in phases: survey, resettlement and implementation, each of which employs a specific number of people. By what has been presented by the Project, a training centre will be created that will prepare the people to work for it, perhaps, later incorporate their own company and earn more money than they could earn at the Project. Thus, he would like to encourage the population of Maganja, Palma and Cabo Delgado in general, to support the implementation of this Project, seeing as it will help in the improvement of the living conditions of the Mozambicans. He appealed for a greater cohesion in order to achieve the objectives desired by the Project, in order to take greater advantage of it. In relation to the operation of the Resettlement Committee, the District Government and the Community should work to better understand the presented concerns and find solutions. The Provincial Government will do everything to ensure that the population's rights in this resettlement process are secured, clear and in accordance with the current legal framework.

The National Director of Territorial Planning and Resettlement, in turn, thanked the Maganja population for their active participation in the discussion on the draft of the Resettlement Plan. Then, he appealed for the population to be organised, united and vigilant, as a way of overcoming the challenges that lie ahead. The role of the Technical Commission for Monitoring and Supervision of Resettlement is to ensure that all the procedures of the process are taken into account and that the rights of the affected communities are respected. Emphasised that the Commission constitutes the connecting link between the Project, the Communities and the Government.

During the closure, the Permanent Secretary of the District of Palma said that the government will do everything to ensure that the community's rights are secured; the technicians will continue to work with the communities to review all the aspects that were not taken into account in the course of the activities undertaken up to the present moment. Concerning the Resettlement Committee, the Government committed itself to work with the community to study the best way of overcoming the constraints that limit the operation of this body. He once again thanked the population for their presence and appealed for collaboration with the Project.
There being no more matters to be discussed, he declared the IV Public Consultation Meeting in the Maganja Community closed, when it was twenty minutes past twelve, and the present Minutes were drawn up which are signed and witnessed by the representatives of the Government, of the proponents and of the community.

16 Dezembro 2015 – Reunião Pública: Quitupo
Minutes of the IV Public Consultation Meeting regarding the Presentation of the Draft of the
Resettlement Plan – Quitupo Village

On the Sixteenth day of the Month of December of the Year Two Thousand and Fifteen, in accordance with the provisions of number 3 of art. 23 of Decree nr. 31/2012, dated 8th August, which approves the Regulation on the Resettlement Process Resulting from Economic Activities, the Fourth Public Consultation Meeting was held, with the Community of the Quitupo Village, Locality of Mute, Administrative Post of Palma Sede, District of Palma, with the following agenda:______________________________________________________________

I. Presentation of the Draft of the Resettlement Plan ____________________________

The meeting was chaired by Mr. Daniel Francisco Chapo, Administrator of the District of Palma and was attended by the following individuals: ____________________________

From the Government of the District of Palma: Mr. Abdul Piconês – Permanent Secretary of the District of Palma; Mrs. Verónica Pancrácio – Director of the District Services of Planning and Infrastructures; Mrs. Adelina Mário Siteo – Director of the District Services for Education, Youth and Technology; Mr. Carlos Paulo – Representative of the District Services for Economic Activities and Mr. Alfane César – District Commander of the Police of the Republic of Mozambique.______________________________________________________________

From the Government of the Cabo Delgado Province: Mr. António Domingos Mapure – Permanent Provincial Secretary; Mr. Policarpo Napica – Provincial Director for Land, Environment and Rural Development; Mr. Cassamo Júnior – Provincial Director of the Sea, Inland Waters and Fishing; Mr. Borges do Rosário – Representative of the Provincial
Directorate of Public Works, Housing and Water Resources; Mr. Diamantino Mateus Abdala – Secretary of the Provincial Government.

From the Central Government: Mr. Arlindo Dgedge – National Director of Territorial Planning and Resettlement; Mr. Zefanias Chitsungo – National Director of Urban Planning and Housing; Mr. Inácio Pedro Tezoura and Mrs. Maria Sofia dos Santos – from the Ministry of Public Works, Housing and Water Resources; Mr. Joel Julião Nhassengo – from the Ministry of Agriculture and Food Security; Mr. Adérito Wetela and Mr. Guilherme Constânça – from the Ministry of Land, Environment and Rural Development; Mr. Silvano Langa – from the Ministry of State Administration and Civil Service; Mrs. Abelinna Chambule and Mrs. Natália Maigaia Camba – from the National Petroleum Institute and Mr. Emídio Raúl André – from the Ministry of Sea, Inland Waters and Fishing.

From the proponents of the Project, namely: _____________________________________________

Anadarko Moçambique Área 1, Limitada (AMA1) represented by: Mr. Alexandre Jossias – Environment, Health and Safety Manager; Mrs. Katie Roche, Resettlement Manager, Mr. Sérgio Barros – Resettlement Process Manager; Mrs. Iva Garrido; Mr. Cláudio Foquéi; Mrs. Alice Madeira, Mr. Osvaldo de Castro, Mr. Estevão Mabjaia and by the Consultants, Mr, Pedro Wate, Mr. Inocêncio Maganha and Mrs. Gaye Thompson.

Eni East Africa SpA Moçambique represented by Mr. Herculano Vilanculos, Mr. Eurico de Azevedo, Mrs. Carla Pene, Mr. Martino Carretini and Mr. Stefano Saviano.

Empresa Nacional de Hidrocarbonetos (ENH) represented by Mr. Julião Nhaquila and by Mrs. Maria Esperança Macovela.

Three hundred and thirty six members of the Quitupo community were present, among which were Mr. Luis Abdala Salimo – Community Leader and Mr. Jonas Alide Saide – Chairman of the
Community Resettlement Committee, as well as members of some Civil Society organisations. It should be noted that of those present, one hundred and forty three participants were women.

The meeting began at thirty minutes past nine, preceded by a prayer said by Chêhe Salimo Saide. Following this, the Leader of the Village, Luis Abdala Salimo, stated that this is the fourth Public Consultation meeting and according to the Project it is the last of a series of four. He emphasised that after this meeting, other small meetings will follow and asked everyone to pay attention in relation to the presentation. Mentioned that there is information about the Quitupo community not wanting the Project to go ahead and appealed to those present to take a common position favourable to the advancement of the Project. He also said that eventually there may be protesters within the community, but the community should distance itself from them. Finally, invited the District Administrator to conduct the meeting.

The Palma District Administrator, Daniel Francisco Chapo, greeted the population and then mentioned that he has already been in Quitupo, where he talked to the community about his involvement in the Palma District’s development programs. Mentioned that this is the fourth Public Consultation meeting, at the end of which the implementation phase of the Resettlement Plan will be launched. Finally, invited the Permanent Provincial Secretary to address the population and present the Delegation which accompanied him.

During his speech, the Permanent Provincial Secretary greeted the population and stated that he would be continuing a process which had been started by his colleagues. He also mentioned that colleagues, members of the Provincial Government, were present to witness with him the presentation of the draft of the Resettlement Plan. He saluted the Quitupo population’s dedication in the efforts aimed at the achievement of the Gas Liquefaction Project’s objectives. Also mentioned that he was satisfied with the Village Leader’s wise words, according to which, the population is aware of the advantages that the implementation of the Project will bring and the population will do everything so that it may proceed as it is designed. He asked the community to continue committed and to join together with the efforts and experiences brought particularly by the new Administrator of the district of Palma who has already worked on similar projects in the district of Nacala-à-Velha, in order to accelerate the steps. To conclude his
contribution, he appealed for everyone to join in the efforts, since the Project will bring more opportunities.

During his intervention, the National Director of Territorial Planning and Resettlement, Mr. Arlindo Dgedge, thanked the blessing that the Chêhe performed for the meeting to go well. He recalled that during the last meeting held in Quitupo a movie was displayed which showed the future resettlement village and he stated that his dream is to one day see the children and the entire community living in that village, enjoying the conditions created, such as the school, healthcare centre, market, drinking water, among others. He added that the Government selected the officials present at the meeting to join the efforts of transforming the dream into a reality. He also mentioned that, the realisation of the dream also depended on the delivery of the Quitupo community. He appealed for the coming together of everyone for the implementation of the Project.

Once the interventions were concluded, the meeting facilitator, Mr. Inocêncio Maganha, requested that Mr. Pedro Wate, proceed to the presentation of the Draft Resettlement Plan.

Mr. Pedro Wate began his intervention stating that the objective of the current meeting was to present the draft of the Resettlement Plan in order to collect opinions for its improvement. Following this, he mentioned that since the Resettlement was announced, all the people of the community participated in all the processes, including the first, second and third public meetings. He also mentioned that they participated in different studies that culminated in the preparation of the Resettlement Plan that was being presented there. Indicated that the document had five main parts, of which, the first part presents a brief general explanation of the Plan which summarises the document, facilitating its comprehension by those who may lack sufficient time to read the entire document. Pedro Wate said that the Plan was drawn up in compliance with the Mozambican legislation and the international principles of good practice. He also mentioned that the second part of the Plan includes the socioeconomic baseline study which includes the census and the asset survey of the households. He mentioned that the census enabled us to know how many people are affected by the Project, while the asset survey enabled us to know which is the area and the resources that each one has to carry out
their activities. The third part of the document addresses the Resettlement Action Plan, which presents the compensation framework, the livelihood restoration plan, the location and concept of the resettlement village and the replacement land for the agricultural activity. He mentioned that in the Quitupo community compensations will be made in the areas of agriculture and fishing. He also stated that the compensation will encompass the small businesses. In relation to the compensation in the area of fishing, the people will be compensated for the loss of access to the fishing and foraging areas in the intertidal area. He also added that in the beginning of the following year all the registered fishermen will receive their census cards.

The presenter said that the District Government, supported by the Project, identified areas between the villages of Senga and Mondlane for the replacement of the agricultural land. He also said that the mentioned land merited some studies whose preliminary results indicate that more than half of the identified area is adequate for the agricultural practice. He added that in the fishing sector, fishing centres were identified in Salama and Maganja Velha where basic equipment for the processing and conservation of fish will be installed, as well as the opening of roads. He also mentioned that bearing in mind that the people will remain in the centres for a long time, the supply of drinking water is planned.

Pedro Wate said that in relation to the resettlement village, the site selection involved the Community, the District and Provincial Governments and the Technical Commission for Monitoring and Supervision of Resettlement. He added that coincidentally, all the parties involved selected Quitunda as the ideal location for the establishment of the resettlement village, which will be equipped with public facilities such as a school, healthcare centre, gardens, government buildings, police station, central bus station, among others.

The presenter said that the draft of the Resettlement Plan was distributed in Central, Provincial and District level institutions and in the villages. He also stated that the Resettlement Plan provides room or a mechanism for the management of all situations which may possibly not have been addressed during its design. To remedy any errors, this mechanism will facilitate any community member who has any complaint concerning the implementation of the resettlement plan, so that they may intercede with the Project in such a way as to protect their rights.
Pedro Ware stated that it is important that all the community members are aware and monitor the different phases of the Project, given that at the end of each phase, a team composed of the Government, the Community and the Technical Commission will perform the assessment of the course of the implementation activities. He added that after the approval of the Resettlement Plan by the Government, its pilot implementation programs will begin in the areas of agriculture and fishing. To conclude, he said that the Community Development Fund will be destined to support local initiatives with direct benefit in the communities and that from the month of January 2016 the Project expects to begin discussing the management mechanisms of the mentioned fund.

After the presentation, the participants expressed their opinion about the topic of the consultation, as follows:

1. Mr. Alide Saíde, member of the Quitupo community, expressed himself as follows:

We, the members of the Quitupo community, do not want more problems. I am here to say that the problems have ended. Since this is the last Public Consultation meeting, we want to know if the Project will build the plant and the resettlement village. If the Government and the Project are ready to advance, we are also in agreement with the Project. If, from now on, the Project does not materialise, it will be the Government’s and Anadarko’s fault, because we have already agreed.

When will we be resettled? People have come from Maputo proclaiming to be advocates of the interests of the Quitupo community; they mislead the people to impede the Project in order to induce the proponents to abandon their establishment in this area, leaving us in poverty. The day before yesterday they were here secretly collecting census cards and they mobilised some residents to agitate us during this meeting. We want to say, here and now, that we do not want to see that group of agitators in the community anymore. Our children have never seen a building and today they have an opportunity to see one in Palma and one day they may reside in it.
2. Dade Sumail, member of the Quitupo community, presented his concern as follows:

I would like to say that now we cannot let more than three months go by without being resettled. The community has already demonstrated that it is ready to be resettled hence we ask the Project and the Government to begin the construction of the resettlement village before the construction of the plant.

3. Nfaúme Rachide Pungua, member of the Quitupo community presented his opinion as follows:

The fourth meeting is the last and it will allow the advancement of the Project to the next phase. Today we affirm that the entire community is prepared for the resettlement. We have just materialised our “marriage” after more than five years of “courtship”. Thus, I appeal for us to be united in the same objectives from this moment on.

We want to know if in the areas identified for our machambas only cassava will be produced or will there be areas for rice? We are insecure because there are still no certainties. We want guarantees that we will have adequate areas for our livelihood.

4. Mr. Abacar Jamade, member of the Quitupo community, presented his opinion as follows:

On previous occasions we argued a lot and we had complications. Yet, today we understand that with the establishment of this Project there will be benefits for Quitupo, Palma, the Province of Cabo Delgado and for the country in general. We would like to mention that the Project should ensure the restoration of all the livelihoods according to the commitment undertaken in the discussions held.

5. Mr. Amade Mussa Muemede, member of the Quitupo community, expressed himself by saying the following:

During the presentation it was mentioned that the implementation phase will take forty months. During the previous meetings it was mentioned that we should continue our normal activities. Will there be an asset survey again?
6. Assane Nsangage, member of the Quitupo community, expressed his opinion as follows:

The Project’s activities began a long time ago, since two thousand and ten, to this day five years have passed. There are people in bad faith that agitate the community, for example, “The garbage causes mosquitoes, which in turn, causes malaria in the population and we get sick. We clean the garbage and the malaria disappeared. However, there are those who dig up the garbage and once again generate malaria”. The entire Quitupo population wants the Project.

The Project states that it concluded the mapping of the assets, which does not constitute the truth, since we have new machambas that are not registered. I appeal for the assets obtained after the survey to be considered in the resettlement phase. I have a son who has already completed eighteen years of age and built his house. I would like to know if his assets will be considered?

After five years since the Project began its activities, Quitupo suffers from lack of a healthcare centre, school and water sources. Our mosque has water infiltration during the rainy season and the elderly people suffer, hence, we ask the District and Provincial Government to resolve these concerns.

In response to the issues raised, Mr. Pedro Wate, in representation of the Project, expressed himself as follows:

The questions raised demonstrate that the community is concerned with its development and well-being. First, the resettlement village will be built and the transfer of the people to the new houses will be done and new agricultural areas will also be attributed. The construction of the plant will be the second step, since it will require a large extension of area, including the safety perimeter.

In relation to the replacement land for agricultural purposes, the surveys continue for the evaluation of its potential and will be divided into plots according to the typology of the soils and the crops, for example, areas for the plantation of cassava on rainfed lands and the rice in the wetland areas.
In relation to the implementation period of the resettlement plan in forty months, the people will be relocated gradually as they become affected in the development of the activities. This means that forty months later, all the people will be in the village. However, there will be a moment in which the Government will decree the moratorium indicating the suspension of productive and construction activities in the current areas.

During the closing, the Administrator of the District of Palma thanked the community for their contributions, their availability and readiness to be resettled. In relation to the concerns raised, said that these were particular to the process and that they did not prevent the advancement of the Project. Regarding the community’s concern in relation to the start of the construction of the houses, he mentioned that it would not be possible to build the plant while the population was still in the village, whereby, it should be clear that first the resettlement will be done and then the plant will be constructed. Regarding the request to build the houses in three months, he informed that the Project and the Government intend to build long-lasting houses; therefore they will not be built in a hurry. He asked the population to not consider that the time taken in the preparation of this plan had been lost, since it was thanks to this time that it was possible to perform the work with the due thoroughness. For the registration of the houses constructed or other improvements established after the census and the asset survey, he said that there would be a team that would verify the changes that occurred in order to protect the rights of those affected. Added that the Public Consultation does not end the dialogue between the parties, therefore there will be permanent contacts for the obtainment of consensuses. In relation to the request for a school and health unit, he said that provisional structures would be constructed bearing in mind that there will be resettlement subsequently.

The Administrator said that the Resettlement Plan will be submitted to the Government for approval and the Environmental Licence will be attributed which will allow the start of the works and the entire implementation process may last forty months, therefore to ensure all the rights a community development fund is provided and it is expected that the people who have shops will continue to have shops; those who have *machambas* will continue to have *machambas*. In relation to the village’s Mosque, at the end of the meeting he would visit it and that within a week it will have a new cover to avoid infiltration.
During his final intervention, the Permanent Provincial Secretary stated that he closely monitored the Community’s interventions and it was quite pleasant to hear contributions that are favourable to the Project. He also mentioned that he undertakes the commitment of continuing to work with the Project so that the concerns of the Quitupo community are respected. Added that the Provincial Government will do everything to ensure that the rights of the population in this resettlement process are respected.

The National Director of Territorial Planning and Resettlement, in turn, thanked the Quitupo population for the lesson of cohesion around the development founded in the Gas Liquefaction Project. Reiterated that the people continue to develop their activities, but the Government will come to inform about the moratorium, this is, the suspension of the activities and constructions in the impact areas and the updating of the census will follow. Said that the population’s message was made clear according to which the Quitupo community is ready to advance with the resettlement and he committed himself to convey that message to the highest level. Then, he appealed to the population to be organised, united and vigilant, as a way to surpass the challenges that lie ahead.

The Community leader thanked the presence of the Government delegation at all levels. Mentioned that the population is thankful and appeals for the requests made by them not to be forgotten. Finally, the Community Leader requested the closure of the meeting by means of a prayer.

Thus, the Chêhe, Salimo Saíde, closed the meeting with a prayer of gratitude for the way in which the meeting had been productive.

With no more considerations to be made, the IV Public Consultation Meeting in the Quitupo Community was closed when it was twenty minutes past twelve, with the present Minutes having been drawn up, which are signed and witnessed by the representatives of the Government, the proponents and the community.

17 Dezembro 2015 – Reunião Pública: Palma Sede
On the seventeenth day of December of the year two thousand and fifteen, in accordance with the provisions set forth in paragraph 3 of art. 23 of Decree 31/2012, dated 8th August, which approves the Regulations on the Resettlement Process Resulting from Economic Activities, the Fourth Consultation Meeting was held with the Community of Palma-Sede, District of Palma, with the following agenda: __________________________________________

I. Presentation of the Draft Resettlement Plan ________________________________

The meeting was chaired by Mr. Abdul Piconês, Permanent Secretary of Palm District, in his quality as Representative of the District Government, and was attended by the following individuals: ____________________________________________________________

On behalf of the Government of Palma District: Mrs. Verónica Pancrácio – Director of District Service for Planning and Infrastructure; Mrs. Adelina Mário Sitoe – Director of District Service for Education, Youth and Technology and Mr. Carlos Paulo – Representative of the District Services for Economic Activities. ____________________________________________________________

On behalf of the Government of Cabo Delgado Province: Mr. Policarpo Napica – Provincial Director of Land, Environment and Rural Development; Mr. Cassamo Júnior – Provincial [Initialled]
Director of Sea, Inland Waters and Fisheries; Mr. Borges do Rosário – Representative of the Provincial Directorate of Public Works, Housing and Water Resources; Mr. Diamantino Mateus Abdala – Secretary of the Provincial Government.

On behalf of the Central Government: Mr. Arlindo Dgedge – National Director of Territorial Planning and Resettlement; Mr. Zefanias Chitsungo – National Director of Housing and Urban Planning; Mr. Inácio Pedro Tezoura and Mrs. Maria Sofia dos Santos – Ministry of Public Works, Housing and Water Resources; Mr. Joel Julião Nhassengo – Ministry of Agriculture and Food Security; Mr. Adérito Wetela and Mr. Guilherme Constança – Ministry of Land, Environment and Rural Development; Mr. Silvano Langa – Ministry of State Administration and Public Service; Mrs. Abelina Chambule and Mrs. Natália Magaia Camba – National Petroleum Institute and Mr. Emídio Raúl André – Ministry of the Sea, Inland Waters and Fisheries.

On behalf of the Project developers, namely:

Anadarko Moçambique Área 1, Limitada (AMA1) represented by: Mr. Alexandre Jossias – Environment, Health and Safety Manager; Mrs. Katie Roche – Resettlement Manager, Mr. Sérgio Barros – Resettlement Process Manager; Mrs. Iva Garrido; Mr. Cláudio Foquiço; Mrs. Alice Madeira, Mr. Osvaldo de Castro, Mr. Estevão Mabjaia and by Consultants, Mr. Pedro Wate, Mr. Inocêncio Maganha and Mrs. Gaye Thompson.

Eni East Africa SpA Moçambique, represented by Mr. Eurico de Azevedo, Mrs. Carla Pene, Mr. Martino Carretini and Mr. Stefano Saviano.

Empresa Nacional de Hidrocarbonetos (ENH) represented by Mr. Julião Nhaquila and by Mrs. Maria Esperança Macovela.

The meeting was attended by one thousand two hundred and twenty three members of Palma-Sede community, including Mr. Rachide Salimo, Mr. Saiđe Tarize, Mr. Nfaume Nassir, Mr. Luís Salimo, Mr. Awaze Saiđe and Mr. Bacar Ali Mbale – Community Leaders of
Muaha, Bagala, Barabarane, Incolarino, Quelimane and Quilawa, respectively, as well as Mr. Pedro Abudo Nchamo, Chairperson of the Community Resettlement Committee. Members of some civil society organizations were also represented. It should be noted that, amongst the attendees, four hundred and fifty participants were women.

The meeting began at 9:20 am with the welcome greetings of Mr. Rachide Salimo, replacement of the Community Leader of Bairro Muaha. Taking the floor, he requested that all participants keep calm and pay attention to follow closely the meeting. He also informed that it was the last of the series of Public Consultations, in accordance with the Project.

On the other hand, the Permanent Secretary of Palma District, in his intervention, said that the draft Resettlement Plan would be presented in that round of Public Consultation. He also said that the draft Resettlement Plan resulted of a joint effort carried out between the Project, the Government at various levels, the Consultants, the Community Resettlement Committees and the general population. He mentioned that the consultation had the opportunity to involve government entities of Central, Provincial and District levels to witness the event. After that, the Permanent Secretary invited Mr. Policarpo Napica, Provincial Director of Land, Environment and Rural Development, to address the community.

In his intervention Mr. Policarpo Napica greeted the people and mentioned that he was present in that meeting with colleagues and members of the Provincial Government, who were then introduced, and stressed that they had come to witness the presentation of the Draft Resettlement Plan. He also said that his presence was not just to witness the act, but also aimed to draw lessons that will be useful in other similar cases occurring in the province and the country, in general. He added that, to the knowledge of the participants, a similar process is taking place in Balama, Montepuez, and Pemba.

In his intervention, the National Director of Territorial Planning and Resettlement, Arlindo Dgedge, thanked the massive participation of the population. He said that the massive participation was not by chance, it is justified by the importance that the people attach to the Project. He said that people assumed that the Project would change their living conditions.

[Initialled]
He stated that the Government attached great importance to the Project; therefore, it had mandated the staff that was present there to join the efforts to transform the dream into reality. He added that the process is very complex as it demands the constructive participation of everyone, focusing in the district development objective. He also stated that the entire population should be vigilant to slow down all activities which could challenge the objectives set. To finalise, he introduced the central level staff present at the meeting.

The Project representative, Alexandre Jossias, welcomed the participants to the meeting and mentioned that in the Project, in addition to ANADARKO, there are other partners, such as ENI and ENH, as well as consultants hired to assist in the studies and the implementation of the Project.

Once the interventions were finalised, the meeting’s facilitator, Mr. Inocêncio Maganha, requested Mr. Pedro Wate, Project’s Consultant, to carry out the presentation of the draft Resettlement Plan.

Mr. Pedro Wate began by indicating that the purpose of the meeting was to present the Draft Resettlement Plan in order to obtain opinions for its improvement. He stated that the work that has been done since two thousand and thirteen is summarised in the Draft Resettlement Plan. Carrying on his intervention, he indicated that ever since the launch of the resettlement was announced, people in the community participated in the consultations, including the first, second and third public meetings, and participated in different studies that led to the drafting of the Resettlement, presented in that meeting.

Pedro Wate indicated that the first part of the Draft Resettlement Plan includes a brief general explanation regarding the Plan. He mentioned that the document was prepared in accordance with the Mozambican legislation and good international practices; he added that the second part refers to the socio-economic baseline study which consisted in the census and household asset survey. He pointed out that the census showed the number of people affected by the Project, and the number of people involved in fishing and agriculture.
activities. He stressed that the inventory showed in which area each household carries out its activities.

The presenter said that the third part refers to the compensation process and the livelihood restoration. He affirmed that, in Palma-Sede community compensations will take place for the loss of access to agricultural areas and fishing grounds. He also stated that compensations would be given for the disruption of small businesses. He mentioned that people would also be compensated for the loss of access to their agricultural land and the compensation entitlement framework was discussed with the community during the third public meeting. With regard to compensation in the area of fisheries, the speaker indicated that people will be compensated for the loss of access to the sea and intertidal collection.

Continuing his intervention, the consultant confirmed that the Project would help people to improve agricultural production and productivity, throughout the development of improved production techniques, with the support of the Government’s agricultural extension services. Regarding the fishing, Pedro Wate mentioned that the Project will support the rehabilitation of Palma’s fishing centre and will create conditions so that the centre is fitted with basic equipment to process and conserve the fish and sanitary conditions. He added that, from the following year pilot projects would start where fish aggregation devices will be tested, which could improve the capture of fish. On the restoration of people’s livelihoods, the consultant also said that, in relation to replacement land for agricultural purposes, the District Government, supported by the Project, identified areas between Senga and Mondlane villages. He added that the area deserved some studies, whose preliminary results indicated that more than half of such land is fertile.

With regard to community benefits, the speaker said the draft Resettlement Plan provides for a Community Development Fund which is intended to support local initiatives benefitting directly the communities and, at the beginning of the year two thousand and sixteen, the Project intends to commence the sharing of ideas with the community on the operation of the fund.
The consultant explained that the Resettlement Plan provides for a mechanism to manage all situations which might not have been addressed during its design. He also said that, to cater for any errors, this mechanism will facilitate that any community member who has a complaint concerning the implementation of the resettlement might intercede with the Project in order to safeguard his rights. He also said that it is important that they all participate in discussions of the Plan, for suggestions and contributions will included thereto and that, after the meeting, a team would work in the evaluation of the contributions so that they are accommodated in the Plan.

The consultant also said that copies of the draft Resettlement Plan had been distributed to government institutions, at Central, Provincial, and District levels, and in the affected villages. He added that once approved they would start the implementation activities.

Following this, Mr. Sérgio Barros explained to the people that it should not consider that the compensation process was being delayed, as the time lapsed was necessary to synchronize all information, questions and proposals in order to ensure that compensations are fair. He also mentioned that just as the people are in a hurry to receive the compensations the company is also in a hurry to build the facility, but it is necessary to organise the process with due care, so that the Project’s implementation does not affect the interests and rights of the people and the compensations will start taking place solely after approval of the Resettlement Plan by the Government.

Upon the presentation, participants expressed their views on the consultation issue, as follows:

1. Mr. Ali Issa Sualé Chimbambanda, community member of Palma-Sede, expressed his views as follows:

   Ever since this company is in Palma District, more than seven years have elapsed and there were many points that we agreed. As this is the last meeting, our objective is that each community member affected does get what is rightfully theirs. The company needs to show signs: both fishermen and farmers should enjoy their rights to compensation.
2. Mr. Pedro Abudo Inchamo, community member of Palma-Sede and chairman of the Community Resettlement Committee, submitted his question as follows: ____________
Many things have already been made, as shown in the brochures. We request that the Resettlement Plan be taken immediately to the Government to allow its approval and then its implementation. ___________________________________________________________________

During the census process, some people did not have the opportunity to register their properties. How will these cases be handled? ___________________________________________

3. Mrs. Fátima Ntimacharubo, community member of Palma-Sede presented its opinion as follows: ___________________________________________________________________
Employment opportunities are only given to people from Maputo and Pemba. When will local people have the opportunity to work in the Project; We request that the LNG Liquefaction Plant be built in the District of Palma. ________________________________________________

4. Mr. Assumane Chá, community member of Palma Sede, presented his opinion as follows: ___________________________________________________________________
People who have been registered already should be compensated, should not have to wait for others who are not yet registered. The community members are already tired of meetings. They want to be compensated. ______________________________________________________

5. Mrs. Tima Saíde, community member of Palma-Sede, expressed himself by saying the following: ___________________________________________________________________
We are worried because promises have been made for a long time, but not yet materialized. We stopped working based on the expectation that our worries would be resolved, but they were never resolved. We request that our promises be fulfilled. __________________________
6. Mr. João Saíde Mola, community member of Palma-Sede, presented his opinion as follows: 

I am worried with our future. More than a job opportunity, it would be good if we had opportunity to learn to do something to facilitate employability.

Mr. Pedro Wate answered the issues presented as follows:

I appreciate all suggestions made as they demonstrate that the communities understood that we are at the end of the process of preparing the Resettlement Plan. The following phase is the payment of compensations. Therefore, please have a little patience, because the documents must be approved and we believe that the Government will do it soon.

7. Mr. Ali Momade Licada, community member of Palma-Sede, expressed his views as follows:

The Project workers brought problems to the community. With the Project’s presence, many problems are emerging; there are people who come from Pemba or Maputo, to sow trouble in the community, showing weaknesses of our government officials. At this meeting we the community members wish to receive our compensations. The community members are tired of false promises and want the truth.

8. Mr. Momade Ahalifa Muenhe, community member of Palma-Sede, expressed his views as follows:

My brothers, do you really believe that the Project will ensure our rights? What has the company done since it arrived in the district?

The Project conducted research in our production areas, but we will not gain anything as compensation for the loss of these areas. I request clarification regarding the payment of compensation.

Having finished the session of questions and answers in the closing ceremony, the Permanent Secretary of Palma District thanked the contributions made by the community
and said that they would help improve the Resettlement Plan. He called for patience to the
people and informed that the delay in the process was necessary to allow the collection of
reliable data and to prevent failure during the compensation phase. He said that, under the
Project, all that was to be done, required the help of others, hence the presence of fellow
citizens from Pemba, Beira, Maputo and other parts of the country, to contribute to its
materialization. He said that the realization of the Project’s tasks requires professional and
technical skills, so everything will be done to prepare community members to respond to the
challenge of fulfilling the requirements for the released job vacancies. He also recalled that
we find, everywhere in Mozambique, people from all walks to work, thus we should all come
together as Mozambicans, to work for the development of our country. Finally, he said, in
relation to the census, that all those who had not been registered would have the opportunity
to do so.

In his final intervention, the Provincial Director of Land, Environment and Rural Development
said that this was another opportunity to learn how we should position ourselves in face of
the resettlement processes in the country and ensured that the lessons learned in that public
consultation would be valued and shared in other similar cases. Finally, he indicated that the
Provincial Government would do everything to ensure that the rights of the people in the
resettlement process were guaranteed.

In turn, the National Director of Territorial Planning and Resettlement, thanked the
contributions made by the people and said it was clear that Muaha’s population is prepared
to move forward with the resettlement process. He said that taking into account that the
project promised to submit the Resettlement Plan to the Government for approval, everything
will be done so that, in the first quarter of two thousand and sixteen, the plan will be
approved. He also said that the Government will ensure that the rights of communities
affected by the Project are safeguarded and stressed that the compensation process will not
only be carried out in Palma-Sede, but also in Senga, Quitupo, Maganja and Mondlane.
Finally, he encouraged the community to participate in adult literacy and children schooling
programs. He ended by saying that his dream is to see the children of Palma district working
as technicians and factory managers, in the future.
Mr. Rachide Salimo, replacement of the Community Leader of Muaha, thanked the presence of the government delegation and representatives of the Project on behalf of the Palma-Sede.

There being no further business to discuss, the IV Round of Public Consultation Meetings to Mondlane Community was terminated at 11:45 pm, and these Minutes were drafted and will be signed and witnessed by representatives of the Government, the project developers and the community. ___________________________

Minutes of the IV Public Consultation Meeting on the Presentation of the Draft Resettlement Plan – Mondlane Village

On the Nineteenth day of December of the year Two Thousand and Fifteen, in accordance with the provisions set forth in paragraph 3 of art. 23 of Decree 31/2012, dated 8th August, which approves the Regulations on the Resettlement Process Resulting from Economic Activities, the Fourth Consultation Meeting was held with the Community Mondlane Village, Locality of Olumbi, Administrative Post of Olumbi, District of Palma, with the following agenda:

I. Presentation of the Draft Resettlement Plan

The meeting was chaired by Mr. Abdul Piconês, Permanent Secretary of Palm District, in his quality as Representative of the District Government, and was attended by the following individuals:

On behalf of the Government of Palma District: Mrs. Verónica Pancrácio – Director of District Service for Planning and Infrastructure; Mrs. Adelina Mário Sitoe – Director of District Service for Education, Youth and Technology; Mr. Carlos Namo, Director of District Service for Health, Women and Social Affairs, Mr. Carlos Paulo – Representative of the District Services for Economic Activities (SDAE).
On behalf of the Government of Cabo Delgado Province: Exmo. Mr. Policarpo Napica – Provincial Director of Land, Environment and Rural Development; Mr. Cassamo Júnior – Provincial Director of Sea, Inland Waters and Fisheries; Mr. Borges do Rosário – Representative of the Provincial Directorate of Public Works, Housing and Water Resources; Mr. Diamantino Mateus Abdala – Secretary of the Provincial Government.

On behalf of the Central Government: Mr. Arlindo Dgedge – National Director of Territorial Planning and Resettlement; Mr. Inácio Pedro Tezoura and Mrs. Maria Sofia dos Santos – Ministry of Public Works, Housing and Water Resources; Mr. Joel Julião Nhassengo – Ministry of Agriculture and Food Security; Mr. Adérito Wetela and Mr. Guilherme Constança – Ministry of Land, Environment and Rural Development; Mr. Silvano Langa – Ministry of State Administration and Public Service; Mrs. Abelina Chambule and Mrs. Natália Magaia Camba – National Petroleum Institute and Mr. Emídio Raúl André – Ministry of the Sea, Inland Waters and Fisheries.

On behalf of the Project developers, namely: _____________________________________________

Anadarko Moçambique Área 1, Limitada (AMA1) represented by: Mr. Sérgio Barros – Resettlement Process Manager; Mrs. Iva Garrido; Mr. Cláudio Foquiço; Mr. Osvaldo de Castro, Mr. Estevão Mabjaia and by Consultants, Mr. Pedro Wate, Mr. Inocêncio Maganha and Mrs. Gaye Thompson._____________________________________________________________________

Eni East Africa SpA Moçambique, represented by Mr. Eurico de Azevedo, Mrs. Carla Pene and Mr. António Vasco._____________________________________________________________________

Empresa Nacional de Hidrocarbonetos (ENH) represented by Mr. Julião Nhaquila and by Mrs. Maria Esperança Macovela. ________________________________
The meeting was attended by approximately three hundred and twenty members of Mondlane community, including Mr. Cheia Issa – Community Leader and Sumail Issa – Chairperson of the Community Resettlement Committee, as well as members of some civil society organizations. It should be noted that, amongst the attendees, one hundred and forty participants were women.

The meeting began at 1:50 pm with the welcome greetings of Mr. Cheia Issa, Community Leader who, in its intervention mentioned that it was not the first meeting held with the population and other stakeholders on the Gas Liquefaction Project and asked everyone to follow closely the presentation of the draft Resettlement Plan.

On the other hand, the Permanent Secretary of Palma District, in his intervention, said that this was the fifth meeting which was held during that week, as regards to the dissemination of the draft Resettlement Plan. He said that the draft Resettlement Plan would be presented in the round of Public Consultation meetings. He also said that the draft Resettlement Plan resulted of the joint work carried out between the Project, the Government at various levels, the Consultants, the Community Resettlement Committees and the general population. To finalise, he invited Mr. Director Policarpo Napica to address the participants. Thus, in his speech, he thanked the people for the warm welcome, and then said that, given the importance of the act, he was Mondlane along with other Provincial Government members to witness the unfolding of the IV Round of Public Consultation Meetings on the draft Resettlement Plan. After that, he invited the national Director to introduce himself to the participants.

In his intervention, the National Director Arlindo Dgedge greeted Mondlane’s population and mentioned that despite the rain, he remained in the meeting place due to the importance given to the resettlement process. He also thanked the population for making available an area of
their land to the population affected by the Project. To finalise, he emphasised that he was accompanied by a multisectoral team composed of staff of the Ministry of State Administration and the Public Service, of the Ministry of Sea, Inland Waters and Fisheries, of the Ministry of Public Works, Housing and Water Resources, of the Empresa Nacional de Hidrocarbonetos and of the National Petroleum Institute.

Once the interventions were finalised, the meeting’s facilitator, Mr. Inocêncio Maganha, requested Mr. Pedro Wate to carry out the presentation of the draft Resettlement Plan.

Mr. Pedro Wate began by indicating that the purpose of the meeting was to present the draft Resettlement Plan in order to obtain opinions for improvement. Afterwards, he thanked the population for making available part of their land for the purpose of agricultural replacement to the communities that would be displaced to the resettlement village.

After that, he explained that the draft Resettlement Plan had a non-technical summary which reflects its main contents, namely: a general description of the plan; baseline studies (mapping, soil survey, census) and Implementation Action Plan.

Continuing his intervention, he focused on the presentation theme, explaining to the participants the principles of the Project’s community benefits, under the resettlement process. In this regard, he indicated that Mondlane community would benefit from demonstration fields for agricultural production techniques where it would be able to learn how to increase production.
and productivity levels; he also said that in the area of fisheries, the Project would help the community to build fishing centres so that fishermen could have a place to process and conserve the fish. He added that the fishing centres would have drinking water and sanitary conditions and that the Project would open up access roads to the fishing centres to facilitate the movement of fishermen and traders from the centres to the trading places; The speaker also explained that the Project will support communities with techniques to increase the intertidal collection and introduce fish and shellfish aggregation devices in fishing areas. ______________

He added that there is a capacity building and vocational training program for community members in various areas to facilitate self-employment and employability, in general. __________

In terms of infrastructure, he mentioned that the list of benefits was large and, in addition to improving the road linking Mondlane village to other Afungi communities, the Project would also support the opening of more boreholes, the market expansion and the sporting activity (football field). __________________________________________________________________________________________

Within the Project’s scope, Pedro Wate said that Mondlane community would benefit from the Community Development Fund, to support local initiatives, directly benefitting the communities with the aim of supporting small income-generating projects, community utility projects, which may include investment in education with the provision of scholarships to community members. He finalised by saying that, from January Two Thousand and Sixteen onwards, the Project
anticipated the share of ideas with the community on the mechanisms for implementation, management and prioritization of needs.

The speaker said the draft Resettlement Plan was distributed to the villages, to the community leaders and community resettlement committees for collection of the views and, afterwards, the plan should be submitted to the Government for consideration and approval. Finalising his intervention, he said that, upon approval by the Government, an Environmental License should be issued, to allow the Project to implement all the activities included in the Plan.

Upon the end of the presentation, the participants expressed their views on the consultation theme, as follows:

1. Mr. Jorge Wazir, representing Mondlane community, read a message whose content is summarized in the following requests:
   - Prioritisation of employment to local communities; participation in agricultural and fishing development programs, access to the community development fund; building of a school and a health centre.; provision of electricity; construction of a soccer field; construction of boreholes; building of a market and improvement of access roads;

2. Mr. Abdala Muhamed, membro of Mondlane community, expressed his views as follows:
   - Mondlane is ready to give agricultural areas to Quitupo community. However, they requested benefits for such concession. Thus, they asked for three agricultural tractors; the improvement
of the road; the improvement of fishing conditions and the construction of the health centre and school.

3. Mr. Saíde Lázima, community member, expressed his opinion as follows: __________
   - Everything was mentioned. However, I request that priority be given to the electricity. _______

4. Mr. Amisse Rachide, community member, stated the following: _________________________
   - We request assistance for senior citizens who cannot fish or farm the land.

Commenting on the issues raised, Mr. Pedro expressed himself as follows: ______________

I appreciate the contributions involving the Resettlement Plan. The Project aims to provide support for people with special needs, particularly the elderly, orphans and widows, with large households. As mentioned earlier in the presentation, some of the needs listed in the community message will be met through the Project’s direct intervention and the use of the Community Development Fund. However, it will require prioritisation of benefits and, as regards to the agriculture, techniques will be disseminated to raise the production and productivity levels. ______________________________________________________________________________

5. Mrs. Mariamo Alide, community member, expressed her views in the following manner: ___
   The village is ready to welcome Quitupo population. Mondlane community will lose areas forever, thus, for such loss, we ask the benefits already mentioned, and that our requests be met. ______________________________________________________________________________
6. Mrs. Atija Amade, community member, gave her opinion as follows: _____________________

The community members are ready to welcome the Project. However, we request the compliance with all that was requested to benefit the community. We would like that our requests for tractors, mills, health centre, be accomplished. ________________________________

7. Mr. Matuane Sumail, community member, expressed his opinion as follows: ______________

The period between two thousand and thirteen and two thousand and fifteen was a period of meetings. On two thousand and sixteen we need to put in practice everything that was agreed upon. We, the Mondlane and Palma population, in general, are ready to work together with the Project. However, the Government authorities should be prepared to take forward the District’s development, although there is people who do not want the Project in Palma. Therefore, I request the Government to allow Anadarko to work in Palma. ________________________________

8. Mrs. Tchene Mjai, community member, stated the following: ___________________________

We are ready to receive Quitupo population, but we request benefits for Mondlane.

9. Mrs. Ali Mussa Amisse, community member, stated the following: ______________________

We ask for transportation and processing machinery for agricultural products for the community. If this is the last meeting before the implementation of the Project; when does the Project take-off? ________________________________________________
10. Mrs. Saíde Imede Ntchoma, community member, expressed his views as follows: ________

The land is not for sale and neither loaned. We have properties in areas that will be transferred to Quitupo population. What benefits will have people with improvements in the given areas, and who do not reside in Mondlane? ________________________________

Responding to the insistence questions, Mr. Pedro expressed the following: ________________

In relation to transportation, when the road is ready, operators will assign their transportation means to the Mondlane route, as in Maganja. The Community Development Fund will also serve to finance agro-processing projects; as regards to the Project’s date of commencement, some activities will start in the first quarter of two thousand and sixteen, however, after approval of the Project, other activities will be initiated in the second quarter of the same year. ________

Closing the meeting, the Permanent Secretary of Palma District thanked the contributions of all stakeholders on the Resettlement Plan. He also thanked the community for the message, saying that the government welcomes all issues listed and undertakes to ensure their implementation. He stressed that all interventions indicated that the population wants the Project to progress. As regards to the meetings, he reassured that the next ones will serve to work out the issues that were not addressed during the planning process. As for improvements in the Mondlane areas, he said that a survey will be done in order not to affect the areas with improvements. However Mondlane community, as noted here, will benefit from the Project.
Finally, he asked the community to continue to actively participate in all processes so that there are no failures and complaints in the Plan’s implementation period. 

In his final intervention, the Provincial Director of Land, Environment and Rural Development, said that he had listened to and enjoyed the way the community expressed its concerns, adding that he would take with him the knowledge and experience obtained to share with other places in the Province, where similar activities are taking place, in particular Balama, Montepuez and City of Pemba. At the end, he thanked the lessons learnt from Mondlane community. He said that it was very pleasing to note that Mondlane’s population is well informed as regards to this Project. He thanked the spirit of solidarity shown by the population, as it showed its willingness to make available more areas to the population to be resettled. He also stressed that the Government's task is to ensure that the community rights are safeguarded and called for a lot of dialogue and search for solutions to problems, and the involvement of the whole community, in the subsequent steps of the Resettlement Plan’s implementation.

The National Director of Territorial Planning and Resettlement, in turn, thanked the Mondlane’s population for their contributions and said that the Central Government attaches great importance to the Project, which is why staff from various Ministries was mandated to join this community for the review process of the draft Resettlement Plan. He then stated that, for the materialisation of this Project, it is necessary to involve people with knowledge of various areas in order to avoid failures and complaints in the implementation process. He thanked the community for the message presented, which demonstrates that the community is clear in defining their priorities, showing high sense of community organisation. He thanked once again the readiness of Mondlane community to welcome Quitupo population. The Government is
working with the Project to ensure that community concerns are met. He reiterated that the Project will attract other service providing companies, which will provide employment opportunities at local level. He recommended that population should strive to learn to write, read and count, as it is advantageous for job vacancies. At last, he indicated that his dream is to see children working in this great undertaking, in the future, thus contributing to the development of communities and the Palma District in general.

Closing the meeting, the Community Leader, Mr. Cheia Issa, thanked profusely the engaging way as the IV round of Public Consultation took place in Mondlane.

There being no further business to discuss, the IV Round of Public Consultation Meetings to Mondlane Community was terminated at 4:15 pm, and the Minutes was drafted and will be signed and witnessed by representatives of the Government, the project developers and the community.
